ANNUAL BULL SALE

100 CHAROLAIS | 93 ULTRABLACK | 7 BRANGUS

Friday 13th September, 12pm

Welcome to the Palgrove Bull Sale!

We are delighted to have you join us for our 40th Annual bull sale. Our Annual Bull Sale is not just an auction; it's a celebration of superior genetics, quality beef production, and the dedication that defines our breeding program. We see it as the 'shop front window' for our broader business, which is distributing paddock bulls throughout the year and also our commercial program.

Our team has worked tirelessly to prepare these bulls for sale day. The first decision point influencing them was made over three years ago when their dams were joined. Each bull now embodies the high standards and built in quality that Palgrove is known for. From their impressive performance and depth of pedigree, these bulls are a testament to the rigorous selection process and commitment to excellence that characterise our breeding philosophy.

We encourage you to explore each bull's pedigree and performance data, and don't hesitate to ask questions. We enjoy assisting in your selection process and get satisfaction in finding the perfect fit for your program and hearing the results.

Charolais

In terms of 'bang for buck' I still believe the 'modern day' Charolais bull is underutilised in cross-breeding situations across Australia. We have proven this in the Paddock to Palate competition over the last 6 years in terms of verifying their 'proof of profit' at all points of the supply chain. We also confirm this claim in our commercial herd and this year we will use 50-60 Charolais bulls in this program.

Ultrablack & Brangus

In previous introductions we have communicated that our Ultrablack's 'are making inroads' in the Australian Beef landscape - I think we can safely say they have now confirmed their position in the marketplace and their growth will continue throughout commercial herds. It's the combination of maternal strength, how the female portion perform and the terminal performance, how the steer portion are exceeding feedlot performance and grading specifications, that are confirming the true value of the Ultrablack. They are ideally designed for the Australian beef landscape.

We are confident the bulls on offer will provide significant value to your operation, enhancing both productivity and profitability. If you need any further information in the lead up to the sale, please don't hesitate to get in contact with our team.

Thank you for your continued trust and support in our program, we look forward to seeing you on sale day and please stick around after the sale and catchup with our team.

Regards,
Ben Noller

OUTSIDE AGENT REBATE:

The vendors agree to a 3% rebate to outside agents who attend the sale with, or buy on behalf of, their clients and settle within 7 days. 1% rebate to outside agents introducing approved buyers to the vendor prior to the sale and settling on their behalf within 7 days of the sale. (This clause will be strictly enforced by the vendor).

Inspection:

Cattle may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you and bid via phone or AuctionsPlus. Please discuss your bull requirements with our team, we enjoy being a part of the decision making process.

Sale Day Safety:

We pride ourselves on the excellent temperament of our bulls, however, there are risks associated with bull behaviour on sale day and it is our responsibility to keep you safe.

If you wish to enter the pens please be aware that bulls may fight with each other or they can be playful. We cannot accept responsibility for your safety if you do not follow the instructions of our staff. If you are limited in your mobility or if you have children/ prams accompanying you, **please do not enter the sale pens.**

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Breeding Soundness:

All sale bulls offered for sale have passed a semen test by Veterinarians from Ced Wise ABS.

All bulls offered for sale have been examined by the stud's Veterinary consultant for structural and physical soundness to Australian Veterinary Association standards. A Bull Breeding Soundness Evaluation Certificate will be available.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove maintains a J-Bas 7 status, so bulls are free to move to anywhere in Australia.

Sale bulls have been inoculated twice with 7-in-1; Pestigard, Vibrio and 3 Day Sickness along with a single dose of 3 germ tick blood.

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. George & Fuhrmann and Nutrien will be handling the delivery of sale cattle.

We offer Freight Assistance to several major centres including Emerald, Roma, Inverell and Glen Innes. Please talk to Ben Noller M:0427 700 949 or Ben O'Dwyer M: 0447 180 690 prior to the sale.

The Sale Bulls:

A bull's career begins rather than ends on sale day - so be cautious about comparing bull weights and fat scans between the various sales. Comparison of bulls in a contemporary group is a far more reliable indicator. It is in your best interests to purchase bulls that have had a moderate long term feed ration rather than one that has been 'pumped up' for sale day.

Palgrove Stud:

For over 50 years, we've adapted our Charolais genetics through a commitment to research, education, new technologies and a common sense 'cattleman's eye' to suit clients' environmental and management conditions.

We've grown the stud to a size where it ranks as the largest Charolais stud in Australia and by all accounts, the second largest in the world. In 2009, we started developing our Ultrablack bull breeding program. We're positive that they offer another profitable option to our clients' production and target markets.

Our Approach:

Even though the scale of the registered herd has increased substantially since 1969, our breeding objectives haven't wavered. We aim to drive performance through our genetics to improve profitability and efficiency in beef production, while maintaining customer satisfaction.

Palgrove buyers expect the best from our cattle - whether it's one stud sire or a draft of 100 commercial bulls. Our job is to deliver cattle and service that is beyond our clients' expectations.

Palgrove Properties:

The Palgrove herd is run across a diversified group of properties in Queensland and New South Wales. This enables us to run our breeding herd and grow out our sale bulls under commercial conditions. Our breeding properties are located at Ben Lomond, Warwick and Inverell, with our bull depot at Drillham QLD and our new Sale Complex near Chinchilla. These properties allow us to provide our clients with a year round supply of cattle that are easily accessible at a number of locations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove stud, we have been using raw data and Breedplan to measure the genetic improvement in our cattle for the three main profit drivers:

- a) Fertility
- b) Growth and Weight Gain
- c) Carcase Merit

It's been a systematic selection process over 50 years with Palgrove possessing comprehensive EBV data.

We've always focused our breeding program on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcase \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcase and eating quality. We don't just make claims - we deliver value!

In this sale, there are three separate BREEDPLAN figures presented:

- a) Charolais Group Breedplan (June 2024)
- b) UltraSelect Breedplan (August 2024)
- c) Brangus Group Breedplan (July 2024)

Each breed runs a separate Breedplan evaluation. As the genetic base for each breed is different, only EBVs for animals within a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack or Brangus bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBV's are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recored on HBR/APR registers.

When assessing cattle performance, it is essential to always compare 'apples' with 'apples'.

Charolais Group Breedplan Averages 2022 born calves

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	REY	Dom\$	N'th\$

More info on the new UltraSelect EBV averages available before Lot 101.

Parent Verification Assurance:

PV - these lots have been DNA Parent Verified (both Sire & Dam)

SV - these lots have been DNA Sire Verified

DV - these lots have been DNA Dam Verified

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

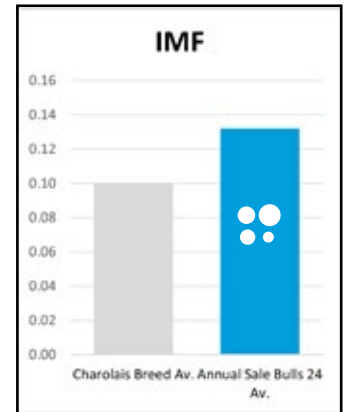

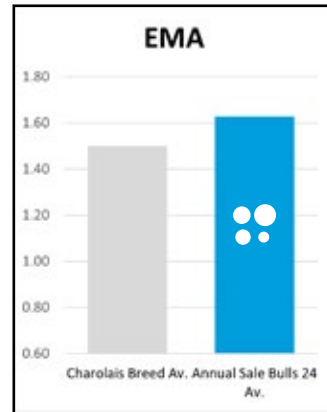

Charolais Genetic Disorders:

Similar to other breeds of cattle, Charolais too have known genetic conditions. The two in which we test for in Australia are;

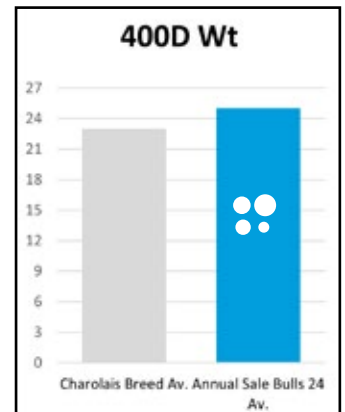

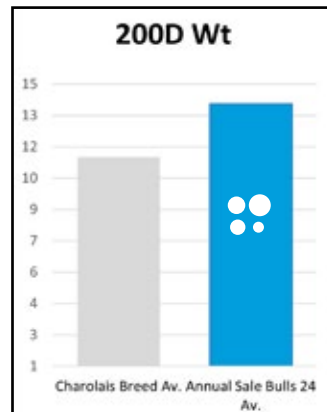

- 1) Myophosphorylase Deficiency (MYO), if affected, prevents an animals ability to mobilise glucose and results in loss of muscle function & exercise intolerance; and
- 2) Progressive Ataxia (BPA), a neurodegenerative disease of the central nervous system which if affected, results in an animals inability to stand.

An animal can be an unaffected carrier and live a normal life, but if bred to another carrier can produce affected offspring. Our sale bulls are tested for these disorders and any carriers are identified on the Charolais Australia website as well as included within the individual lot commentary. As they are recessive conditions, they shouldn't be of concern to our cross breeders, however we wouldn't recommend to our purebred Charolais clients.

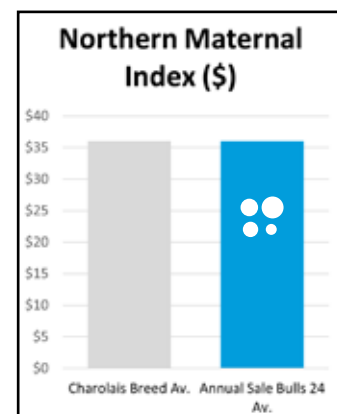

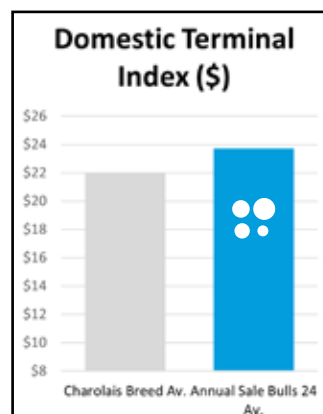

CARCASE

PERFORMANCE

PROFITABILITY

CHAROLAIS REFERENCE SIRES

PALGROVE PLATINUM (P) R/F

- We considered Platinum the 'complete package' when he sold in 2021 for \$48,000.
- He's medium framed, thick butted with that natural balance and constitution you expect in a top breeding bull.
- His combination of Hallmark over a Bond daughter has clicked perfectly. His first sons sold in 2023 topping at \$50,000 and averaging \$20,164.
- They feature again in our 2024 Annual Sale draft, Represented by 9 bulls in this years sale, 8 appear in the first 16 lots.

PALGROVE QUEENSTOWN (PP)

- Homozygous Polled - Queenstown is one of the best Landmark sons we have produced.
- We love the combination of butt shape, carcass and softness – structurally he is faultless.
- The first Queenstown progeny hit the ground in spring 2022 and 5 bulls are offered in this years annual sale. Lots 27, 31, 63, 70 and 72.

PALGROVE LANDMARK (P)

- Possibly the most influential sire in the Palgrove program.
- High positive Growth, EMA and Fat Cover EBV's with IMF% in the top 5% and a Trait Leader for Milk.
- Landmark progeny sold at auction have grossed more then \$720,000 with sons topping at \$80,000 and yearling heifers to \$24,000.
- He's represented by 8 sons is this sale, Lots 12, 33, 45, 53, 68, 74, 91 and 92.

CHAROLAIS REFERENCE SIRES

PALGROVE QUIDMAKER (P)

- A bull that is adding the combination of calving ease and strong carcass traits to his progeny.
- A Landmark son with a predictable pedigree, presence, and data set. Sold in 2020 for \$60,000.
- Used heavily in AI and now has a gestation length in a top 1% of the breed with a 96% accuracy.
- Represented by 9 Sons in this year's sale, with feature lots at 18, 49, 50, 51 and 58.

PALGROVE CRACKER (P)

- A bull that we selected to add carcass shape, sleek skins and scrotal size into our herd.
- Sold at our 2021 Sale for \$75,000
- An easy fleshing bull that is wrapped in a mid-maturity pattern.
- His first 9 sons to sell at auction will feature at Lot 4, 21, 26, 29, 30.

ELDERS HOULIO (P)

- Palgrove owns the exclusive Australian rights.
- He's proven to be a moderate Birth Weight option that will maintain the stoutness in his progeny. His dam is a consistent producing donor female in the Elders program with a picture-perfect udder.
- A bull that we selected to add strong maternal traits to our herd.
- Feature Bulls - 7, 46 and 54.

LOT 1

PALGROVE TENDERHOOK (P) ^{SV}

Tattoo: PK22T1355E

Calved: 12/08/2022 (25 mths)

S: PALGROVE HALLMARK (P) R/F

S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA G346E

S: SILVERSTREAM HOLSTER (P)

D: PALGROVE REFINE M53E (P) ET

D: PALGROVE REFINE W190E (P) ET

Fitting to kick this year's sale off with a Platinum son - 7 appear in the first 11 lots, 24 have sold at auction topping at \$50,000 to average \$21,011. The only 5 straws of semen released in Platinum sold for an amazing \$2,800/straw at Beef 2024.

Dam - 8 calves in 8 years with a 378 DCI (Daily Calving Interval). Three sons have made the Annual Sale team, one of her sons, Payday, sold for \$28,000 and was used in our AI program.

Long and smooth in his muscle pattern with a great skin.

Top ranking performance data combining calving ease with positive Growth, Scrotal Size and both \$Indexes in the top 12%.

Great blend of maternal and performance genetics - Platinum, Hallmark, Mac 2244 combined with Holster and Bond.

S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA G346E

S: ROSEDALE MERCADO (P)

D: PALGROVE SOPHIA Q244 (P)

D: PALGROVE SOPHIA J822E (P/S)

Cracking sire with breed leading performance data and pedigree that was used in our stud herd as a yearling.

Dam - calved at 2 with 3 calves in 3 years. Her first son sold at our Hunter Valley sale in 2023.

Medium framed, thick set with built in constitution and a great combination of carcase traits and finishing ability.

Off the chart EBV data, with 11 traits in the top 20% of the breed. Typical of the Platinum progeny he combines calving ease with growth, he also ranks in the top 1% Northern Terminal Index.

Stud sire prospect - Semen retained.

PALGROVE TEXAS RANGER (P/S) R/F ET ^{PV}

Tattoo: PK22T1232E

Calved: 05/08/2022 (25 mths)

S: PALGROVE HALLMARK (P) R/F

S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA G346E

S: PALGROVE VIAGRA (P)

D: PALGROVE PANACHE F208E (P) R/F ET

D: PALGROVE PANACHE X193E (R/F) ET

Predictable pedigree with built in performance - he has always stood out in the ET pen.

Dam - Consistent producing donor female who's still in production at 14 years of age. Her sons have topped at \$55,000, a full brother to Texas Ranger was equal top price at our Hunter Valley sale this year.

Plenty of length, big square hip, extra bone and the performance you would expect from his pedigree.

EBV's are indicating moderate calving ease data with high positive Weaning Weight. The data confirms his phenotype with high positive Carcase and Yield traits.

Top end sire that should find a home in a stud or bull breeding program.

Semen Retained.

D: PALGROVE AVOCA G221E

S: M6 GRID MAKER (P)

D: PALGROVE FLARE H794E (P) R/F

D: PALGROVE FLARE C630E

First of the Cracker sons to be offered at auction, he was the high selling bull in our 2021 sale at \$75,000.

Dam - Functional donor female with 24 progeny recorded. Her 12-month-old daughter topped our female sale in 2020 selling at \$24,000. She has 4 other sons in the sale at lots 30, 38, 40 & 89.

This is a great combination of our best maternal and performance genetics - M6 Gridmaker with Uranus, Benchmark, Justice and Evolution.

Super thick butted, deep ribbed, soft and easy fleshing. He's a bull that will add doing ability and finish to his progeny (IMF in the top 20%).

Top shelf phenotype and pedigree.

S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA G346E

S: PALGROVE ZION

D: PALGROVE SHOWGIRL D580E (P) R/F

D: PALGROVE SHOW GIRL X384E (P) R/F

The first of 3 full brothers and they all appear in the first 10 lots. A true example of the breeding consistency in this pedigree.

Dam - Donor female with 21 progeny recorded and only exited the herd at 15 years. She's the dam of Muchmore who topped our 2018 sale and was used in our AI programs.

He's long and smooth in his pattern with a thick square hind quarter, big scrotal and sleek skin.

EBV's confirm his profit-making ability with both \$Indexes reaching above the top 30% of the breed.

A bull we believe should be destined for stud duties - Semen retained.

D: PALGROVE SHOW GIRL X384E (P) R/F

Full brother to the previous lot, this time in a red factor package. Another full brother at lot 10.

Dam - Donor female with 21 progeny recorded and only exited the herd at 15 years. She's the dam of Muchmore who topped our 2018 sale and was used in our AI programs.

We love the extra length, hip shape and carcass traits Platinum is transmitting in his progeny. He moderates frame without compromising on weight for age and bone.

Structurally a bull that's hard to fault, you'll admire the natural balance and constitution.

Used in the stud herd as a yearling, his quality suggests he should find a home in a bull breeding program.

S: PALGROVE GALLANT (P)

D: PALGROVE REFINE M743E

D: PALGROVE REFINE J212E (P) ET

The first of the Houlio's in this catalogue - a bull to add that extra performance and carcase traits to your herd.

Dam - 5 calves in 5 years with a DCI of 372. Her pedigree blends two top breeding bulls of their generation in Gallant and Formula.

Upstanding sire with the skin type we aim for in our Charolais program - he's long bodied with a huge top, big scrotal and plenty of butt shape.

Ideal bull to add weight for age and carcase traits over Bos Indicus females.

Note: Carrier for BPA (Progressive Ataxia), a recessive condition that shouldn't be of concern to cross breeders - Not recommended for pure Charolais herds.

D: SILVERSTREAM OCELOT I100 (P)

S: PINAY

D: PALGROVE DIGNA G475E ET

D: PALGROVE DIGNA W174E (P)

Upstanding sire to add that extra frame and performance to your herd - Pedigree, Performance and Phenotype.

Dam - Donor female with 17 progeny recorded, two sons have reached \$30,000.

His sire Oatley injected short gestation and calving ease traits without compromising on performance - He's a Trait Leader for 400 day weight and ranks in the top 2% of the breed for Domestic Terminal Index.

Positive Calving Ease and Growth traits with high positive Carcase Weight and Yield in the top 12% and Domestic Terminal Index in the top 5%.

Ideally suited over Bos Indicus females with progeny growing out to heavy weights on grass or grain.

Note: Carrier for BPA (Progressive Ataxia), a recessive condition that shouldn't be of concern to cross breeders - Not recommended for pure Charolais herds.

S: PALGROVE NULLABOR (P) R/F
D: PALGROVE DIGIT Q2377E
 D: PALGROVE DIGIT L809E

Low birth weight sire (34kg born), out of a first calf heifer, who won't compromise on growth traits.

His sire, Kilo Packer, was used in our heifer program to inject calving ease, fat cover, marbling and scrotal size traits - he's a Trait Leader for Low Birth Weight, 200 Day weight and Scrotal Size.

Takeover has curve bending EBV's ranking in the top 2% for low Birth Weight and top 5% for Weaning Weight with both \$Indexes in the top 10%.

Long and smooth in his muscle pattern with that natural balance to indicate sound constitution.

Diversity in join options - North or South, cows or heifers, Domestic or Export he will excel at all.

Two full brothers to Trophy Boy sell at lot 5 and 6 - a true example of the breeding consistency in this pedigree.

Dam - Donor female with 21 progeny recorded and only exited the herd at 15 years. She's the dam of Muchmore who topped our 2018 sale and was used in our AI programs.

With Platinum's EBV's hitting 72%-96% accuracy he is landing in the middle of the graph with a blend of calving ease, Growth, Carcase Weight and Scrotal size with both \$Indexes in the top 30%.

He's long and smooth, thick topped, square hipped with the built in natural balance and constitution Platinum has injected into his progeny.

We love it when a sire breeds consistent and true to type like Platinum has - It's easy to see why we class him as one of the best of his generation.

Dam - 4 calves in 4 years with a 363 DCI. Her dam was also the dam of Kudos who sold in 2018 for \$40,000 and was used heavily in our AI program.

Moderate framed, thick butted, big scrotal, great skin and that built in constitution of all the Platinum progeny.

Easy bull to recommend.

Landmark consistently produces these top end sires. Thirty one progeny have sold at auction topping at \$80,000 and grossing over \$720,000.

Dam - 4 calves in 4 years with a 369 DCI.

Used as a yearling, we were always drawn to the natural balance and sire appeal. He combines his carcass traits with extra softness and fleshing to indicate his doing ability.

High positive EBV's for EMA, Yield and IMF indicate he will improve MSA compliance.

Stud sire potential.

A super soft, easy fleshing sire with top of the breed carcase traits.

His sire Legend, was a high selling bull in 2017 at \$40,000, a real performance bull with a unique combination of carcase traits - top 1% for EMA, top 5% for IMF and top 12% for fat cover.

Dam - 7 calves in 6 years including a set of twins with an ideal DCI of 363. Our Heritage daughters are renowned for milking ability (he's in the top 1%) and adding fat cover and marbling traits.

He's got a smooth pattern for a bull that ranked in the top percentile of his contemporaries at 400 days for EMA - 106 square centimeters at 14 months, off grass.

Homozygous Polled.

You will begin to see a pattern in these Quidmaker sons – great skins with strong carcase traits.

Quidmaker has the ideal set of EBV's – Since his first calves have dropped, his calving ease data shifted to the top 1% of the breed for Gestation Length, yet still ranks in the top 5% for EMA. We have since used him with success in our heifer program.

Plenty of length and butt shape; big scrotal; thick topped with a touch more frame and performance.

His phenotype is backed up with his top of the breed EBV data – 6 traits in the top 1% of the breed and 10 traits in the top 10%.

If you are wanting to add extra weight for age and improve carcase and yield for the heavy weight markets, then Tipster should be at the top of your list.

Two Cracker sons in a row – he's injecting carcass shape, sleek skins and scrotal size into our herd.

Dam – 4 calves in 3 years including a set of twins with a 360 DCI.

Moderate framed, super thick topped and butted with a great skin, extra bone and big scrotal.

Ideal bull for northern production systems over Bos Indicus cows, sending progeny into the heavier feeder market.

Homozygous Polled.

On pedigree and phenotype this is definitely our pick horned bull in the draft – great skin, extra bone and carries the extra performance with ease.

His pedigree combines the predictable combination of the 2021 sale topper Cracker (\$75,000) with the maternal strength of a leading donor female whose sons have reached \$24,000 and 12-month-old daughter sold at our 2021 female sale for \$24,000.

Free moving bull due to his faultless constitution – he's long, strong topped, thick butted and combines his strong Carcass Traits with plenty of softness.

He's a proper 'beef bull'. Maternal brothers sell at lot 4, 38, 40 & 89.

D: PALGROVE JULIE G792E R/F

You will see the extra length and butt shape in all these Queenstown sons. He sold in 2021 for \$40,000 and was used in our AI program.

Dam - 3 calves in 3 years with a DCI of 367. The blend of Holster and Bond back in her pedigree explains the extra performance.

Strong topped, deep square hind quarter with the extra softness to indicate his doing ability.

'Middle man' in respect to his EBV graph - positive Calving Ease, Growth, Fat Cover and Carcase Traits with IMF in the top 20% and Domestic Terminal \$Index in the top 25%.

D: PALGROVE DIGNA L202E (P/S)

D: PALGROVE DIGNA A61E

His sire Rising Star sold as a yearling in 2021 for \$45,000, was used in our AI programs and descends from one of our best cows, Clara D211, who's had 46 progeny recorded and grossed over \$235,000 in sales.

You could back your judgment on pedigree alone - Crowd Favourite, Silver Bar and Clara D211 on the top of the pedigree combined with Heritage, Wind-Fall and Bluegrass D55 on the bottom side.

Performance packed EBV's that suggests Bos Indicus females with progeny aiming for the heavier weight markets will be his forte - high positive Growth and Fat Cover with IMF% in the top 10%.

D: PALGROVE REFINE G1010E (P/S) ET
 D: PALGROVE REFINE Y150E

His sire Next Gen has positively influenced our herd and bred some top end cattle - two sons Rockerfella and Red Rock will have progeny feature heavily in the front end of next year's sale. Thirty-one sons have topped at \$100,000, grossing over \$600k to average \$19,580.

Deep ribbed, easy fleshing bull with plenty of volume and substance. He's got that added sire appeal, strength of head and extra bone.

Note the age, younger bull - EBV's combine positive Growth Traits with IMF% in the top 35%.

A bull to add finishing ability for the premium grass fed markets and could be suited over Bos Indicus or Bos Taurus females.

Typical of what we are seeing in the Quidmaker progeny - medium framed, sleek skinned with positive calving ease and strong carcase traits.

Quidmaker has the ideal set of EBV's - since his first calves have dropped, his calving ease data shifted to the top 1% for Gestation Length, yet still ranks in the top 5% for EMA. We have since used him with success in our heifer program.

Dam - 3 calves in 3 years with a 369 DCI. Her sire Mentor, a Holster son, was used as a yearling before being sold for \$20,000.

EBV data confirms moderate growth and high positive calving ease traits with a unique combination of top of the breed EMA (5%) and IMF% (10%).

We believe this is the best draft of Autumn drop bulls we have presented for sale. We thought it was fitting to kick off with a super soft, easy fleshing Landmark son.

Landmark is a proven influential sire of his generation - with over 293 progeny recorded he ranks in the top 5% of the breed for IMF% and has had 38 progeny sell at auction topping at \$80,000 to gross over \$778,000.

Phenotypically he is one of the feature bulls in the sale - it's no surprise to see Courage appear on the bottom side of the pedigree, born over 17 years ago it always amazes us how his daughters still hit the mark and his EBV data still matches it with the current generation bulls.

High positive Growth and Milk EBV's with IMF% in the top 5% - there's a lot to like about this bull.

S: SILVERSTREAM HOLSTER (P)
D: PALGROVE FLAXEN L298E
 D: PALGROVE FLAXEN G606E (P)

Bulls of this quality are hard to find - he combines a world class pedigree with profitable performance data.

One of the higher performing bulls in his contemporaries - he's long bodied with so much volume and capacity, you will admire the deep square hind quarter and extra thickness across his top.

Quality set of EBV's from high positive calving ease combined with fast early growth and positive carcass data. Both \$Idexes are in the top 20%.

A top shelf bull that would fit perfectly into a bull breeding program over Bos Indicus females.

Note: Carrier for BPA (Progressive Ataxia), a recessive condition that shouldn't be of concern to cross breeders - Not recommended for pure Charolais herds.

 S: PALGROVE JACKMAN (P) R/F
D: PALGROVE FESTOON L1036E (P) R/F
 D: PALGROVE FESTOON F627E

The first of 7 cracking red factor bulls in a row.

The New Zealand sire Oatley has curve bending EBV's from low Birth Weight to a trait leader for 400-day growth (top 5%). Twenty-nine progeny have sold at auction topping at \$115,000, grossing over \$680,000 to average \$22,850.

When you dig into the depths of this pedigree you realise how the quality and consistency is achieved – there are two benchmark donor females on the bottom side from the Festoon and Panache female lines combined with top end breeding bulls like Courage, Evolution and Oatley.

No matter the angle you analyse Upperhand from you will appreciate the quality – deep, soft, easy fleshing with the natural balance and constitution you want in a top breeding bull.

Stud Sire prospect.

WITHDRAWN

There's a lot of quality in this bull combining the best of Australian genetics - Legacy, Holster, Crowd Favourite and Clara D211 female.

Highly muscular with deep ribbed, easy fleshing but has so much volume and capacity. We think there is still a lot of growth potential in this sire.

EBV's confirm fast early growth with positive Scrotal Size and Carcase Weight with both \$Indexes sitting in the top 25%.

A mobile, free moving bull that would be ideally suited to Bos Indicus females in a northern production system - he'll add weight for age and maintain doing ability.

A double cross of Landmark has molded a strong phenotype, with top of the breed performance data.

This year marks Quidmaker's first offering - since his first calves have dropped, his calving ease data shifted to the top 1% of the breed for Gestation Length, yet still ranks in the top 5% for EMA. We have since used him with success in our heifer program.

Performance data positions him in the top percentiles for Growth and he combines this with Carcase Weight, EMA and IMF% in the top 10% and Domestic Terminal Index in the top 2%.

Stud or commercial he will excel.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBY	Dom\$	N'th\$

Another Quidmaker son in a similar mold to the previous lot.

Plenty of growth potential in this young bull - he's long and deep bodied, thick butted and strong topped, with a big scrotal.

Moderate Gestation Length and Calving Ease Direct EBV's combined with high positive Growth and Carcase traits. His profit-making potential is confirmed with a Domestic Terminal Index in the top 8%.

The good judges will see the potential in this young bull.

The breeding consistency comes from stacking these pedigrees with generations of high performers – Bluegrass D55, Heritage, Landmark, Gridmaker 2W and Evolution.

Dam – She’s had two sons and they have both made the sale team.

Typical style we have come to expect from Landmark – extra length and sire appeal with the ideal balance of carcase, softness and doing ability.

The pedigree and phenotype suggest this bull would fit into stud duties or a bull breeding program.

Homozygous Polled.

We are impressed by Quidmaker's unique ability to inject carcass shape into his progeny at a young age while improving calving ease data - the more progeny he gets on the ground the better his calving ease, subsequently we now use him over heifers.

One of the thickest set bulls in the draft, he's a keg on legs - although he has strong carcass traits, he combines it with the right amount of softness.

Ideal blend of EBV data - positive Calving Ease, Growth, Milk, Carcass Weight, EMA and Yield uniquely combine with IMF% in the top 20%. His Domestic Terminal Index ranks in the top 10%.

Domestic or export over Bos Taurus or Bos Indicus females, he is a profit improver.

Celebrating our Youth

2024 GenAngus Future Leaders Program

Kate Reid - Livestock Systems & Genetics

We are thrilled to extend our heartfelt congratulations to Kate Reid, who was chosen as one of thirteen exceptional young leaders in the beef industry to participate in the 2024 GenAngus Future Leaders Program in Christchurch, New Zealand.

The week-long program was designed to challenge participants, foster lifelong friendships and networks, and inspire a renewed sense of purpose. The theme, “Kaitiakitanga: Guardians of the Land for Future Generations,” encouraged the group to reflect on their legacy and strive to leave their ‘jersey’ in a better place.

Throughout the program, Kate and her peers engaged in intensive workshops aimed at enhancing their business management skills and boosting their confidence. The sessions were tailored to provide essential tools for navigating their careers in the beef industry, empowering them to take their personal and professional relationships to new heights.

The 2024 GenAngus Program concluded with an invitation for the participants to “leave their mark” by developing innovative ideas for the future. This final challenge aimed to set a course for the ongoing success of both GenAngus and the Angus breed.

We are incredibly proud of Kate’s achievement and look forward to seeing how her new insights and connections will contribute to the advancement of the beef industry.

Congratulations Kate

Rank	5%	25%						15%				

Super low birth weight, homozygous polled bull with a double hit of maternal strength coming from Houlio over a Ledger daughter.

His dam is a moderate framed, functional female with a perfect udder - To indicate her efficiency, when she weaned Unit he was over 50% of her body weight

He's long and square, ranks in the top percentiles for Calving Ease, Milk and Fat Cover. He's the ideal bull over heifers to breed maternal strength and finishing ability in your herd - he also has a great temperament.

Note: Carrier for BPA (Progressive Ataxia), a recessive condition that shouldn't be of concern to cross breeders - Not recommended for pure Charolais herds.

Homozygous Polled.

First of the National sons to be offered by Palgrove – We only had a small amount of semen and matched the out cross pedigree to a select group of cows.

He's moderate framed with a heap of thickness, spring of rib and butt shape, wrapped in a sleek skin.

Pedigree blends some of the best of NZ and Australian genetics – National combined with top performance sires Hannibal and Courage.

EBV data confirms his value and phenotype, combining short Gestation with positive Growth and top of the breed EMA (5%).

Yield and carcass improving bull for the early finishing markets.

Rank			15%				5%			5%		

When you analyse each pillar of this pedigree you understand where the extra performance is coming from – Kudos, Gallant, Evolution, Kingdom and Courage.

Like all the Quest progeny he carries that combination of carcass, softness and fleshing.

EBV data confirms Bos Indicus females will be his forte – He will add fast early growth (top 11% for Weaning Weight), he's in the top 1% for EMA and top 5% for Retail Beef Yield.

Ideal bull to breed cattle that will grow out to heavier weights – his softness indicates his progeny will achieve this on grass or grain.

Doner Female with a Red Rock Calf at foot. Son sells at Lot 63.

The youngest bull in the entire draft, he comes in the typical mold for the National progeny - medium framed, super thick butted, with plenty of performance and wrapped in a great skin.

His sire National was used to improve carcase traits and weight for age. His EBV's show positive Growth, Carcase Weight, Yield (Top 5%) and is a Trait Leader for Scrotal Size.

If you need to inject carcase and yield into your program then he should be high on your list - EBV's are indicating high positive Growth and Scrotal Size with Retail Beef Yield and EMA in the top 1%.

Moderate framed, easy doing, domestic market specialist with a great temperament.

There's a strong maternal base in this pedigree that explains the positive calving ease and top of the breed Milk (top 2%) EBV's - combining Landmark over a female with Bluegrass and Platinum Ultra back in the pedigree.

He's long and strong across the top line, thick butted and structurally hard to fault.

Utility is a bull that could be used to breed a great line of replacement heifers over Bos Indicus, or Bos Taurus females.

His sire Reign Supreme was used as a yearling and later sold for \$32,000, he was sired by Next Gen who had 31 sons sell at auction topping at \$100,000, grossing over \$600k to average \$19,580.

Admire the extra softness, fleshing and bone - Big scrotal, deep square hind quarter, with the depth of flank indicating his doing ability.

Versatile in his joining options, he will add finishing ability to his progeny with extra middle and depth of body.

Sit up and take a look at this cracking bull – Extra bone and carcase and he looks like a front paddock sire.

Dam – 7 calves in 7 years with a 366 DCI.

EBV's position him with high positive Growth, Milk and Scrotal Size combined with positive Fat Cover and IMF% in the top 10% - he scanned 5.4% as a yearling off grass.

Admire the sleek skin, thickness across the top and butt shape – he combines this with extra softness and will produce easy finishing cattle.

The good judges won't let this bull slip under the radar late in the sale. Ideal over Bos Indicus females.

Stud potential.

Landmark consistently produces these top end sires.

EBV's indicate high positive Growth with positive EMA and Yield combined with IMF in the top 5% - he scanned 5.2% for IMF as a yearling off grass.

The extra performance comes from the stacking these pedigrees with high performing sires - Heritage, Landmark, Howzat, Barrister and Blitz, all leading sires of their generation.

He's got plenty of stretch, extra bone and has that combination of carcase and softness indicating his progeny will finish easily off grass or grain - recommended over Bos Indicus females.

Deep bodied, soggy Next Gen bull to finish off this year's Charolais draft.

Dam - calved a month before her second birthday and has since had 4 calves in 4 years with a 376 DCI.

Next Gen is an influential sire of his generation - two sons Rockerfella and Red Rock will have progeny feature heavily in the front-end next year's sale. Thirty-one sons have topped at \$100,000, grossing over \$600k to average \$19,580.

Easy finishing domestic market specialist - he would suit either Bos Indicus or Bos Taurus females.

Purchaser.....\$.....

ULTRABLACK & BRANGUS BULLS LOTS 101 - 200

Palgrove has been breeding Ultrablacks for over fifteen years and are now consistently producing a more adapted Angus-based breed combination for clients across Australia.

These are specifically designed high Angus content Brangus bulls (typically 82% Angus and 18% Brahman infusion) that we call 'Palgrove Ultrablacks'.

We retain as much Angus carcass and meat quality (both in EBV selection and phenotype) as possible and add selection for sleek coats and clean sheaths to our breeding programme.

The bulls resemble a 'tropical Angus' with a sleek coat, pliable hide and the constitution that comes from their 'hint of Bos Indicus' and have the 'meat quality of Angus in a heat tolerant package'.

We know that our bulls need to be equally at home in northern or southern production regions of Australia and that our bulls needed to have clean sheaths; sleek coats; growth and carcass quality, so we focused our genetic

design on these when selecting for both phenotype and objective data.

We have been careful to select predictable Brangus and Angus breeding sires from commercially focused herds with high accuracy Breedplan data.

The use of AI, Embryo Transplant and walking bulls that combine the best of USA and Australian genetics means that we are able to produce consistent quality bulls that suit any Australian environment.

Reports from our clients have been overwhelmingly positive - "the heifer progeny mature at an earlier age and fertility percentages have risen markedly".

And this... "the Ultrablacks are outperforming any other tropical cross cattle we've trialed, from weaners, background and feedlot weights as well as grass fed bullocks".

Talk to us about your breeding options with these Ultrablack cattle that are BRED TO DELIVER.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion. TSUs are easy to use and yield excellent lab results.

TSUs can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and its identification.

Introducing UltraSelect – The latest Ultrablack Analysis by Angus Australia

What is UltraSelect?

Palgrove have been working with Angus Australia to determine a more robust genetic evaluation for Ultrablack cattle.

UltraSelect is a collaborative genetic evaluation initiative conducted in partnership with International Brangus Breeders Association (IBBA) and Angus Australia. It includes data from Australia and the United States to produce Estimated Breeding Values (EBVs) and is available to Angus Australia members recording animals in the MBR system.

The linkage of pedigrees through Angus MBR and IBBA provides a larger reference population of genomic records, which will significantly enhance the accuracy of our EBV data and assist you in making breeding decisions.

Traits Analysed

This analysis includes a similar suite of EBV's currently available, with the addition of Heifer Pregnancy (HP). We are currently working with Angus Australia to enhance this further and expect more fertility traits and indexes to be captured in the future.

For a full explanation of the traits analysed follow the following QR code

TRAITS ANALYSED

SCAN ME

Indexes

UltraSelect provides two Indexes, which are bio-economic indexes consisting of 6 traits each, selected and weighted on heritability and economic importance per production system (includes traits in no specific order);

Fertility Index (FI)

A selection tool aimed at a self-replacing breeding operation.

Traits: Milk, Fat, Scrotal Circumference, Mature Cow Weight, Heifer Pregnancy, Number of calves (note; this trait is not published in UltraSelect yet, but is currently included in the index).

Terminal Index (TI)

A selection tool aimed for a terminal, feedlot finishing system.

Traits: Birth Weight, Weaning Weight, Yearling Weight, Milk, Rib Eye Area (i.e. Eye Muscle Area), Fat & Intramuscular Fat (IMF).

To access a full explanation of the Indexes follow this QR code

ULTRASELECT EBV Averages (2022 Drop)

ULTRA SELECT	Birth Weight	Weaning Weight	Yearling Weight	Mature Cow Weight	Milk	Heifer Pregnancy	Scrotal Size	Ribeye Area	Fat Thickness	IMF	Fertility Index	Terminal Index
EBV	-0.1	15	30	2	4	6.2	0.9	3.2	0.46	0.3	0.86	1.77

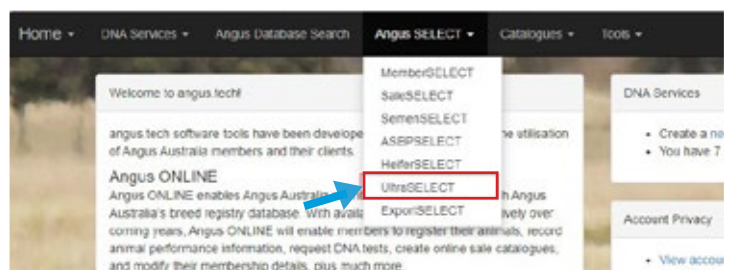

* Breed average and percentile bands represent the distribution of EBVs across the 2022 drop Angus and Angus-influenced animals analysed in the Aug 2024 genetic evaluation

How do I access it?

Commercial members will need to create a login for AngusTech (links provided in the QR Codes below). Once logged in you will have access to the search function.

Instead of looking up animals in the generic Animal Database in Angus Australia, utilise the tab Angus Select, and scroll down to 'UltraSelect', search the Society Ident as per usual.

PALGROVE QUALITY TIME (P) ET

- Imported embryo that was retained by Palgrove and has over 265 progeny on the ground.
- He adds plenty of weight for age, strong carcass traits and great skins.
- He's deep and square and is producing easy fleshing cattle with a touch more bone and plenty of performance.
- His consistency is confirmed, represented by 32 sons in this sale.

PALGROVE REVOLUTION (P)

- We considered Revolution to be the 'complete package' when he sold in 2022 for an Australian record at the time of \$70,000.
- Phenotypically Revolution was hard to fault - built in natural balance and constitution and plenty of butt shape.
- Like his sire Brickhouse, he will improve sheath design in his progeny.
- His first 2 sons sell at lots 149 and 150 and two full brothers sell at 157 & 158.

PALGROVE QUICK RELEASE (P) ET

- Quick Release is an imported embryo out of the US.
- He's a smooth muscled clean made sire. After his first progeny hit the ground early and with positive Calving Ease data we have used him and his sons in our heifer programs.
- Quick Release is by arguably one of the best sires to come out of the US, Suhn's Foundation and out of Suhn's Business Line's dam - You can't get a better pedigree than that.
- His first sons sold at last years Annual sale to a top of \$48,000. He is represented by both Brangus and Ultrablack bulls in this sale.

PALGROVE RUSH HOUR (P) ET

- Impact sire by Suhns Majestik Beacon out of the Geneplus program in the US.
- Retained sire who has been used in our Ultrablack programs and has been improving carcass traits in his progeny.
- Rush Hours dam is one of our leading donor females - she has 22 progeny recorded and her sons have topped at \$44,000.
- These are the first of the Rush Hour sons will be offered - A daughter sold at our 'First of our Finest' sale at Beef 2024 reaching \$28,000.

S: J D PAY DIRT

D: PALGROVE DREAM Q10

D: ANVIL DREAM L020

Wow!!! This is a real performance bull and a mountain of red meat – As a true test of consistency, he's the first of 32 Quality Time sons to sell in this sale.

He has always stood out in his contemporaries – As a yearling he measured 103 centimeters for his EMA with an IMF% of 6.8% and fat scans of 11/7, all off pasture.

Dam – young female with 3 calves in 3 years and a DCI of 368.

Huge volume and capacity – he's deep bodied, square hipped, plenty of thickness and but shape and has always been very easy doing.

Perfect fit for a stud or bull breeding program

Semen Retained.

Upstanding sire with a super sleek skin and great sheath design – Should find a home in a bull breeding program.

He's got optimum growth and muscle with the ability to lay down fat and cover easily.

Extreme length, big square hip and a strong top. His 400-day scans positioned him towards the top of his contemporary with a great blend of EMA, fat cover and marbling.

Used in the stud herd as a yearling.

Homozygous Polled, Homozygous Black.

Trumpeter is a mountain of red meat – He's a prime example of the progress we have made in our Ultrablack program.

Dam – 3 calves in 3 years with a 370 DCI. The Glenroy female line continues to feature in these top end bulls.

You can't go wrong with the Quality Time sons – Trumpeter's an upstanding sire with a touch more frame, deep square hind quarter, plenty of length and a big scrotal.

EBV's indicate high positive Growth (top 20%) with positive Milk and Fertility traits.

He will improve carcase shape and could be used over Bos Taurus or Bos Indicus females.

Homozygous Polled, Homozygous Black.

Impressive sire that has always been one of the higher performing bulls in the group.

Dam – Calved at 2 and has since had 3 calves in 3 years. Pedigree that combines the Glenroy female line with Matauri Reality.

We are impressed with how Quality Time has added extra carcase to our program while maintaining sound structure traits.

His sleek skinned, thick butted with a massive top – He scanned in the top percentiles as a yearling.

Homozygous Polled, Homozygous Black

D: PALGROVE MAGIC P1046

D: GLENROY MAGIC G40

If you're looking to add efficiency, doing ability and carcass traits to your herd then Trooper should be at the top of your list.

Dam - 4 calves in 4 years with a 376 DCI. Two out of two sons have made the sale team.

Medium framed bull who's long bodied and thick butted with an ideal sheath design.

His doing ability and carcass merit will ensure his progeny hit the premium MSA grids. We also think this bull would be ideal in a stud Brangus program to moderate frame over larger females, improve structure and add thickness.

S: PALGROVE QUALITY TIME ET

D: CB MS NORTH STAR

S: BUCKINGBONG ANGUS

D: PALGROVE CATHO N50

D: PALGROVE CATHO G137

Another Quality Time son in a similar mold to the previous lot - It won't take you long to understand the performance, bone, skin type and extra thickness he is adding to his progeny.

We love his 'seal like' skin, butt shape and thickness across his top, he has always been a very easy doing type that matured early.

We often hear the divide of the north and south between moderation and keeping the frame in our cattle - I can handle moderation when they improve efficiency and don't compromise on profit or performance. Twiggy fits this bill perfectly and would be ideally suited of high Bos Indicus content females.

S: SUHN'S MAJESTIK BEACON

D: PALGROVE JEDDA R22

D: ANVIL JEDDA M177

Carcase and yield improving sire out of a first calf heifer.

Dam - ET daughter who calved 6 weeks before her second birthday. She has so much quality we moved her straight to the donor pen with 12 calves recorded in her first year.

He ranked in the top percentiles of all Ultrablack bulls for EMA at 400-day scanning. This is back up in his extra thickness across his top line, extreme length and butt shape.

Ideal bull to improve sheath design and add carcass shape over Bos Indicus females.

Impressive pedigree to back your judgement.

Homozygous Polled, HOMOZYGOUS Black.

Celebrating our Youth

2024 SA JUNIOR HEIFER EXPO

2024 Senior Champion Herdsperson:

Oscar Golding

As a young member of the Palgrove team, Oscar is a breath of fresh air. His enthusiasm and joy for the industry are evident every day. He is very eager to learn more about the field and brings countless energy to the team.

Oscar attended his first expo in 2010 and has been to every one since. The award, which is open to individuals aged 18-24, is judged on industry knowledge and conduct, junior judging, marketing, clipping, cleanliness of stalls, and interaction with junior buddies.

Congratulations on your prestigious award, Oscar. We are all very proud of you!

Well Done Oscar

We love the extra stretch and dimension Quantum has added to his progeny - He has another feature son at lot 172.

Dam - 6 calves in 6 years since entering the Palgrove program with a 366 DCI.

Great sheath design, big scrotal, plenty of length with a square hindquarter carrying his muscle deep into his twist.

An all-rounder in terms of markets, plus he should breed you a great line of replacement females.

Homozygous Polled, Homozygous Black.

His sire Quick Release is by Foundation and out of Business Line's dam - After the first drop of calves, his calving ease data confirmed his ability to be used over heifers.

Dam - First calf heifer who's now had 2 from 2 with a 366 DCI. Her sire Napa was a high marbling low birth weight bull that was used in our heifer program.

Long and smooth in his muscle pattern, big scrotal and ideal in his sheath design. You will see this in all the Quick Release progeny.

With calving ease sires on both sides of the pedigree we suggest he would be suitable for heifers and will inject marbling into his progeny.

Homozygous Polled, Homozygous Black.

D: WHEELVIEW BARA G1

D: KENNY'S CREEK BARA A341

One of two full brothers to Revolution in this draft - Revolution sold for \$70,000 in 2022, an Australian record at the time, his first two sons sell at lots 149, 150 and 153 and we expect many to be in the front end of next years sale.

At our 'First of our Finest' sale at Beef 2024, a flush sister sold for \$20,000 at just 12 months of age.

He is more Angus in his phenotype, ideal sheath design and from an early age you could see his ability to finish - scanned 10/6 for rib and rump fat and 5.1% for IMF at 400 days.

Great set of EBV's to back your judgement - Top 1% for growth, IMF% and Terminal Index with high positive EMA, Heifer pregnancy and scrotal size.

With each of these Quality Time sons you analyse, the draw card is his ability to balance the profitable traits - Weight for age, carcass merit and fertility.

Pedigree features Quality Time over the Glenroy female line, a winning combination in many bulls throughout this catalogue.

He combines extreme length with plenty of thickness and butt shape - Leaning a touch more towards the Bos Indicus in his features he still carries high ranking carcass traits.

He's rounded out with high-ranking performance data across the board.

Homozygous Polled, Homozygous Black.

There's a lot to recommend in this second generation Ultrablack.

His sire Quicksilver was one of the first Business Line sons to sell, we used him as a yearling and also in our AI programs.

He's a deep sided, soft, easy fleshing bull with extra bone and sire appeal. He's got the extra thickness across his spine and in the lower thurl.

Positive growth bull whose data is showing a balance between performance and fertility.

Homozygous Polled, Homozygous Black.

Brangus.

Imported Brangus embryo and the first we have offered by the Empower sire out of a Suhn's 30C4 donor female.

Inspecting the Empower progeny in the US, they are deep, soft, easy fleshing cattle. He ranks in the top 1% in the US for Growth and EMA.

His Australian Brangus EBV's position him in the top percentiles for Growth (20%), Milk (10%) and Scrotal Size (8%).

Opportunity to get in on the ground floor of these higher content US genetics.

Celebrating our Youth

2024 Angus Youth National Roundup

Grand Champion Herdsperson

Sophie Halliday - Station Hand Macintyre Station

The 2024 event marked the 15th Roundup Sophie has participated in and her attitude and enthusiasm for the event has never changed.

Sophie joined our team at Macintyre Station, Inverell, in 2023, bringing with her an exceptional blend of enthusiasm, passion, and care for cattle. Her dedication has quickly made her an invaluable member of our team. We are incredibly proud of her achievements and delighted to have her as a key part of Palgrove.

Congratulations Sophie

The influence of Quality Time is having a huge impact on our program – His daughters are starting to calve; they will be functional females with plenty of milk and great udder structure.

Sounding like a broken record, but again the combination of Quality Time over the Glenroy female line that features heavily throughout this catalogue.

Great sheath design with the Bos Indicus features – He's got built in natural balance, big hip, plenty of butt shape and thickness across the top.

Homozygous Polled, Homozygous Black.

Third generation UB out of a first calf heifer.

Dam - First calf heifer who has now had 2 from 2 with a 353 DCI. Her sire Kingpin was our first 'big name' Ultrablack bull and was a past Australian top price record holder.

A bull with a smooth muscle pattern, clean sheath, moderate bone and frame with a good skin.

He will work in any cross breeding program with the obvious advantage of weight gain and hybrid vigor - Pedigree suggest he would be suitable for heifers.

Homozygous Polled, Homozygous Black.

Generational Ultrablack by the same sire and in a similar mold to the previous lot.

Performance data, phenotype and pedigree suggest his strength on the maternal traits and would be ideal to produce a line of replacement females - Positive Milk, Calving Ease Maternal, Heifer Pregnancy and Fertility Index.

Appreciate the length of body, confirmation and fleshing ability in this younger bull.

Note: small amount of white hair in front of testicles.

Homozygous Polled, Homozygous Black.

A pedigree combining the best of US and Australian genetics. Business Line and Masterpiece with the Anvil female line.

He's one of the highest performing bulls in the sale in terms of EBV data - He's low Birth Weight with positive Calving Ease and curve bends to top of the breed Growth (top - 5%). Both his Terminal and Fertility Indexes rank in the top 2%.

He's a medium framed calving ease bull that won't compromise on weight for age and carcase shape.

Ideal bull for use over heifers.

Homozygous Polled, Homozygous Black.

SALE SUMMARY

TOTAL BULLS SOLD:

OVERALL SALE AVERAGE:

SALE GROSS:

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

PALGROVE

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

(a) Refuse to acknowledge any bid;

(b) Withdraw any lot or lots before or during the sale;

(c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any

purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.3 Claims under Clause 17.1 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being returned, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

ACCURACY

Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may occur. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

BREEDPLAN

Breedplan data is reviewed on a monthly basis and may vary from printing to sale day. Changes to data may occur and alter significantly without notification. We have no control over changes made to ABRI.

ENTRY TO PALGROVE

People entering upon the 'Glen Willga' property for any purpose whatsoever including attendance at the cattle auction do so at their own risk.

We are not liable to you for any personal injury or death suffered by you or for theft, loss or damage to any property caused or contributed to by us or any other person whether caused or contributed to or by negligence, deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

Entry to the property is by invitation for the purpose of inspection or purchase of the sale cattle on offer. Palgrove may request any member of the public to leave the property at any time without warning. Palgrove reserves the right to ask for assistance from authorities should that request be ignored.

Commercial success confirms 'proof of profit' through genetics.

We are truly honoured to have secured a **SIXTH** consecutive victory at the renowned RNA Paddock to Palate Competition in 2023.

Competing in Class 37, 100 Day HGP export, we achieved a notable sweep with our entries, clinching 1st, 3rd, and 4th places, showcasing the consistency of our genetics.

Our winning pen featured an impressive average carcass weight of 374.36 kilograms, a dressing percentage of 55.59%, and ideal fat cover. These results reflect the commercial relevance of our cattle and reaffirm our commitment to producing genetics that improve profitability for commercial producers.

We're driven to participate in the RNA Paddock to Palate Competition each year because of its commercial significance. This prestigious event provides us with a vital platform to demonstrate the superior value of our genetics throughout the supply chain. We make it a point to use the feedback we receive from this competition and our commercial program to continuously refine and enhance our breeding practices, ensuring we deliver profitable genetics to our clients.
