## **Welcome to our 2025 Bull Sale**

Happy to see 2025 turn up!! Continually improving cattle prices and the promise of a better season for us in the south made it fairly easy to say goodbye to 2024 and be optimistic about the opportunities 2025 present.

Given the seasonal challenges the 2025 sale bulls faced we are really happy with how they present. They exhibit the phenotype we have been striving for and are backed up by one of the best data sets in the country. This year sees the largest offering in the country by the record breaking Hereford yearling bull, Tobruk Southern Cross. 35 sons of this prepotent sire are available for your inspection. Other high performance outcross sire options include SHF Houston and Wirruna Real Deal.

As always the bulls have been comprehensively performance recorded, genomically tested, vet checked, pestivirus tested, vaccinated with 7 in 1, pestiguard & vibrovax and drenched with Dectomax.

As always we look forward to seeing you at our sale or at our field days on Monday 10th February. Videos will be available on our and AuctionsPlus websites closer to sale day. Please contact us if you have any queries.

Regards,  
Lachy and Alastair

# Buyers Information

## Inspection

All cattle will be available for inspection from 10.00am on the morning of the Sale, however inspection can be arranged before hand by appointment.

## Luncheon

Will be available on the property.

## Delivery

While every care will be taken, no responsibility can be accepted whilst awaiting delivery.

## Transfers

Please indicate on the Buyers Instruction Slip if a Herefords Australia transfer is required.

## Health

All cattle are officially government confirmed as TB free and Brucellosis free. The properties have a J-Bas 6 status for Bovine Johnes disease. All sale cattle treated with 7 in 1 (booster due Autumn 2025). All sale cattle treated with Dectomax, January 2025. All sale bulls ear notch tested as NOT persistently infected with the BVDV virus. All bulls have been vaccinated with Pestiguard and Vibrovax.

## Semen Retention

Days and Allendale reserve the right to in the future collect semen in any bull catalogued. This would be solely for within herd use and collected at the vendor's expense and purchaser's convenience.

## Accommodation and Transport

The Auctioneers or vendors will be pleased to arrange accommodation in Adelaide or Bordertown.

## Buying Orders

The Auctioneer's Stud Stock staff are well acquainted with the herd. Buying orders will be diligently executed by officers experienced in stud beef cattle practice.

## Insurance

Can be arranged for transit and/or periods up to twelve (12) months cover.

## Rebate

A rebate of four percent (4%) will be paid to outside agents in attendance. A rebate of one percent (1%) will be paid to outside agents not in attendance but introducing client in writing prior to sale.

## BUYER'S INSTRUCTION SLIP - see Page 68

\$ INDEX VALUE	
Sustainability Production Index	\$149
MSA Production Index	\$137

# Breedplan Explanation

EBV's are provided for the following traits:

<b>CE DIR</b>	Calving Ease Direct. Indicates how this animal influences the birth of its progeny. Positive EBV's indicate easier calving.
<b>CE DTRS</b>	Calving Ease Daughters. Indicates how well the animal produces daughters that have easier calving.
<b>GL</b>	Lower Gestation Length EBV's indicate easier calving and increased growth after birth.
<b>SS</b>	Scrotal size is an indicator of male fertility in regards to semen quality and quantity. SS is also positively associated with female fertility.
<b>Birth Weight</b>	The lower the birthweight EBV, the lighter is the birthweight potential of the progeny.
<b>Genetic Milk</b>	Reflects extra calf weight at weaning due to the genetic influence a sire has on his daughters milking and mothering ability.
<b>200 Day Weight</b>	Indicates the relative weight advantage of a sire at 8-10 months of age.
<b>400 Day Weight</b>	Indicates the relative weight advantage of a sire at yearling age.
<b>600 Day Weight</b>	The best single estimate of an animals genetic merit for growth beyond yearling age.
<b>MWT</b>	Mature Cow Weight is an estimate of the genetic difference in cow weight at 5 years of age.
<b>CWT</b>	Estimates the genetic difference in carcass weight and is adjusted to 650 days of age.
<b>Fat Depth</b>	Bulls with negative (-) EBV's for this trait are expected to produce relatively leaner progeny than bulls with positive (+) EBV's.
<b>EMA</b>	Bulls with positive (+) EBV's for this trait are expected to produce more muscular progeny than bulls with negative (-) EBV's.
<b>Retail Beef Yield</b>	Bulls with larger EBV's are expected to produce progeny with higher yielding carcasses.
<b>Intramuscular Fat %</b>	Positive EBV's indicate likelihood of more intramuscular fat.
<b>Accuracies</b>	The accuracy provides a measure of the reliability of the EBV. The higher the value, the less likelihood of the EBV changing with the addition of more performance records on the animal.
<b>Selection Indexes</b>	An index ranks an animal for single production goal - profit. They take the hard work out of knowing how much emphasis to give each of the available growth, maternal, carcass and fertility EBV's when selecting parent animals. An index is a composite EBV of traits best suited to a particular production system and target market.

**Sustainability Production Index (\$):** Estimates the genetic differences between animals in net profitability per cow joined in a commercial self-replacing Hereford herd targeting the domestic market and with a strong focus on sustainability. Daughters are retained for breeding, so maternal traits are of importance. Steers are finished on grass until 20 months of age to target 300 kg carcasses with 10 mm P8 fat depth.

**MSA Production Index (\$):** Estimates the genetic differences between animals in net profitability per cow joined in a commercial self-replacing herd targeting higher MSA grades in the domestic market. Daughters are retained for breeding and so maternal traits are of importance. Steers are grain finished until 20 of age to target 340 kg carcasses with 12 mm P8 fat depth. A high cost is applied for cow feed costs during the annual feed shortage period which produces little change in mature cow weight.

# AuctionsPlus

## How to Register and Bid on AuctionsPlus

1

Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

We purchased Southern Cross in 2022 for a record Hereford Yearling bull price of \$91,000. He has been used extensively with great results really putting a type on his progeny. He has a unique data set being a trait leader for low birthweight and also 200, 400 & 600 day weight. He also has top 1% indexes, EMA and carcass weight. He has a huge representation in he sale with 35 sons on offer.

These will be the first sons to be offered in Australia by Outcross sire SHF Houston. Houston appealed to us for his terrific carcass and length of body. He has put some weight into his progeny being a trait leader for 200, 400 & 600 day wt as well as gestation length and scrotal size. He is also top 1% for EMA, Carcass wt, yield and both indexes. He has 5 sons on offer.

Big, long bull with heaps of growth and a big hindquarter. An outstanding maternal pedigree. Fancy N015 is also dam of Landlord T064, our 2022 drop keeper bull who is co-owned with Talbalba. Grand dam Fancy H31 is dam of the Godfather bulls, 5 of which have been used in the herd. Her 11 sons have sold to \$52,000 (Yarram Park) and averaged \$ 19,545. Full brothers to U120 sell as lots 8 & 13.

Very good bull, long with a sires outlook, good skin and an impressive data set. His sire was used as a yearling before being sold to Kevin and Andrew Harvey at our 2023 sale and is a trait leader for low birthweight and scrotal size. Sons of Colleen M093 have sold to \$30, 000 to Hazelmont at Roma.

# Don't let pestivirus rob you blind

**Pestivirus is an insidious cattle disease. It can take from you before you know it.**

It causes significant reproductive and performance issues, and weakens immune systems – leading to other costly cattle health problems like respiratory disease. In fact it costs the industry over \$114m every year.<sup>[1]</sup>

To protect your herd from pestivirus and optimise your returns, it pays to be on Pestigard.

Find out how easy it is at your local rural reseller or cattle vet.
