

# Richmond Hill Angus Autumn Sale

**Featuring 4 Cows that  
have bred stud sires**

**19th of March 2024 at 2pm**  
Featuring  
**16 Bulls And 8 Cows**

# Welcome

Richmond Hill Angus  
2024 Autumn Sale

Welcome to our 2024 annual bull and female sale. The last twelve months has certainly been a rollercoaster within the beef industry, from price highs to a sudden drop in beef prices. Thankfully as I'm writing this beef prices are rising again, along with confidence.

The bulls in our sale this year have gone through a hard winter here, but have performed well through spring and into summer. I have been irrigating a couple of paddocks of pasture for them and they have had a feeder full of hay to pick at. As usual we have selected what we think are our top bulls of the drop for the sale, there are new and proven reference sires represented.

Our selection of stud females in this years sale are an excellent line of cows. They would be a good base to start a small herd or add new bloodlines to an existing herd, registered or commercial. Showing excellent feet and temperament they will breed with confidence.

Breeding cattle is a constant evolution, we are forever finding new sires to try. Some work and others do not, we take the risk so you do not have to. Only the best make it back into our herd and sale. From selecting sires to use over our cows all the way to an 18 month old bull it takes 3 years, its an exciting but slow process. We do not breed just on numbers, our cattle have to perform in the real world. Our weaning and yearling weights are constantly improving over many years with no added inputs, just hay and pasture and we have actually increased cow numbers as well.

If you have any questions on the sale cattle or our operation that are not answered here please do not hesitate to call me or find me on sale day, I will try to answer them. Thank you for reading,  
Derryn

## Inspections

Sunday the 17th of March 10am to 2pm  
Tuesday the 19th of March from 1pm.  
260 Liffey Road, Bishopsbourne, Tas, 7301

## Contact
