Charbray Trademark used with permission as an identified Certified Charbray Breeder

We have been breeding Charbray bulls for some 46 years (38 as Emjay Charbray), selling all our bulls at our sale at Woolooga Saleyards for the last 12 years. We hold none back for other sales and rarely retain bulls for paddock sales. If they can't make our sale, they are usually culled.

Our aim is producing well-muscled flat backs for the commercial cattleman, that are soft with bone and frame, growth for age, easy doing, docile and wrapped up in a package that is easy on the eye.

Polledness and colour are also our aims, but we will not compromise the essential beef characteristics of our cattle to do so. We are increasing our polled offerings each year.

We source quality sires to keep our bloodlines fresh and relevant. This year's bulls represent 8 sires.

Our cattle are bred in the ticks, on forest country at Goomeri, that consist of black soil, blue gum and apple tree flats with iron bark ridges. It is well accepted that cattle bred in our coastal South-East Queensland country thrive in all conditions and our bulls have been sold into most regions of Queensland and many in the Northern Territory.

All sale bulls have had the same preparation from birth, with oats crop from weaning, then grass and their final preparation being on a high roughage grain ration with access to good quality hay and silage. For the first time, this year we are offering 6 PTIC, registered, unfed first calf heifers (3 polled). In selecting we drew a line on an age bracket and chose the best from that group after already having sold the tail weaners from that drop. They are all heifers that we would normally retain in our herd. They were mated to Marlegoo Swagman (P) (our excellent heifer bull) in late December 2024 and are due to calve from early October 2025 onwards. Heifers are vaccinated with 7 in 1 and 3 Germ blood.

Temperament is high on our agenda. All cattle are worked with bikes and dogs, tailed as weaners and handled in a quiet manner. Those who do not pass our temperament test are turned off as steers or feeder heifers. It will be evident in our offering for this year that all have an excellent disposition.

Check out our Facebook page "Emjay Charbray" to see the videos of our bulls, heifers and our operations in general. We are confident you will agree our bulls and heifers are commercially orientated and will go out and do a great job in any environment and for any market.

### **CELESTIAL CHARBRAY STUD**

Charbray Trademark used with permission as an identified Certified Charbray Breeder

### Celestial Charbray Stud commenced operations in 1993 with the purchase of our first female from Eunice Bougore, Toogoolawah.

The following year we selected a further two heifers from the Connolly's Emjay Stud. This association has endured for more than 30 years. In fact, our cattle are bred in close collaboration with the Emjay Stud and offer much the same genetics.

Our bulls are bred on the coast, but are grown and prepared for this sale at Goomeri, right inside the Connolly herd.

Today, we use the best affordable genetics to produce a small number of quality bulls for the commercial producer.

The purchase of Marlegoo Jaguar some nine years ago has given us a base herd of quiet, quality, milky females that has set a new standard for our breeding program. These have been mated to another Marlegoo sire in Sargent, whose first calves dropped last August and September with around 90% being polled, the first of which we will offer next year.

This years bulls are mostly sired by Emjay 3922, a scurred beast that has added a heap of carcass traits to our cattle.

We back our cattle to perform in any conditions and stand firmly behind our product and offer a full guarantee.

Celestial Charbray Stud has a Facebook page and can be contacted via: mobile 0403 037 211, or email wjemsmith@m2data.com.au

We wish you every success with your purchases.
