SPRINGWATERS

POLL DORSET STUD EST. 1979

Welcome to our 20th Annual Poll Dorset Ram Sale

217 Poll Dorset rams

Inspection from 10:30am ◦ Online auction 1pm

We would like to welcome you to our 20th annual ram sale in Boorowa. We will be offering 217 rams and we are very pleased with the type of sheep we have presented. We set out to breed sheep with early maturity and heavy muscling, in a balanced package of carcass shape, structural excellence and doing ease.

The 2023 draft represents some of our most established bloodlines as well as some new rams carrying on these genetics and some new sires introducing new genetics. We put a lot of emphasis on consistency, which is built on the use of our own genetics and the considered introduction of others.

Our catalogue for 2023 has undergone a change in format to accommodate the ever increasing data points available for selection. We have included Lamplan ASBV's in our catalogue for the first time. Our approach to these ASBV's is fairly pragmatic, you won't see any changes to the phenotype of our sheep in their pursuit, rather, we will endeavour to work on the numbers over a period of time.

We have adopted and utilised Genomic DNA technology in our stud over the last 12 months with over 2000 samples submitted and analysed on our stud ewes and 2023 lamb drop. On farm practicalities and efficiencies as well as quality assurance are among the major motivators to go this way. We also think it is an investment in the future accuracies of our ASBV's, utilising the most scientific ways to track various traits as opposed to the more ambiguous ways these ASBV's have been derived in the past.

Thank you very much for the interest in our breeding program.,
Dane and Lisa, Dennis and Jo-Anne

SPRINGWATERS

POLL DORSET STUD EST. 1979

The live auction will be interfaced with AuctionsPlus. If you intend to purchase online, you will require an AuctionsPlus registered buyers account

RAM LAMBS

We have included a selection of April 2023 ram lambs in this catalogue. Ram lambs can require some different management as opposed to mature rams. They need to be looked after post-joining to allow them to mature and grow out naturally. These lambs are recommended for joining from about 1st December 2023. If you haven't used ram lambs in the past, feel free to contact Dane to discuss the serving capacity and capability of these young sires. We have selected lambs that would normally be part of our 2023 ram sale and not rams that would be sold as grade rams. In our view, they are of the same standard as the older rams, just not displaying the maturity on sale day.

Springwaters is located at "Corcorans Plains", 422 Cunnigar Road, Boorowa, NSW – 7kms from Boorowa and 32kms from Harden.

Scanning for performance traits in animals has become a significant on-farm measuring tool over the last 10 years within the stud industry.

Australian STOCKSCAN Services P/L scanners assess sheep at around 12 months of age for the following:

- Weight (LW)
- Eye Muscle Width (A)
- Eye Muscle Depth (B)
- Fat Measurement (C)

Eye Muscle Area (EMA) is calculated using the eye muscle width and eye muscle depth measurements.

The meat index is based on the Eye Muscle Width, Eye Muscle Depth and Fat Measurement with an adjustment for the age of the sheep.

STOCKSCAN figures as at 27th July 2023

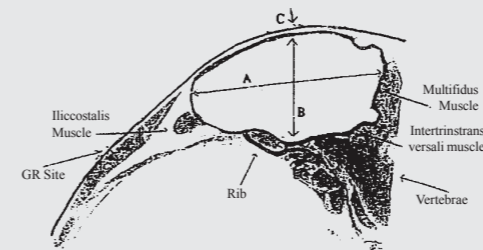

Figure 1: Exposed 12th rib on the carcass cut through the last thoracic and first lumbar vertebrae.

DNA PARENT VERIFICATION AND GENOMICS

The 2023 drop rams are the first draft of animals to all have a Genomic 50k test and DNA parent verification. All specially selected rams have had a genomics DNA test carried out.

SIRE SUMMARY

GOLDIE **SW200627**

Sold in our 2021 sale for \$20,000, Goldie has been used extensively through AI. He sired the 2023 Poll Dorset Champion of Champions, SW220091. He is an early maturing, powerful ram, while maintaining fantastic shape through the shoulders. He also boasts great carcase data EBV's, sitting in the top 5% for IMF. 48 sons sell.

GUINNESS **SW180022**

Guinness has sired the top priced ram at our previous three ram sales. He has really stamped his name on the Poll Dorset breed through the top tier of sons he has produced. He transmits fantastic early growth and shape into his progeny and has some great sons throughout the catalogue. 20 sons sell.

Supreme Poll Dorset ASWS Bendigo
Senior Champion NSW Dorset Championships
Reserve Champion Sydney Royal

POCOCK **SW160066**

Not as well represented this year as in previous years, but his sons Goldie and 75-18 are capably pushing his genetics through the catalogue. Renowned for muscling and consistency, there hasn't been many rams who have made a bigger impact on the Poll Dorset breed. 2 sons sell. 57 paternal grandsons sell.

Supreme Exhibit Sydney
Supreme Exhibit NSW Championships
Senior Champion Australasian Bendigo
Champion Ram Lamb Australasian Bendigo

SIRE SUMMARY

SW200389

Another ram descending from Pocock, he adds extra length and bone to his progeny. His first offering of sons sell in this sale. A lot of power through him, he produces sons that weigh heavy and grow into strong sires. 29 sons sell.

SW200065 **(TOP LEFT PHOTO)**

A more moderate framed ram, retained for his carcase shape from shoulders through to hindquarters. A lot of muscle in the back leg, while providing a laid in, classic wedge shape through the front. His first draft of rams are being offered this year. 21 sons sell.

SW190105 **(TOP RIGHT PHOTO)**

Heavy boned, thick bodied ram with great muscle expression through the back. Breeding particularly clean pointed rams with plenty of growth and grunt. Expect plenty of early growth from his progeny. 9 sons sell.

SW180075

Has had three really impressive groups of sons sell through our ram sales in previous years. Perhaps he's taken a back seat to Goldie as our premier Pocock son this year, but breeds so consistently we will have a place for him for a while yet. Near perfect foot and leg structure. 9 sons sell.

SW180365

Perhaps the most moderate framed sire in our stable, but extreme for muscle experience. A very exciting son, 770-21, was retained last year; expect to see a lot of sons in coming years. Produces rams with fantastic shape through the back leg. 11 sons sell.

PUNCHGROVE 140016

Purchased in 2015, he has been used for a second round of targeted AI joining in the last two years with some exceptional results. We kept a great son last year and a feature son is sold at lot 4 this year. Lots of thickness and growth, great width through the loin. 5 sons sell

PALANA 190103 + PALANA 190058

Purchased together in 2021, both rams are paternal brothers sired by a thicker style Tattykeel ram. Plenty of breed type with good bone and skins. Some great early maturing sons particularly through the spring drop section. 44 sons sell

GLENORE 210048

Used as an AI sire, he was selected for his structural excellence and similarity to our own type. A good draft of his sons are offered through the ram lamb section, displaying a lot of early maturity to make the grade at such a young age. 8 sons sell

9	48.28	1787		

A little more scale in this Goldie son. A ram with a lot of presence, both through his sires outlook and his body mass. A traditional dorset head and fantastic bone. He is another ram who displays Goldies ability to breed great phenotype with a balanced data set, which is a combination that is hard to find.

The carcass quality in this ram is as good as any we have on offer. So much meat through the hindquarters and loin, his raw data scans are phenomenal. He is square from any angle you look at him. We retained a brother to 85 last year, and if we had not, this ram would be kept in our stud. First in the performance class at the Australasian Dorset championships, and the NSW Dorset championships.
