Offering 18 Angus Bulls & 10 Commercial PTIC Angus Heifers

ONLINE ONLY SALE

Welcome to

Ironbark Glen Stud

Welcome to our first Angus Sale.

Ironbark Glen Stud has been established since 1986, breeding Poll Herefords and having commercial Angus since 2014 and moving into Stud Angus three years ago.

We are located in the Central Tablelands at Oberon. We have been fortunate to have had a good season since the beginning of the year with good rains.

The foundation cows are from heifer cows and cows bought from Bowen, Murdeduke, Booragul and Kidman bloodlines. Selected for their volume, depth, maternal traits, evenness of udders and good footed females. Some of our bulls presented this year, were calves at foot from the purchase of some of these heifer cows.

Sires of the bulls are by Murdeduke Momentous CSWQ013, Murdeduke Marlon Brando son CSWQ121, Murdeduke Black Pearl CSWP082, Landfall New Ground TFAN90, Hazeldean Hydro NHZQ1917, Temania Qarara VTMQ514 and Kidman Renegade BKCC121. These Sires have the traits we are looking for as well as good EBVs. We believe the bulls in our sale have the muscle, depth, soundness, docility, and EBV traits that we are all looking for. They are extremely quiet and have excellent temperament. They are a good representation of the Angus Breed.

All of the 18 bulls have been semen tested. They have had Bovi-Shield, 7 in 1 and Multimin.

We also have 10 Angus commercial heifers PTIC due to calve August/September by Ironbark Glen Stud Angus bulls.

The Sale will be online and interfaced with Auctions Plus.

Both bulls and heifers will be penned for viewing on sale day or by appointment.

For enquiries or inspections please contact us on the numbers below. We would love to show you through and we hope to see you on the day!

Kind Regards,

Vic & Adam Camilleri

Sale Day Safety

Visitors enter the cattle pens at their own risk.
All children must not enter the yards at any time and they must be monitored by an adult at all times.
We cannot cover every example of the dangers of cattle handling, so please use common sense.

Taking delivery of your new bull

To help your new bull, bulls or heifers settle into their new home as well as possible, we recommend the following:

1. you have some of your cattle in the yard when your new bull arrives such as PTIC cows or steers, to keep them company until they settle in.
2. All bulls have been run in mobs with plenty of mates around and not been alone.
3. We handle all our cattle quietly and confidently, we always give our cattle respect and our cattle respect us and the cattle have not been handled with dogs.

DISCLAIMER AND PRIVACY INFORMATION

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

: DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.
