

PALGROVE

'FIRST
OF
OUR **FINEST'**

ULTRABLACK SALE

9th May 2024, 5.30pm
Centre Ring, **BEEF 2024**

Welcome to the 'First of our Finest'.

This is indeed a special sale, signifying the first access to our elite Ultrablack females and an opportunity to secure our top genetics as we sell our **ENTIRE SHOW TEAM**.

This year will mark a momentous occasion for Palgrove as we step back into the show ring at BEEF24. We are excited to showcase the Ultrablack breed for the first time at the country's premier beef industry event. We haven't shown cattle for more than a decade, and this will be a one off for us to support this occasion. We intend on showing 17 head, 5 bulls and 12 females, all of which will be sold in the centre ring on the Thursday night following the interbreed judging.

Our Ultrablack program is in its 15th year, we have seen significant growth in the last 6 years in terms of breeding females and number of bulls getting sold across Australia. The phenotype, data and feedback we are receiving on the Ultrablack cattle is proving they will be a driving force to improve profitability for commercial producers, particularly in northern Australia.

While we have sold Ultrablack females privately or in bigger runs of commercial females on AuctionsPlus in the past, we have never offered the 'top end' of our females due to the growth phase of our herd.

We look forward to catching up with you all at the sale on the 9th of May at Beef24.

Please make sure you call to see us at Site O50 throughout the week, If you can't make it to the sale in person the sale will be Interfaced with AuctionsPlus and we hope we can see you at one of sales later in the year.

palgrove.com.au

Inspection:

Cattle may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you and bid via phone or AuctionsPlus. Please discuss your requirements with Ben, we enjoy being a part of the decision making process.

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Breeding Soundness:

All animals offered for sale have passed a semen test or Preg test on relevant animals, by Veterinarians from Ced Wise ABS.

All bulls offered for sale have been examined by the stud's Veterinary consultant for structural and physical soundness to Australian Veterinary Association standards. A Bull Breeding Soundness Evaluation Certificate will be available.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove maintains a J-Bas 7 status, so animals are free to move to anywhere in Australia. Sale bulls have been inoculated twice with 7-in-1; Pestigard, Vibrio and 3 Day Sickness along with a single dose of 3 germ tick blood.

Female have been inoculated twice with 7-in-1; Pestigard and a single dose of 3 germ tick blood (unless stated otherwise).

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. Hourn and Bishop will be handling the delivery of sale cattle.

Parent Verification Assurance:

PV - these lots have been DNA Parent Verified (both Sire & Dam)

SV - these lots have been DNA Sire Verified

DV - these lots have been DNA Dam Verified

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

Breed Registration:

All animals in the Sale are dual registered with both Angus Australia MBR and Brangus Australia.

All information displayed in the Catalogue, is as used in Anugs Australia.

If looking up animals in the Brangus Society Palgrove's Prefix is PK. eg PK 22UT1169.

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

Our Approach:

Even though the scale of the registered herd has increased substantially since 1969, our breeding objectives haven't waivered. We aim to drive performance through our genetics to improve profitability and efficiency in beef production, while maintaining customer satisfaction.

Palgrove buyers expect the best from our cattle - whether it's a one stud sire or a draft of 100 commercial bulls. Our job is to deliver cattle and service that is beyond our clients' expectations.

Palgrove Properties:

The Palgrove herd is run across a diversified group of properties in Queensland and New South Wales, Australia. This enables us to run our breeding herd and grow out our sale bulls under commercial conditions. Our breeding properties are located at Ben Lomond, Warwick and Inverell, with our bull deopt at Drillham QLD and our new Sale Complex near Chinchilla. These properties allow us to provide our clients with a year round supply of cattle that are easily accessible at a number of locations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove stud, we have been using raw data and Breedplan to measure the genetic improvement in our cattle for the three main profit drivers:

- a) Fertility
- b) Growth and Weight Gain
- c) Carcase Merit

It's been a systematic selection process over 50 years with Palgrove possessing the largest and most comprehensive Charolais and Ultrablack EBV data in the country.

We've always focused our breeding program on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcase \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcase and eating quality. We don't just make claims - we deliver value!

GLEN WILGA SALE COMPLEX

OPENED SEPTEMBER 2023

In this sale, the Estimated Breeding Values (EBV) presented are from the TACE Angus MBR Breedplan (April 2024).

Each breed runs a separate Breedplan evaluation. As the genetic base for each breed is different, only EBVs for animals within a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack or Brangus bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBV's are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recored on HBR/APR registers.

For the past two years Angus Australia and Palgrove have been working together to provide tailored benchmarking information on our registered Ultrablack animals. This has involved producing averages and percentile rankings based only on the TACE EBVs of all 2022 born Ultrablack or Brangus animals recorded with Angus Australia. This new benchmarking information is presented in this sale catalogue. We hope this makes it easier for you to make comparisons on these animals.

When assessing cattle performace, it is essential to always compare 'apples' with 'apples'

Palgrove has been breeding Ultrablacks for over fifteen years and are now consistently producing a more adapted Angus-based breed combination for clients across Australia.

These are specifically designed high Angus content Brangus bulls (typically 82% Angus and 18% Brahman infusion) that we call 'Palgrove Ultrablacks'.

We retain as much Angus carcass and meat quality (both in EBV selection and phenotype) as possible and add selection for sleek coats and clean sheaths to our breeding programme.

The bulls resemble a 'tropical Angus' with a sleek coat, pliable hide and the constitution that comes from their 'hint of Bos Indicus' and have the 'meat quality of Angus in a heat tolerant package'.

We know that our bulls need to be equally at home in northern or southern production regions of Australia and that our bulls needed to have clean sheaths; sleek coats; growth and carcass quality, so we focused our genetic design on these when selecting for both phenotype and objective data.

We have been careful to select predictable Brangus and Angus breeding sires from commercially focused herds with high accuracy Breedplan data.

The use of AI, Embryo Transplant and walking bulls that combine the best of USA and Australian genetics means that we are able to produce consistent quality bulls that suit any Australian environment.

Reports from our clients have been overwhelmingly positive - "the heifer progeny mature at an earlier age and fertility percentages have risen markedly".

And this... "the Ultrablacks are outperforming any other tropical cross cattle we've trialed, from weaners, background and feedlot weights as well as grass fed bullocks".

Talk to us about your breeding options with these Ultrablack cattle that are BRED TO DELIVER.

SIRES OF INFLUENCE

PALGROVE QUALITY TIME (P) ET

- Imported embryo that was retained by Palgrove and has over 250 progeny on the ground.
- Moderate birth weight sire that adds plenty of weight for age, strong carcass traits and great skins.
- He's deep and square and is producing easy fleshing cattle with a touch more bone and plenty of performance.
- His sons will feature at the front end of our September sale.

PALGROVE REVOLUTION (P)

- We considered Revolution to be the 'complete package' when he sold in 2022 for an Australian record at the time for \$70,000.
- Phenotypically Revolution was hard to fault - built in natural balance and constitution and plenty of butt shape.
- Like his sire Brickhouse, he will improve sheath design in his progeny.
- His full sister sells at lot 9 and the first of his progeny to be sold sells at lot 8 - both have pedigrees of Ultrablack royalty.

PALGROVE QUICK RELEASE (P) ET

- Quick Release is an imported embryo out of the US.
- He's a smooth muscled clean made sire. After his first progeny hit the ground easily and with low Birth Weight data we have used both him and his sons in our heifer programs.
- Quick Release is by arguably one of the best sires to come out of the US, Suhn's Foundation and out of Suhn's Business Line's dam – You can't get a better pedigree than that.
- His first sons sold at last years Annual sale to a top of \$48,000.

SF BRICKHOUSE

- Impact sire out of the Geneplus program in the US.
- After inspecting his dam in the US and combining her with Foundation, it's easy to see where he gets his depth of body; volume; structural integrity and breeding consistency.
- He has been used in our Ultrablack and Brangus programs and has proven he will improve sheath design in one generation.
- High ranking Growth, Yield and Scrotal Size EBV's with IMF in the top 15%.

S: PALGROVE NOCKABOUT N575

S: PALGROVE ROWDY R714

D: PALGROVE FLORENCE N2192

S: SUHN'S FOUNDATION

D: PALGROVE CALLISTA Q26

D: PALGROVE CALLISTA G146

We can't breed them anymore correct - he's long bodied, thick topped, with plenty of butt shape and sire appeal.

Great combination of pedigree - His sire Rowdy, was by Nockabout, who was the high selling bull in 2019.

His dam is by the consistent producing Foundation - 16 sons have sold at auction to top at \$50,000 and average \$23,300.

He's right where we aim to be in our Ultrablack program - medium framed, sleek skin, ideal sheath design, big scrotal, great structure and loads of volume and capacity.

Thurston is up there with the best we have produced.

Homozygous Polled, Heterozygous Black.

D: CB MS NORTH STAR

S: ELLINGSON ROUGHRIDER

D: ANVIL SALLY N148

D: ANVIL SALLY J016

Trendsetter has always been one of the higher performing bulls amongst his contemporaries – At 400 day scanning he combined an EMA of 104 with an IMF of 7.2%.

The front end of our September sale will be littered with these Quality Time sons – We have used him heavily in our program with over 250 progeny on the ground.

Dam – consistent producer with all her females remained in the herd.

We are proud of the way we have moulded these Ultrablack bulls to fit the Australian landscape and markets – sleek skinned, plenty of carcass shape, combined with strong maternal and fertility traits.

Homozygous Polled, Homozygous Black.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion. TSUs are easy to use and yield excellent lab results.

TSUs can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and its identification.

They don't come much sweeter, she's a favorite amongst our team – Ideal phenotype and constitution with a bomb proof temperament.

She has the typical length, appeal, and hip shape we have come to expect from the Quick Release progeny. He continues to be used in both our heifer and cow programs and his first 9 sons to sell at auction topped at \$48,000 to average \$19,777.

Great joining prospect to the highly anticipated GACC Data Bank due 4/08/24. This will be some of the first Data Bank progeny born in Australia with semen only coming on the open market in spring 2024.

Homozygous Polled, HOMOZYGOUS Black.

D: PALGROVE CINNAMON R662

D: PALGROVE CINNAMON B80

Second generation Ultrablack by the ever-consistent Kingpin who has produced Australian record top price holders and due to his calving ease traits was used in our heifer programs.

Cinnamon's ideal combination of carcass shape, softness and femininity highlights why she will be a future matron. This is backed up with her perfect teat size and placement.

You will admire the extra length and butt shape. She measured a massive 7.6% for IMF with a EMA of 91 square centimeters at 400 day scanning.

Ideal type to inject back through a Brangus program.

Homozygous Polled, Homozygous Black.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

(a) Refuse to acknowledge any bid;

(b) Withdraw any lot or lots before or during the sale;

(c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription, or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any

purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.3 Claims under Clause 17.1 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
