INSURANCE!**

2024 SALE: 12PM CST FRIDAY, FEBRUARY 9
849 AVENUE RANGE ROAD, AVENUE RANGE SA
FIELD DAY: MONDAY, FEBRUARY 5

WWW.GRANITERIDGEANGUS.COM.AU

Welcome to our 17th on-property sale

On behalf of the of the Family and the GR Operations Team I welcome you to our **17th Granite Ridge Angus Autumn Bull Sale** to be held on **Friday 9th February** commencing at 12pm.

We are very proud to offer 100 quality stud and herd improving bulls in this year's catalogue, which includes 80 Autumn Drop rising 2 year olds and 20 youngsters from our Spring Drop program. A feature of the draft is 4 bulls that have been used for the 2023 joining as backup sires, that we believed have the pedigree and performance to complement our program. To follow with the tradition of previous sales we will also offer on AuctionsPlus a selected group of calved and calving heifers from within the nucleus of our commercial heifers to coincide with our bull sale.

As an introduction to what is on offer, we are excited to be offering our first sons by **Milwillah Jaal P3, Merridale Quackier Q140** and **Sitz Tailor Made**. While providing sons of in-herd proven performers **Millah Murrah Paratrooper P15, SS Brickyard, Bruns Blaster, Baldrige Beast Mode, Granite Ridge Quincy Q146** and our own legendary herd sire **Te Mania Mortlake M1484**.

We are confident these sires have continued to provide us with the quality of bull that reflects what we at Granite Ridge are about, functionable ease of care cattle with growth rates and carcass merit with performance. We continue to source sires that will complement the renowned power and strength of the Granite Ridge cow herd and continue to progress our program into the future.

In recognition of the many objectives our clients wade through with the selection of their future sires we have decided to make the actual **"RAW DATA"** of each individual bull a component of the catalogue. This year in an endeavour to complement the Estimated Breeding Values of the bull we have provided such detail as the physical birth weight, scan data of fats and muscle, structural foot scores all to assist with your selection options and purchasing decisions.

To enhance what is on offer Genomics Testing (50k) has been completed on all bulls with this test verifying parentage and improving the accuracy of the estimated breeding values (EBVs). While for your bidding confidence all

bulls have been structurally scored and scanned on 19/11/23 by Max Bowman and the integrity of each bull has been further assured with each bull having passed their semen and reproductivity test on 5/12/23 completed by Nation Wide AB, assessing all as fit and ready for work.

The Granite Ridge herd is J-BAS 8 which allows our cattle entry into all States and Territories, all veterinary treatments and vaccinations have been completed in accordance with the new industry standard "IMMUNE READY" Program. To give you peace of mind while your bull purchase settles in to his new home, Granite Ridge offers a complementary free one-month insurance cover (provided by Daniel Menzel of Elders Insurance) and applicable for all bulls purchased on sale day.

For the convenience of all the 2024 sale will be interfaced with AuctionsPlus with full audio and video available to our off-site audience who chose to operate online. Once again for the benefit of the bulls we will not be running cattle through the ring on sale day, instead opting to utilise pre-recorded video of each lot which will immerse you into a "larger than life" big screen experience for the sale of the individual lots.

We look forward to your interest at either of the on property events - **Beef Week Field Day, Monday 5th February** or Sale Day. Come and say hello to the Granite Ridge team, we look forward to meeting you and are confident that no matter what your bull requirements are there will be a bull here to suit.

GRANITE RIDGE ANGUS = ROCK SOLID GENETICS!

17TH BULL SALE

12PM FRIDAY, FEBRUARY 9, 2024

Field Day: Monday, February 5, 2024

104 HBR BULLS

Sale interfaced by:
 AuctionsPlus™

ATTENTION BUYER

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name are as follows:

PV: both parents have been verified by DNA; SV: the sire has been verified by DNA; DV: the dam has been verified by DNA; #: DNA verification has not yet been conducted; E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Scan this code to visit our website for the latest news and sale details.

Commissions and Rebates

A rebate of 4% is offered to outside Agents who introduce their clients to the Auctioneer in writing prior to the sale as well as accompany them to the sale and settle on their behalf within 7 Days.

A 1% rebate is offered to outside Agents that introduce their clients to the Auctioneer in writing prior to the sale and settle on their behalf within 7 Days.

Agents – please note:

All introductions to be made to Scott Finlay either via phone: 0407 184 062 or email: sfinlay@graniteridgeangus.com.au

CHECKLIST

Sale Date and Prior Inspection Time

Selling will commence at 12pm on Friday 9th February 2024. All Sale Lots can be inspected on the Field Day which is Monday 5th February or on the morning of the sale from 10am. At any other time by arrangement with Scott Finlay - 0407 184 062.

Phone Bidding

Phone bidding can be arranged prior to the sale by contacting either Elders – Laryn Gogel on 0436 020 245; or Scott Finlay on 0407 184 062.

Selling System

Sale of animals will be conducted under normal auction conditions. All animals are sold exclusive of GST.

BULLS: Each bull will be sold as a separate Lot.

Bull Rebate

A commission of 4% will be paid to any external agent attending the sale with or on behalf of their client and settling within 7 days. A 1% commission will be paid to any non attending agent and settling within 7 days.

All introductions to be made to Scott Finlay either via phone: 0407 184 062 or email: sfinlay@graniteridgeangus.com.au

This will be strictly policed.

Insurance

All bulls sold with 1 month's free insurance, thereafter insurance is the purchaser's responsibility. Insurance Agent will be available on sale day to organise any insurance requirements.

Delivery

Granite Ridge offers free delivery for all bulls within a 200km radius. Arrangements must be made on the day of the sale by filling in the Buyer's Instruction sheet and handing it to an Agent.

When the bull or bulls arrive home, unload at the yards into a group of house cows, steers or herd cows. Bulls from different origins should be put into separate yards with other cattle for company. Provide hay and water, then leave them alone until the next morning.

Registration

All Bulls are HBR Registered with Angus Australia. The vendor will transfer each bull to the new owner, so please supply the correct information on the Buyer's Instruction sheet.

Scanning

Bulls were scanned by Max Bowman Livestock (Accreditation No. 1026) on the 10/11/2023 for Fat, EMA and IMF.

Health

- All bulls - J-BAS 8.
- Granite Ridge Angus is LPA Accredited and J-BAS 8.
- Our herd has been Faeces tested free for Johnes.
- Bulls have been 7 in 1 Vaccinated.
- Bulls have been Vibromax vaccinated.
- Bulls have been vaccinated for Pestivirus.
- Bulls have been ear notch tested free of Pestivirus.
- Bulls have been treated with Dectomax Pour on.
- All vaccinations on Immune Ready Program.

Breeding Soundness

All bulls have undergone a thorough examination by Nationwide Artificial Breeding on the 21/12/2023, including semen testing and checks for any genital abnormalities.

Contemporary Groups and their Feed

The bulls have been run in two contemporary age groups on irrigated pastures containing Lucerne, rye grass and clover. The bulls have been supplementary fed with hay, silage and a limited grain ration provided by Hills Farm Supplies.

Recessive Genetic Conditions

All Sale bulls are free from AM, NH, CA, & DD either by pedigree or by testing.

Catering

Refreshments available on sale day with the compliments of Granite Ridge Angus. All are invited to remain for a bbq and drinks following the sale.

Accommodation

Kingston SE has various accommodation options, both Motel and Hotel. Naracoorte and Millicent are other options within easy driving distance. Kingston 20 minutes, Naracoorte 40 minutes and Millicent an hour and 10 minutes.

Caring for your New Bull

On arrival at their new home it is important that you have a suitable mob of animals to greet the bull to minimize the bulls stress. Remember they are leaving the security of a large mob and will be arriving in unfamiliar surroundings. Steers or pregnant cows would be suitable, certainly not other bulls. They are used to being worked with quad-bikes or horseback, but not with dogs.

Bulls are in good working condition at point of sale, but good nutrition for the bull during the joining period is imperative as this equates to good joining results. Check regularly that the bulls are working to detect any problems early, therefore minimizing damage to the bull and to conception rates.

Warranty

All bulls have been independently evaluated for structural soundness and fertility. To the best of our knowledge the bulls are all in sound working condition at the time of sale.

If, during the next 12 months, a bull becomes infertile or breaks down, provided it is not caused by injury or disease contracted after leaving Granite Ridge, (a veterinary certificate may be required) we will:

- a) replace the bull with as close a match as possible (excluding any costs and expenses of the purchaser taking delivery); or
- b) grant a full credit (less any salvage value) for any purchase at Granite Ridge's next sale.

Health & Safety of Visitors

Our bulls are bred to work not for showing so they need to be shown respect. Under normal conditions they are quiet to handle, however even the quietest bull is in fact an unpredictable animal so be alert. Do not crowd the bulls or loiter inside pens unnecessarily. Please call on an escort through the bulls if required.

**VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK.
NO CHILDREN ALLOWED IN PENS.**

THE TRANSTASMAN ANGUS CATTLE EVALUATION (TACE)

What is the TransTasman Angus Cattle Evaluation?

The TransTasman Angus Cattle Evaluation (TACE) is the genetic evaluation program adopted by Angus Australia for Angus and Angus infused beef cattle. TACE uses Best Linear Unbiased Prediction (BLUP) technology to produce Estimated Breeding Values (EBVs) of recorded cattle for a range of important production traits (e.g. weight, carcase, fertility). TACE includes pedigree, performance and genomic information from the Angus Australia and New Zealand Angus Association databases to evaluate the genetics of animals across Australia and New Zealand. TACE analyses are conducted by the Agricultural Business Research Institute (ABRI), using beef genetic evaluation software developed by the Animal Genetics and Breeding Unit (AGBU), a joint institute of NSW Agriculture and the University of New England, and Meat and Livestock Australia Limited (MLA).

What is an EBV?

An animal's breeding value can be defined as its genetic merit for each trait. While it is not possible to determine an animal's true breeding value, it is possible to estimate it. These estimates of an animal's true breeding value are called EBVs (Estimated Breeding Values). EBVs are expressed as the difference between an individual animal's genetics and a historical genetic level (i.e. group of animals) within the TACE genetic evaluation, and are reported in the units in which the measurements are taken.

Using EBVs to Compare the Genetics of Two Animals

TACE EBVs can be used to estimate the expected difference in the genetics of two animals, with the expected difference equating to half the difference in the EBVs of the animals, all other things being equal (e.g. they are joined to the same animal/s).

For example, a bull with a 200 Day Growth EBV of +60 would be expected to produce progeny that are, on average, 10 kg

heavier at 200 days of age than a bull with a 200 Day Growth EBV of +40 kg (i.e. 20 kg difference between the sire's EBVs, then halved as the sire only contributes half the genetics). Or similarly, a bull with an IMF EBV of +3.0 would be expected to produce progeny with on average, 1% more intramuscular fat in a 400 kg carcase than a bull with a IMF EBV of +1.0 (i.e. 2% difference between the sire's EBVs, then halved as the sire only contributes half the genetics). Using EBVs to Benchmark an Animal's Genetics with the Breed EBVs can also be used to benchmark an animal's genetics relative to the genetics of other Angus or Angus infused animals in Australia and New Zealand.

To benchmark an animal's genetics relative to other Angus animals, an animal's EBV can be compared to the EBV reference tables, which provide:

- the breed average EBV
- the percentile bands table

Considering Accuracy

An accuracy value is published with each EBV, and is usually displayed as a percentage value immediately below the EBV. The accuracy value provides an indication of the reliability of the EBV in estimating the animal's genetics (or true breeding value), and is an indication of the amount of information that has been used in the calculation of the EBV. EBVs with accuracy values below 50% should be considered as preliminary or of low accuracy, 50-74% as of medium accuracy, 75-90% of medium to high accuracy, and 90% or greater as high accuracy.

Description of TACE EBVs

EBVs are calculated for a range of traits within TACE, covering calving ease, growth, fertility, maternal performance, carcase merit, feed efficiency and structural soundness. A description of each EBV included in this publication is provided on the following pages.

BREED AVERAGE EBVs

	Calving Ease		Birth		Growth					Fertility				Carcase				Other				Structure			Selection Indexes

* The percentile bands represent the distribution of EBVs across the 2022 drop Australian Angus and Angus-influenced seedstock animals analysed in the January 2024 TransTasman Angus

UNDERSTANDING EBVS

FEED EFFICIENCY			
Net Feed Intake (Post Weaning)	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a growing phase.	Lower EBVs indicate more feed efficiency.
Net Feed Intake (Feedlot)	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.
TEMPERAMENT			
Docility	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
STRUCTURE			
Front Feet Angle	%	Genetic differences between animals in desirable front feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
Front Feet Claw Set	%	Genetic differences between animals in desirable front feet claw set structure (shape and evenness of claw).	Higher EBVs indicate more desirable structure.
Rear Feet Angle	%	Genetic differences between animals in desirable rear feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
Rear Leg Hind View	%	Genetic differences between animals in desirable rear leg structure when viewed from behind.	Higher EBVs indicate more desirable structure.
Rear Leg Side View	%	Genetic differences between animals in desirable rear leg structure when viewed from the side.	Higher EBVs indicate more desirable structure.
SELECTION INDEXES			
Angus Breeding Index	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self-replacing herd using Angus bulls. This selection index is not specific to a particular production system or market end-point, but identifies animals that will improve overall profitability in the majority of commercial grass and grain finishing beef production systems.	Higher selection index values indicate greater profitability.
Domestic Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self-replacing herd targeting the domestic supermarket trade.	Higher selection index values indicate greater profitability.
Heavy Grain Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self-replacing herd targeting pasture grown steers with a 200 day feedlot-finishing period for the grain fed high quality, highly marbled markets.	Higher selection index values indicate greater profitability.
Heavy Grass Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self-replacing herd targeting pasture finished steers.	Higher selection index values indicate greater profitability.

BIRTH			
Calving Ease Direct	(%)	Genetic differences in the ability of a sire's calves to be born unassisted from 2 year old heifers.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
Calving Ease Daughters	(%)	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
Gestation Length	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
Birth Weight	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.
GROWTH			
200 Day Growth	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
400 Day Weight	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
600 Day Weight	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
Mature Cow Weight	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
Milk	kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.
FERTILITY			
Days to Calving	kg	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
Scrotal Size	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.
CARCASE			
Carcase Weight	kg	Genetic differences between animals in hot standard carcase weight at 750 days of age.	Higher EBVs indicate heavier carcase weight.
Eye Muscle Area	cm ²	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate larger eye muscle area.
Rib Fat	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more fat.
Rump Fat	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcase.	Higher EBVs indicate more fat.
Retail Beef Yield	%	Genetic differences between animals in boned out saleable meat from a 400 kg carcase.	Higher EBVs indicate higher yield.
Intramuscular Fat	%	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more intramuscular fat.

The Elders logo, featuring the word 'Elders' in a white, cursive font on a red rectangular background.

Don't let pestivirus rob you blind

Pestivirus is an insidious cattle disease. It can take from you before you know it.

It causes significant reproductive and performance issues, and weakens immune systems – leading to other costly cattle health problems like respiratory disease. In fact it costs the industry over \$114m every year.^[1]

To protect your herd from pestivirus and optimise your returns, it pays to be on Pestigard.

Find out how easy it is at your local rural reseller or cattle vet.

OUR THANKS

We would like to thank all purchasers and under bidders as well as all visitors for supporting the Granite Ridge Bull Sale.

It is your contribution to this day which makes it such a success and we are grateful for your attendance.

We invite you to join us after the sale for a BBQ and refreshments.

CATALOGUE DISCLAIMER AND LOCATION MAP

SALE CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

DNA PATERNITY VERIFICATION

It is a requirement of Angus Australia that all bulls used to sire calves for registration in the Angus Australia Herd Book Register, Red Angus Register or Angus Performance Register must have been DNA paternity verified if they are born in, or after the 'Y' year (2003). Buyers intending to use bulls listed in this catalogue to produce calves to be registered in these registers should obtain DNA paternity verification on those bulls before they are used for breeding.

PRIVACY INFORMATION

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the following form and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents

.....
.....

from member (name)
do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name:.....

Signature:

Date:

Please forward this completed consent form to:
Angus Australia, 86 Glen Innes Road, Armidale NSW 2350. If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email office@angusaustralia.com.au
