WELCOME, AND HAPPY BUYING

Thank you for the confidence you have placed in our brand and breeding program. I am a believer in real cattle with foundational real-world production and performance and am inspired by the cattle people who work hard every day to make a living.

I realise there is a bull sale every day at this time of year, with so many choices of bulls and studs, which is why I want your experience with Pentire Angus to be much more than buying a bull. My goal is to build a lasting relationship and be a reliable source for your Angus genetics you can count on to make your cattle enterprise thrive.

It is with your support that the Pentire Angus program has grown, continually improving and reaching milestones I had not dreamed possible - allowing the Pentire Angus program to flourish and keep developing. The barometer on which I gauge everything I do is based on how it will affect the productivity and profitability of the customers I serve.

I am continually working to breed and provide better seedstock each year to, in turn, make your cattle better and more profitable - that is my uncompromising commitment. My disciplined breeding program does not follow the latest fads. Rather, I breed cattle for real cattle people who sell quality kilos of beef for a living, doing so efficiently and as profitably as possible.

My unwavering focus is on maternal traits of the cow herd, emphasising the basic profit driving traits of fertility, longevity and maternal production. My breeding program is continually advancing, improving, refining and taking advantage of embryo transplant technology on our superior cows to make each calf crop stronger than the last. The 2025 sale reflects these efforts.

Thank you for your support – it is gratefully appreciated,

Justin Richards

INSPECTION

Buyers can inspect sale cattle at any time by arrangement with the vendor or the agent. Cattle will be penned by 10am sale day.

ADDITIONAL INFORMATION

A supplementary sheet with weights and scrotal measurements will be available on sale day. GST: Prices for all lots sold will be GST exclusive. GST will be added to the final invoice.

REBATE

The vendor will provide a 2% rebate to outside agents introducing buyers in writing 24 hours before the sale and settling on their behalf within 7 days.

DELIVERY

The vendor will provide delivery to most major selling centres in NSW. Alternatively, the vendor will delivery to your property for a small fee to cover fuel. This will occur as soon as possible following the sale. The vendor is willing to hold any animal, free of charge, for 2 weeks following the sale, after this time, an agistment fee will be charged

HEALTH

All animals are vaccinated for Vibrio and 7 in 1. Pentire Angus is located in a Bovine Johne's protected area. All animals are drenched with Ausmectin and have received Multi Min shots.

SAFETY

Visitors enter pens at their own risk. Children under 16 are not allowed in pens. At Pentire, we carry out all care and due diligence to ensure livestock pose a minimum threat to our clients, staff and ourselves. However, we cannot predict or guarantee their behaviour. All sale animals have been assessed for temperament and are quiet to handle under normal circumstances. Unfortunately, sale day places abnormal pressure on livestock as they are not used to crowds which may make the behaviour of even the quietest animal unpredictable. Bulls may also fight in the pens making them oblivious to their surroundings, including people.

“ Our customers are important to us.
At Pentire Angus, our handshake is our work
and our customers are our friends. ”

HF Hi Country 7L

Was the top-selling \$185000 CAD bull through the Hamilton farms 2024 bull sale. I am very excited for the future of this very impressive beef bull, HF Hi Country 7L is the epitome of what cattle people are striving to produce in the Angus breed. HF Hi-Country 7L was a crowd favourite at the Hamilton Farms since birth, and with many who have seen him. Hi Country is big topped, big crested, very thick and meaty, big scrotal and stands on perfect feet. With a real herd bull presence about him, when you expect this bull in person, you are hard pressed to fault him in any way.

His Dam HF Tibbie 21J is a standout Schiefelbein Showman 338 daughter since birth and was consigned to the 2022 angus collection sale where we, Pentire Angus and target livestock, purchased her for \$40000 CAD and she was PTIC with Hi Country. I feel HF Hi Country will compliment our females really well, especially our HF Alcatraz 60F and youngdale believe daughters and are very excited for what HF Hi Country 7L can bring to the Pentire Angus program and the Australian beef industry.

Contact me if you want to view the bulls and our female herd in a friendly, casual, and relaxed manner over spring and summer.
Call Justin on **0429 950 766**.

GV Galaxy 27G

Here at Pentire Angus, we are proud to introduce "GV Galaxy 27G," an exceptional phenomenon with impressive muscling, width, depth, and volume. I came across a photo of this bull on social media and could not get him off my mind! I did some research into the Greenvale ranch Angus program and found it aligned with the Pentire Angus grass-based breeding program, with more muscle and yield than the mainstream Angus, with reliable outcross Canadian genetics. Harold Reich picked up on my eagerness to be involved with this amazing bull, and he contacted me when he was getting Galaxy tested to qualify for semen export to Australia. Sometimes dreams do come true! He showcases explosive performance and a commanding phenotype.

This sire has the potential to make a significant impact on the Angus breed — the sky's the limit for Galaxy! He brings the grassroots foundation out-cross blood of 'Reich 28B' to the outstanding 'Pride Cow Family,' a true opportunity for growth. With a powerful dam, 'Reich Pride 36E,' by 'Reich Ripper 37B,' he embodies the pinnacle of performance and maternal value, ensuring his progeny are stamped with pure power and multi-dimensionality. 'GV Galaxy 27G' is a true gem for the entire Angus industry, and he's one to keep an eye on! He has excellent feet, an outcross pedigree, and is bred for predictability. The mass that Galaxy possesses is rare, presenting a beautifully balanced appearance. He showcases unparalleled thickness and muscling, all wrapped in a functionally sound package. A remarkable phenotypical masterpiece! Galaxy is on his way to Australia, and I cannot wait to showcase the cattle that he produces in the Pentire Angus program.

Pam Vanek

PENTIRE IS A GREAT CHOICE

Pentire Angus uses the best outcross genetics from across the world, which provide a point of difference to most of the Australian Angus population. These genetics have the ability to add carcass shape, thickness, easy doing ability, outstanding phenotype and, in the long term, leave you with an excellent line of great looking, fertile and functional replacement females.

Our top quality bulls are presented each year through our annual sale in excellent condition, so you, as the potential buyers, can view them and notice their genetic merit to the fullest. Each one of our bulls are ready to go straight to work for you and your herd.

Our Pentire Angus bulls will go out and breed phenotypically great looking cattle that will take our client herds, and the industry as a whole, forward to today's modern market by reducing production costs. A highly efficient production system does not mean low inputs. On the contrary, the best way we find to achieve a low production cost is to increase output, which means optimising every animals' performance on each hectare of land we have. We are stacking on the genetic gains in client herds for massive productivity gains.

To make what we do in this challenging industry worthwhile, we require bulls with excellent structure, muscle, yield, efficiency and fabulous good looks.

“ Common sense and cattle sense is the approach we use to breed top-quality lots for Annual Sale. ”

Purchaser: \$

Pentire Umbrella U5 has a truly outstanding pedigree. Pentire Umbrella U5 is sired by the renowned Poss Maverick, and those of you familiar with this bull understand how rare it is to access his direct sons! Pentire Umbrella U5's dam is HF Tibbie 102W, a daughter of the legendary HF Tiger 5T. He is also a full brother to Target Tibbie U10, who sold for an impressive \$26,000 in 2024, and to Target Tibbie U9, who fetched \$15,000 at the World Angus Forum in May. Pentire Umbrella U5 is a moderately framed, early-maturing type, as long as a coal train, flat-backed, heavily muscled with a massive hindquarter and possesses supple skin and hair type, indicative of easier maintenance. Furthermore, he is as docile as a puppy. His first calves are outstanding, calving easily from first-time heifers and exhibiting significant muscle development akin to their sire. A sire not to be overlooked, truly a highlight of the sale.

Purchaser: \$

Pentire Trailblazer U42 is another Canadian embryo from Hamilton Farms. Pentire Trailblazer U42 is a true genetic outcross for the Australian herd, sired by Dalton's Trailblazer, with only four registered progeny in the Angus Australia database. Pentire Trailblazer U42 offers all the traits we have been striving to provide our customers over the years, presented in a fresh new pedigree. Pentire Trailblazer U42 is an attractive and proud individual, showcasing substantial thickness and structural correctness. He stands squarely, exhibits significant body mass, excellent foot structure, and a broad topline. His dam, HF Annie 240Z, is another top-quality daughter of the legendary HF Tiger 5T. Heifer suitable. Use Pentire Trailblazer U42 for breeding front paddock replacement females and steers with added growth and efficiency, complemented by increased IMF from the Trailblazer line. This is another feature lot in the 2025 sale.

Pentire Underbank U30 was produced by an impressive first-time calving heifer and has been utilised within the Pentire herd joining stud cows. Pentire Underbank U30 is sired by Red U2 Revival 147G. Pentire Angus is the only place you can obtain direct progeny of Red U2 Revival 147G. This bull has been affectionately described as a "meat machine," and Pentire procured his semen from Blair's West Land and Cattle in Canada. Pentire Underbank U30 is a larger-framed, longer-bodied, heavy-built bull who is remarkably docile. He is supported by the Bara cow family, renowned for consistently producing great offspring. Red Gene Free.

Purchaser: \$

This sharpshooter is sired by the homebred sire Pentire Novotel N43, who has been an outstanding performer in the commercial herd for many years before being introduced to the stud females. N43 excelled, producing two bulls and two heifers. Pentire Vergil V7 is big-crested and big-topped, with excellent feet and very supple skin and hair type. Similar to Lot 3, Pentire Vergil V7 is another heifer's first calf, out of a quality Bara female, and his maternal granddam is Bara N18, who is currently the best cow in the Pentire herd and dam of last year's high seller, Tortilla T37. His paternal granddam, Evilest K22, is also a remarkable producer. This is an exceptional bull, not to be overlooked, and would have been retained if not for the decision to keep his brother, Vinnie V5. Please note his age—only 17 months on the sale day.

Purchaser: \$

Pentire Ulysses U17 comes from the great Pentire Abbie S6, who is an exceptionally fertile, heavy-milking female, exemplifying the resilience and productivity vital to the cattle industry. Pentire Ulysses U17 boasts a visually appealing phenotype, characterised by a soft-as-butter look and a well-balanced, square frame. Since his yearling stage, Pentire Ulysses U17 is developing nicely for the 2025 sale. His brother, Pentire Sausages, achieved 5th place at the Sydney Royal in the purebred steer class and narrowly missed winning the virtual taste test carcass competition. He was part of the 3rd-placed Stan Hill Angus team, underscoring the high-quality, competitive lineage of this sire line. Pentire Ulysses U17 has been used as a joining sire in the spring of 2024 and we are excited for the arrival of his calves.

Pentire Ute U19 is sired by HF Prowler 43 and of one of our favourites, Pentire Abbie N23, who possesses massive volume capacity, exceptional milk, and high fertility. N23 is proving to be an excellent breeder, having recently weaned an impressive bull calf sired by Youngdale Believe 46B. Pentire Ute U19 is living up to his name as his key attributes are his softness, easy doing ability, great length and thickness. Use Pentire Ute U19 in your herd to add weight, frame and length to your weaner crop.

Pentire Usman U44 is sired by Schiefelbein Showman 338 and out of Pentire Pride H36, one of the finest cows to walk the hills of Greenmount. She produced multiple high-selling sons in annual sales, including Pentire Rome R22 and Pentire Sandy Creek S21. Pentire Usman U44's sisters are truly exceptional, exhibiting remarkable traits of thickness, length, fertility, perfect udders and calving ease - calving unassisted at two years old. Do not overlook Pentire Usman U44. Suited to heifer joining.

Game Face U57 is Jesse's Red Bull for the 2025 sale. What a cracker of a bull he is! Out of a first calving heifer 5M Utopia S5, he was purchased at foot from the 5M dispersal sale. S5 has settled into the hills of Goorangoola very well and grown into a lovely cow with softness, depth of body and volume. U57 is a cattleman's kind, structurally very sound, eye-appealing phenotype and nice muscle pattern. Suitable for heifer joining

Purchaser: \$

Pentire Red U2 Revival U59 is a very thick square-made bull with a super low birthweight who weighs a lot heavier than his frame suggests. U59 is a maternal brother to Jesse's Red Cow, Ruby Rose R34. The Revival Daughters look very good and I am very excited to see them calve. Pentire Red U2 Revival U59, a ¾ sister, was the grand champion red angus female at the Canberra Royal Show 2025. Pentire Angus is the only place where you can obtain direct progeny of Red U2 Revival 147G. This bull has been affectionately described as a "meat machine," and Pentire procured his semen from Blair's West Land and Cattle in Canada. Suitable for heifer joining.

Comments:

Purchaser: \$

Pentire Unit U65 is sired by Pentire Peanut Butter P10, making him a paternal brother to Pentire Sausages, who did so well at the Sydney Royal Easter Show. This sire line produces high-quality and highly competitive calves that have a special place in the Angus beef industry. His brother was integral to the 3rd placed Angus team in the prestigious Stan Hill Memorial Trophy competition, scanned a 6.1% ImF score and placed 5th in his live class against 33 other steers. Pentire Unit U65 is soft coated, suggesting easier doing, very thick and muscular and has a very good traditional Angus head. A very good bull! Suitable for heifer joining

LOT 17 PENTIRE U48

Unregistered
Date of birth 15/09/2023
Sire: Pentire Scallywag
 Sire: SAV pioneer
Dam; Pentire Pride H36
 Dam; Pentire Pride F35

Pentire U48 is the natural calf of Pentire Pride H36, sired by Pa's herd bull that let himself into the stud cow paddock for a 12-hour rendezvous and sired 3 calves, the bugga! Pentire U48 is as good as any bull in the sale - very masculine, structurally sound, with big testicles and soft skin. The bonus is that Pentire Pride H36 is his dam; if you have followed her closely, you will know she consistently produces high-quality bull calves. Pentire U48 will make an excellent commercial

LOT 18 PENTIRE URI U55

Unregistered
Date of birth 4/10/2023
Sire: Pentire Scallywag
 Sire: Pentire Caboodle C6
Dam: Pentire Evilest L26
 Dam: Pentire Evilest

Pentire Uri U55 is an unregistered bull, sired by the aforementioned herd bull of Pa's that let himself into the stud cow paddock for a 12-hour rendezvous and sired 3 calves, the bugga! Pentire Uri U55 is very thick-made and muscular out of a quality sound and fertile functional cow, Evilest L26, who has amazingly raised two sets of twins successfully. Very nice bull suited to heifer joining.

LOT 19 PENTIRE U50

Unregistered
Date of birth 21/09/2023
Sire: Pentire Scallywag
 Sire: Mundoo Cheyenne C87
Dam; Pentire pride H58
 Dam; Pentire Pride F39

Pentire U50 is an unregistered bull, who is the 3rd calf of the cheeky unregistered bull of Pa's that had a brief interlude in the paddock of stud cows. There is a little more frame in this bull. Pentire U50 is very soft coated, has good length and volume and is out of a very good cow, Pentire Pride H58, who produced a high-selling son, Pentire Quarterback Q4.

LOT 20 PENTIRE REMINGTON U66

Unregistered
Date of birth 18/09/2023
Sire; HF Alcatraz 60F
Sire; Pentire Remington R021
 Dam; Pentire Laura M35
Dam, Pentire commercial cow

Sired by the HF Alcatraz 60f son Pentire Remington R021. Long, structurally sound, very good skin and hair type. HF Alcatraz 60F and his sons are very good female producers. I don't think Pentire Remington U66 is going to be any different.

LOT 21 PENTIRE REMINGTON U77

Date of birth 22/09/2023
 HF Alcatraz 60F
Sire; Pentire Remington R021
 Dam; Pentire Laura M35
Dam, Pentire commercial cow

Another HF Alcatraz 60F grandson, Sired by Pentire Remington R021, U77, is very similar in type and kind to the last bull U66, length and frame and very slick coated. Very good feet and legs. These HF Alcatraz-bred bulls will leave you some very impressive females.

Comments:

Purchaser: \$

Pentire Redemption U60 is the red heifer lot in the sale, sired by Red U2 Revival 147G. Pentire Angus is the only place you get direct progeny of Red U2 Revival 147G. This bull has been affectionately described as a "meat machine," and Pentire procured his semen from Blair's West Land and Cattle in Canada. I am loving the constitution and the doing ability of the Revival Heifers I have at Pentire and am looking forward to them calving out. Redemption U60 is also a ¾ sister to Pentire Ruby Rose U34, who went on to win shows with her new owner, Charli, since being sold through the annual sale last year. The prestige includes winning the Grand Champion Red Angus female at the Royal Canberra Show 2025.

GUARDIAN DONKEYS

Under certain conditions, guardian donkeys can be a suitable option to guard your cattle.

Donkeys are aggressive towards predators and may provide indirect protection for domestic animals. They are most successful in protecting livestock in small and level pastures, where the donkey can see all or most of the area from one location.

In open paddocks use approximately one donkey to 200-300 cows, in undulating/scrubby paddocks, this should be reduced to 1 donkey to 100 cows. In extensive situations, aim for one donkey per camp.

MINNIE-VALE QUANTONG ^(P) SGSQ190E ^(P)

WELCOME TO OUR 2025 SALE

What can we say? Australia truly is the land of droughts and flooding rains. Our hearts go out to those affected by the devastating floods on the mid-north coast of NSW, as well as to producers grappling with desperate dry conditions across SA, VIC, and southern NSW. Here's hoping for some balance soon.

Our season has been later than usual, but the bulls have come through well on a smaller crop. We're pleased to offer this year's draft as fully grass-fed.

Our resident stud, Minnie-Vale Quantong, has been an absolute home run for us. His first crop of stud females is now in production, showing perfect udders and excellent conformation. He truly exemplifies the ideal phenotype and do-ability for a Charolais bull, so much so that he's been recalled to Minnie-Vale for continued stud duties.

Our vision for Charolais cattle remains unchanged: we're committed to breeding moderate, functional Charolais that excel in calving ease, rapid growth, muscle development, and structural integrity. Their ability to perform across diverse operations makes them a valuable addition to any herd. With current saleyard trends, Charolais-cross calves are back in demand, valued for their weight for age and their capability to finish well on grass.

In today's tightening economy, producers need value for money and a solid return on investment. We believe buyers achieve this through a combination of genetic gain, performance, and longevity. This year, we are proud to present an outstanding line-up of bulls. We are confident you'll find an animal in this offering that meets your needs and exceeds your expectations

Another great type of bull. So much heart and girth in this bull. He is strong headed, clean shouldered, long through the middle clean sheathed and great testes. A huge amount of red meat from the tips of his blades to his pin bones. His dam is amongst the broodiest cows you will see in the breed. He is backed by a stable and safe EBV spread across the board.

AuctionsPlus

How to register and bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.
