LEADING from the front FOR OVER 50 YEARS

Rosedale Charolais are your proven source of top quality polled Charolais genetics.

Rosedale continues to lead the way in Australia's carcass competitions with unrivalled success in recent times.

This is a true reflection that our breeding program is on the right track and that our genetics are performing in real world commercial situations.

We have a wide range of bulls to cover all Australian domestic and export markets, including stud sire duties. We welcome your inspection and stand 100% behind the bulls we put on offer. We focus on growth and meat quality and this is reflected in our carcass competition successes.

Our cattle are specifically bred for profitable cross-breeding under Australian conditions.

ROSEDALE'S PROVEN COMMERCIAL PERFORMANCE IN AUSTRALIA'S BIGGEST INDEPENDENT FEEDLOT TRIALS.

- 2024** Champion Domestic Team

WELCOME TO OUR 36TH ANNUAL BULL SALE

The 2025 year represents the 36th on property sale at Rosedale and we couldn't be happier with the draft of bulls we have put up for sale. We are proud of the depth and consistency through the entire catalogue which would not be possible without the strong breeding herd we have built up over the previous 50 plus years. It is great to see daughters and grand daughters of old stud matrons producing quality, cutting edge bulls suitable for today's markets. Likewise it is also great to see females from some of our proven sire lines going on to become great mothers and stamping their quality into their progeny.

I would say the beef industry has been quite volatile as a whole over the last 5 years but the last 12 months have been relatively consistent in comparison which adds a degree of stability for producers. It allows us to focus on the job at hand of producing quality meat whilst aiming for maximum profitability achieved through production efficiencies. Those that have been able to consistently produce a quality product that hit processor requirements are achieving great success. Producers that can get their product to market weights in as little time as possible are winning on a number of fronts. The main reasons are as follows;

1. The quicker an animal can get to market weights the lower the carbon footprint of that animal
2. The younger a beast is processed the better the tenderness, so this relates to higher meat quality
3. The quicker an animal is turned off means it frees up resources in terms of both land and labour and this translates into greater profitability for an enterprise.

By using a Rosedale bull you are using a bull from a program that aims to excel in all facets listed above in a manner that does not affect carcass quality or incur unnecessary production losses along the way. We are dedicated to developing Charolais infused genetics to suit the modern day Australian cattlemen and cattlemen.

We are continuously product testing our genetics through the numerous feedlot and carcass trials entered each year. To be able to achieve consistent and pleasing results from cattle sourced from our commercial herd is very pleasing and is reassurance that the stud breeding program is performing well. We take pride in the cattle we produce and each year we aim to raise the bar higher.

This years Charolais bulls are once again dominated by homozygous polled bulls and we are proud that all bulls offered are polled. We are focusing on a type that will produce sufficient weight gains but won't let you down on carcass quality. The composite bulls are very good and very consistent. They are all terrific bulls and are proving successful in a variety of cross breeding scenarios as well performing well in a variety of geographical locations. At the end of the catalogue we have 8 yearling heifers out of the heart of our autumn calving mob. They represent a fantastic opportunity for breeders to get their hands on proven polled genetics that will breed on for years to come.

All animals purchased at the sale are covered by our breeding guarantee. Supplementary information will be made available closer to the sale on the Rosedale website and Auctionsplus page which will also include videos. We welcome inspections at any time.

James, Genevieve, Michael & Jenny Millner

CARCASE TRIAL SUCCESS

NSW BEEF SPECTACULAR

In one of the biggest fields in long time with over 100 teams Rosedale performed consistently again finishing just outside the top 3 in 4th position overall. This is the second year in row in finishing 4th and we missed out on 3rd position by 1 point.

A highlight was claiming the reserve champion trophy for weight gain with an average daily weight gain of 2.41kg/day (hgp free). Consisting of pens of 5 steers, 2/5 steers scored full points with gains of 2.45 and 2.69 kg/day, 2 steers scored 65/70 with weight gains of 2.35 and 2.31 kg/day whilst one steer gained 2.25kg/day to get 60 points. Overall the consistency of the team was very pleasing and weight gain is one of the biggest drivers of profitability in all facets of beef production.

RNA PADDOCK to PALATE WINNERS

2024 was a great year for carcass trials with Rosedale winning the Domestic section of the prestigious RNA Paddock to Palate Class 38. In this competition pens of 7 steers are judged on weight gain in an 80 Day feeding program and then they are judged for carcass and meat quality. Rosedale won second place for the pen of carcasses and then went on to take out the over all title! This is the second time we have won this section.

MERRIWA WOOLWORTHS CARCASS TRIAL - BLACK

COMPOSITES We entered a team of black composite steers in the 2024 Merriwa steer trial and were very happy with how they performed claiming 3rd overall for weight gain out of 70 teams.

This competition is an 80 day program, with cattle destined for Woolworths run at the Gill Family's Alexander Downs Feedlot just out of Merriwa and run in partnership with the Merriwa show society. Rosedale are also proud sponsors of this event.

New Sire ALERT

In 2024 we found a bull we could not go past in Ascot "The Man". Boasting growth figures in the top 5% of the breed with milk and scrotal in the top 2% as well as top 25% for fats and gestation length he was very good on paper.

We have been chasing a good Rosedale Lumpsum son as we love the way he is breeding. The Man's thickness, depth of body and softness of skin were admirable features, supported well by his strong sirey outlook and freedom of movement. For a bull with a lot of capacity he was extremely well balanced.

We look forward to his first calves arriving later in the year. At pregnancy testing a couple of months ago he performed very well with a joining percentage of 95%. Here he is pictured in greener times out with his cows.

SALE INFORMATION

ROSEDALE SALE BULL EBV'S

Rosedale has been a member of Breedplan for over 40 years. This has helped assist us to consistently retain and source external genetics that have enabled us to produce the types of cattle you see in our paddocks today.

Genetic gain in growth rates has always been a priority of ours, but we understand sensible calving ease and birth weights need to be maintained. With our own commercial herd of 1000 British bred cows, we are very familiar with the benefits our Charolais bulls are delivering in a crossbreeding situation.

The graphs shown are a good 'measuring stick' as to where our sale bulls sit as a group compared to the Australian Charolais breed average.

Although we understand that EBV's are not everything we believe they do help to illustrate the types of bulls we are aiming to produce. We submit large amounts of meaningful data each year to Breedplan to help ensure the information is as accurate as it can be.

VISUAL ASSESSMENT

When choosing bulls we recommend using a combination of EBVs, raw data and visual assessment. Visual assessment is essential to assess physical and structural soundness and is a reasonable indicator of health and temperament.

EBV's are a tool that will help you to make more "educated" decisions when you are choosing breeding stock. Do your homework well before the sale when you have plenty of time and set some parameters for your EBVs that fall within your market requirements, to narrow down potential purchases. Use this "suitable list" of bulls and spend time looking and assessing the physical characteristics that you require. EBV'S are subject to change so don't be afraid to back your own judgement.

CARING FOR YOUR NEW BULL

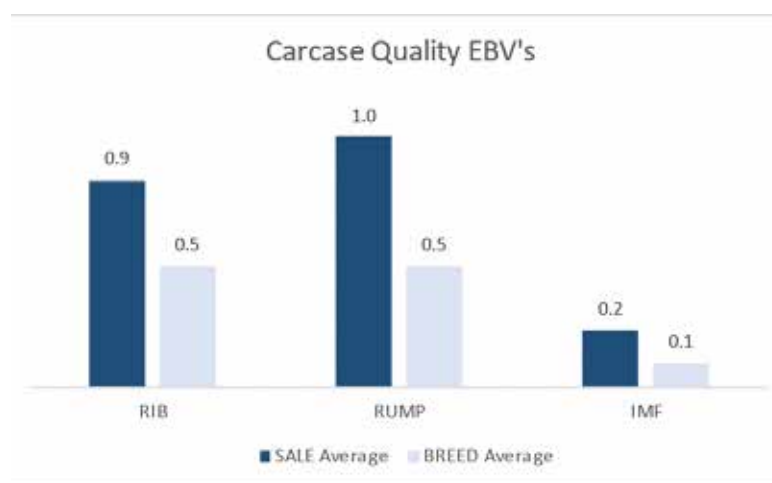

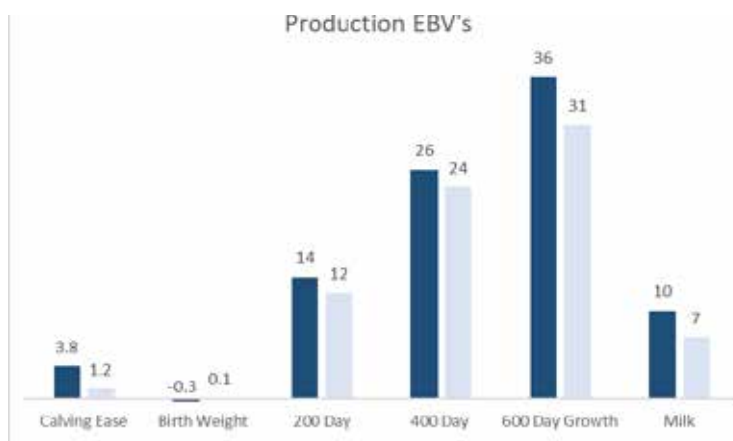

Always be considerate to your bulls and handle them with respect and kindness. Handle them quietly, walk them rather than rushing them, treat them with care and in a gentle manner and they will do likewise.

A bull leaving Rosedale is leaving the security of a large mob and will arrive in a strange environment at the purchaser's property. Unload him and make sure he has a steer or cow as a companion straight away if you can't put him out into your bull mob immediately.

A young bull can move in with older bulls and settle well, but remember, being the youngest he will get the last of any feed available because of the pecking order. The paddock needs to be reasonably large so he can keep away from the others and find adequate feed. Young bulls are still growing fast and need enough feed to maintain their growth pattern and be able to settle the cows quickly and efficiently.

Rosedale bulls are used to being handled by stockmen on motor bikes and have been mustered with dogs. Most of the fences are electrified and the bulls treat them with respect.

All bulls in this sale have been managed under identical conditions from the point of weaning, therefore comparisons can be made between animals of similar age. Weights, scrotal measurements and scans of EMA and IMF% will be available on the day of sale to further aid your visual assessment. Charolais bulls in this sale have been GENOMIC tested and sire verified as stated throughout the catalogue.

SALE INFORMATION

INSPECTION: cattle inspections are welcome at any time prior to the sale by arrangement with the vendor. Cattle will be yarded into pens by 9am sale day.

MORNING TEA & LUNCH: Will be available all day. Please stay for a drink following the sale.

LOCATION: 126 Rosedale Road, Browns Creek, New South Wales, 2799

1km out of Blayney on the Orange Road, turn left into Brown's Creek Road. Continue for 5kms and you will see "Rosedale Charolais Stud" on the left. Follow gravel road for 2kms.

HEALTH: All bulls catalogued have been semen tested and examined for structural soundness by Dr. John Sullivan. All of our cattle receive 7in1 vaccinations at 4 months of age, then 6 weeks later and an annual booster. They were drenched at weaning and periodically according to worm counts. Cattle were last drenched with Cydectin Platinum together with a 7in1 in April. The sale bulls have been vaccinated for Pestivirus (BVDV) as well as tested negative.

RAW DATA: All bulls will be scanned prior to the sale for eye muscle area (EMA), rump and rib fat, marbling (IMF%) as well as sale weight and scrotal measurements. Supplementary sheet available on the day and on the Rosedale website, along with photos of all the lots.

ROSEDALE'S 12 MONTH GUARANTEE: All stock have been evaluated for structural soundness and fertility. To the best of our knowledge the bulls are in sound working order at the time of the sale. Any claim against the breeding ability or a structural breakdown of any animal must be made in writing and accompanied by a Veterinary Certificate within 12 months of the sale date. Any animal failing to breed may be either replaced with an animal of similar value or credit made available to the value of the purchase price, minus salvage value, for use at a future Rosedale sale. The purchaser will be responsible for any costs incurred.

DELIVERY: A delivery instruction slip must be completed and signed. Stock awaiting delivery will be held free of charge - all care will be taken, but absolutely no responsibility will be accepted for any injury or loss occasioned during, as a consequence of, or in relation to any holding.

This year we will deliver all stock purchased at the sale to any major centre in Australia for a flat rate of \$150 per head, please talk to Elders about this when completing the delivery slip. A Complementary transport service is provided by Rosedale for those within 100km of Blayney.

INSURANCE: Ownership passes at the fall of the hammer. An insurance representative will be in attendance on sale day.

TELEPHONE LINK-UP: Mobile telephones will be available. Please arrange with the vendor or agent to ensure a line.

AUCTIONS PLUS: Our sale is conducted live on line in real time and will be interfaced on Auctions Plus with the physical auction that is being conducted. A computer is used to bring the on-site bid price to the internet screen for remote bidders to observe. Bidders can bid on computers at their location and the bid is immediately transferred to the auction barn and relayed to the auctioneer. Bidding is only available if registered with Auctions Plus. You must register on-line to their website www.auctionsplus.com.au - at least 24 hours prior to the sale. For first time users of Auctions Plus we recommend you register as soon as possible and become familiar with the site. The staff in Sydney are very helpful and happy to guide you through it.

For more information contact:- Auctions Plus - (02) 9262 4222

AGENTS REBATE: A 1% rebate will be offered to outside agents on the condition that a written introduction is received 48 hours prior to the sale and settles on their clients behalf within 7 days. (This clause will be strictly adhered to.) Only agents attending the sale in person will qualify for a 3% rebate also on the condition settlement occurs within 7 days on their clients behalf.

TERMS AND CONDITIONS: Terms of the sale are as per Conditions of Sale NSW Stud Stock.

PLEASE NOTE: It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in this sale on this sale premises.

PRE SALE INSPECTIONS : Private inspections are welcomed and encouraged at any time prior to the sale by appointment with Rosedale. Online Bidding and over the phone bidding is available on sale day for anyone unable to attend.

SALE DAY SAFETY: All sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However, there are risks associated with cattle handling.

Visitors enter the cattle pens at their own risk. Children must not enter pens.

DISCLAIMER: People entering upon this property for any purpose whatsoever including attendance at cattle auctions do so at their own risk. We are not liable to you for any personal injury or death suffered by you and for theft loss or damage to any property caused or contributed to by us or by any other person whether caused or contributed to by or by negligence deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners their employees contractors and agents and each of them. While every care has been taken in compiling this catalogue to ensure accuracy of information supplied no responsibility is accepted for any errors which may have occurred.

Sire appeal, red factor and homozygous polled - Maverick is one of the best bulls we have produced. The bulls in this sale are yet again fantastic. Maverick's strike rate for producing quality is as good as we have seen. Earlier maturity pattern, excellent IMF and fantastic skin and structure. Both Maverick and his mother are still going strong today.

An exceptional Oatley son with breed leading growth EBV's and a terrific phenotype. Purchased by Rosedale for an Australian yearling record of \$90,000 in 2022. Spectacular is doing everything we hoped for with some outstanding progeny in this catalogue. He is an extremely docile bull with excellent skin and his dam is in the Palgrove donor pen.

This sale represents the first sons of Ascot Reputable, a son of Rosedale Lump Sum (Pictured above at 12 months). We find his progeny to be consistent with what we aim to achieve and that is Polled Charolais with plenty of punch and strong carcass traits. There are some great sons in this draft, moderate birth, superb temperaments and extra soft.

HOMOZYGOUS POLLED - Top 25% Birth & 200 Day Growth, Scrotal Size

Universal is a powerful bull with a lot of red meat. Very mobile and evenly balanced. It is rare to find a bull that is in the top 25% for birth and 200 Day growth of this quality. We love the strength and appeal of this bull.
