Welcome THE VENTURON STORY

We welcome everyone to our 6th Annual Bull Sale. We must say this year's bull sale has come around extremely quickly, following on from our successful ram sale on 23rd October 2025. Last year was one of the better years for farming we can remember with an average to above rainfall season throughout the growing season. This has resulted in full dams and extra dry feed to finish the season, which is something we have not seen for quite some time.

The cattle market has finally turned around in Western Australia and we are so excited to see our clients receive such fantastic prices for their calves through the saleyard and direct to different markets.

2025 was an exceptionally successful year for our herd highlighting our genetics across Australia. We were extremely fortunate to win the Most Successful Charolais Exhibitor, Best Maintained Team and Senior Champion Charolais Female at Sydney Royal Show. In Perth we continued our success with a clean sweep in the interbreed competitions winning Interbreed Junior Champion Bull and Heifer, and Interbreed Senior Champion Female, the Breeder's Group of Three and Interbreed Grand Champion Beef Pair with our Charolais Team.

Our Angus had another successful showing, receiving Grand Champion Female and Supreme Exhibit at Perth Royal Show for our 5th consecutive year as well as the Grand Champion Bull.

We are always so thankful to our team of helpers across the country who help make this all happen year after year.

We would like to congratulate the Kelly family from Victoria on their amazing show campaign with Venturon Brigitte V101, winning Supreme Charolais Exhibit at the 2025 Adelaide Royal Show.

Harris was honoured to be invited to judge at the Stratford A&P Royal Show in New Zealand and while there he was able to visit Premier Cattle to view calves sired by our Murray Grey bull Venturon Rectify R1. Excitingly, Rectify also had calves born in Europe in 2025.

The Canadian semen rights in Venturon The Stig T42 have been sold to Johnson Charolais, and we look forward to seeing his progeny in the coming year.

This year we are excited to offer five elite show heifer prospects for the first time. With the 2026 Charolais World Congress being held in Australia, we are offering these heifers halter broken and ready for you to show. We will also offer a 5% discount to any youth member of the Charolais Society of Australia, off the purchase price of these females.

Through our extensive ET and AI programs and sourcing the best genetics from across the world, each year our bulls continue to evolve and improve. This year we are extremely proud of the evenness of the bulls and believe the bulls present fresh and ready to work. They are run in large breed contemporary groups and like anything, the cream rises to the top and those are the bulls that are selected for our sale team.

Please note that in this catalogue all of the pictures of the bulls were taken 7-8 weeks before the sale with minimal supplementary feeding so we strongly recommend you take the time to come out and view the bulls or check out the up to date videos that will be available on AuctionsPlus and our website in early February thanks to the team at Five Star Creative Promotions.

We wish you a safe, healthy and prosperous 2026 and we look forward to it hopefully being the best season yet. Thank you again for choosing VL as your source of genetics and if you require any more information, please get in touch.

Team VL

SHOW Ring SUCCESS

- 1 Interbreed Breeders Group of Three Perth Royal
- 2 Venturon Clementine Q11 Supreme Charolais Exhibit Interbreed Senior Female Perth Royal
- 3 Venturon Blackcap T156 Supreme Angus Exhibit Perth Royal, Silver - Angus Miss World
- 4 Venturon Victoria's Secret V29 Interbreed Junior Champion Female Perth Royal
- 5 Venturon Naughty But Nice S32 Senior Champion Female Sydney Royal
- 6 Venturon Rosebud Lass V20 Junior Champion Angus Female Perth Royal
- 7 Venturon Talladega T192 Supreme Livestock Exhibit Wagin Woolarama
- 8 Venturon Verified V81 Interbreed Champion Male Perth Royal

SALE CONDITIONS

- **Venue**

The sale will be held on property - Venturon, Sambell Road, Boyup Brook and online with Auctionsplus.

- **The Sale**

The Selling System we will be utilising will be a video sale. The sale shed is located right next to the bull pens. Bulls will be penned with the ability to view and walk through them. The Auctioneer will sell the bulls by auction with a video of each bull projected onto the screens located in the sale shed, rather than running the bulls through a ring. This system we feel is buyer and animal friendly and works well with modern occupational health and safety requirements.

- **Sale Day Information**

The sale will be conducted under ALPA terms and conditions as displayed in the sale office on sale day. Potential Buyers are to ensure they have registered with the selling agent and received a bid card prior to the commencement of the auction. This sale will also be interfaced with Auctionsplus so if you wish to utilise this platform, please make yourself familiar with the terms and conditions or talk to one of the selling agents if you require assistance. Please ensure if you wish to use this platform you understand the system, appropriate connectivity and pre-register 24 hours prior to the commencement of the auction. This will allow parties unable to attend the sale to bid remotely on lots they may be interested in.

- **Inspection & Sale Time**

The bulls will be yarded and available for inspection from 11am on Sale Day Friday February 20th. Selling to commence at 1pm sharp. Supplementary sheets will be available on sale day or at prior request. Private inspection of the sale team can be arranged prior to sale day by contacting Harris Thompson on 0488 493 713 or Andrew Thompson on 0429 379 135. All times in the catalogue are displayed on AWST.

- **Supplementary Sheet**

Supplementary sheets will be available on sale day or by prior request.

- **GST**

All lots are sold exclusive of GST. GST will be added to the auction sale price of each lot prior to invoicing.

- **Outside Agent Rebate**

Venturon offer a 3% outside agent buyers' rebate to those who nominate their client in writing to the selling agent 24 hours prior to sale and settling within 7 days. Agents must attend the sale with or on behalf of their client on sale day to assist with their purchase.

- **Phone Bidding**

If you require phone bidding, please get in touch with one of our team prior to sale day or talk to one of the selling agents.

- **Insurance**

At the fall of the hammer, Venturon recommend insuring all purchases. There will be an insurance representative onsite sale day to assist you with this.

- **Registration Status / Transfers**

If the animal is listed as registered, it is available for society transfer at the vendor's expense. If you require society transfers, please indicate on the buyer's instruction sheet.

- **Animal Identification**

All bulls are branded and/or tattooed as per breed society regulations. All lots are permanently identified in accordance with the National Livestock Identification Scheme (NLIS). Sale lots will have a sale tag on sale day.

- **Refreshments**

Refreshments and lunch will be available on sale day.

- **Catalogue Photographs**

All catalogue sale photographs were taken on farm the first week of January 2026. The bulls have had little preparation at this point. Please take this into account when viewing bulls.

- **Health**

Venturon Livestock is a JBAS 6 accredited herd. All the bulls in the sale are eligible for entry to all states and territories in Australia. The Bulls in the sale are sold under the Zoetis Star Breeder program and have been vaccinated with 7 in 1, Pestigard, Vibrovax and Rhinogard and have been drenched with Dectomax. All sale bulls have been tested negative for pestivirus. All bulls have been semen tested and scrotal's have been measured by Nutrien Breeding Services, Bunbury, WA.

- **Sale Bull Notes**

Please note the sale bulls have been run in three different management groups. All bulls will be listed on the supplementary sheet with what group they came out of. The bulls have been worked by dogs, vehicles and motorbikes their entire life so when introducing them to new management practises please acclimatise them to it gently. The bulls have not been worked by horses.

• **Health and Safety of Visitors**

All of the bulls within the sale have undertaken a strict temperament selection process. The bulls are quiet to handle under conditions they are used to in their groups. Sale day poses a range of new things to the bulls that they may not be accustomed with so please take all respect when viewing the bulls. Please be alert for the potential of bulls fighting within the pens. We do not by any means expect the bulls to be aggressive, but the new environment and large number of people can upset even the quietest of bulls. Please do not crowd the bulls or loiter inside the pens, and please use common sense within the pens when viewing them. Please do not hesitate to talk to any of our team or the sale staff if you require assistance in the bull pens, we will be more than happy to help. Visitors enter the sale pens at their own risk. No children to enter sale pens, no dogs allowed on sale day.

• **Delivery**

Venturon offers free personal delivery within 500km of Venturon. All other transport within WA will be coordinated by Venturon to major centres. We will ensure the bulls are delivered as soon as we can after the sale, there will be no delivery on sale day.

• **Eastern States**

Venturon will co-ordinate and cover half of the transports costs on route to Falls Livestock Depot, Finley NSW through Falls Livestock Transport. Please get in touch with us for any more information on our transport offers. Upon taking delivery of your new bull, we recommend you have a companion animal or a group of animals for him to go into. It is a big thing for the bulls going into a new environment out of their groups, so we recommend you help make this transition as stress free as possible for them.

• **The Venturon Guarantee**

All the bulls sold at Venturon come with "The Venturon Guarantee". They come with a two-year Guarantee in the rare event a bull is found to be infertile or unable to breed cows, provided the problem is not caused by injury or disease after taking delivery from Venturon. Upon request, a veterinarian Certificate must be provided by an accredited Veterinarian. Venturon can replace with another sire to get purchaser through the breeding season and will refund the purchase price of the bull less the salvage value of the bull on the first year of purchase. For the second working year of the sire, Venturon will refund 50% of the purchase price less the salvage value of the bull.

• **Sale Catalogue Disclaimer**

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Data submitted to the Breed Societies may have errors in it which cannot be detected without further DNA testing. For this reason, users ought to consider if they need to obtain independent testing of the relevant animal (if possible) to ensure the data is accurate. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, neither the vendor or Charolais Society of Australia, or the selling agents assume any responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

• **Attention Buyer**

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

• **Angus Genetic Conditions**

Angus bulls have their Genetic Condition status shown on their lot. Further information on Angus genetic conditions can be found on the Angus Australia website www.angusaustralia.com.au

• **Guide to Angus Suffix System**

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA

SV: the sire has been verified by DNA

DV: the dam has been verified by DNA

#: DNA verification has not been conducted

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively

BREEDPLAN EBV EXPLANATIONS

EBVs

- An animal's breeding value is its genetic merit, half of which will be passed on to its progeny. While we will never know the exact breeding value, for performance traits it is possible to make good estimates. These estimates are called Estimated Breeding Values (EBVs).

Accuracy

- Accuracy (%) is based on the amount of performance information available on the animal and its close relatives - particularly the number of progeny analysed. Accuracy is also based on the heritability of the trait and the genetic correlations with other recorded traits. Hence accuracy indicates the "confidence level" of the EBV. The higher the accuracy value the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

Traits

- Calving Ease EBVs (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.
- CE % Dir = Direct Calving Ease - The EBV for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at two years of age.
- CE % Daughters = Daughters' Calving Ease - The EBV for daughters' calving ease indicates how easily that sire's daughters will calve at two years of age.
- Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on Artificial Insemination & hand mating records. Lower (negative) Gestation Length EBVs indicate shorter gestation length & therefore easier calving & increased growth after birth.
- Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.
- 200-Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.
- 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.
- 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.
- Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.
- Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.
- Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.
- Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300 kg carcass. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher Eye Muscle Area EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower Eye Muscle Area EBVs.
- Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300 kg carcass. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.
- Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcass. Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.
- Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat (marbling) at the 12/13th rib site in a 300 kg carcass. Depending on market targets, larger more positive values are generally more favourable.

Selection Indices

- Selection indices are calculated for market specifications. Index values are reported as EBVs, in units of relative earning capacity (\$'s) for a given market. They reflect both the short-term profit generated by a sire through the sale of his progeny, and the longer-term profit generated by his daughters in a self-replacing cow herd. A selection index combines the EBVs with economic information (costs and returns) for specific market and production systems to rank animals based on relative profit values. Note that different types of animals can give similar profit values, so consideration should be given to both the index and the component EBVs when selecting animals for a particular production system. More information is available on selecting animals using a selection index. The Index values are derived using BreedObject technology. More information is available from the BreedObject web site.

IMPORTANT: EBV's are breed specific and cannot be compared across breeds. Only compare Charolais to Charolais and Angus to Angus.

TransTasman Angus Cattle Evaluation

ANGUS REFERENCE SIRES

Alpine Real Deal R163

The best Angus bull we have ever used. We purchased Real Deal for \$90,000 at the 2022 Alpine Autumn bull sale after we'd been on the lookout for a big numbered elite sire. He continues to impress us more and more every year. His sons are so easy doing, quiet and have a beautiful skin and hair type. We can honestly say Real Deal is an absolute foot improver. We eagerly await his first daughters to calve down in March.

Texas Earnan L612

We purchased a semen package in this elite sire when our good friends at DSK Angus, NSW purchased him for \$56,000 from the Texas sale. His sons have far exceeded our expectations and really are just the type we like: big hipped with muscle and growth. We have found them to be born very easy and get up and grow. We have been impressed by his progeny at DSK and is a bull we will continue to use.

Brooklana Emperor Q23

What more can you say about this bull when you look at him than wow! We were so fortunate to be able to purchase Q23 off of the Cowley Family at Roseleigh Angus in SA when they had finished with him. We originally took interest in this bull due to his dam, the \$190,000 Millah Murrah Pure M4. We only have a small set in this year's sale as he staked his foot 10 days into spring joining but we will have a large offering in next year's sale and they look great.

How to register as an AuctionsPlus user/buyer

1. To sign up to AuctionsPlus, fill in your details and create a security PIN.
2. Verify your email and phone number.
3. Follow the steps to verify your ID.
4. Enter your PIC number, ABN and business details if relevant.
5. Carefully read and accept our user rules and responsibilities.
6. Complete the user quiz.
7. Submit your request to our team.

One of the bigger power bulls of the draft. V57 is going to add some grunt to his calves. Much similar to his ET brothers he is going to add power to any cow herd.

The more moderate brother of the four, V22 has so much thickness, depth of hindquarter and muscle with a strong spine. This bull's dam, Rosebud Lass Q13, is quickly becoming one of our leading donors with 10 daughters in the herd.

A heifer's first calf who has a refined front and slick coat. His dam is a really thick-made Beast Mode daughter from one of our best cow lines, the 'Lowans'. A good heifer mating option.

IT'S A SIGN OF BETTER PRODUCTIVITY AND ANIMAL HEALTH

'Immune Ready' is a guideline for the care of sale cattle. It helps protect cattle in the preparation, transport and arrival post sale.

FOR BUYERS

- ⊕ It reduces the risk of disease in purchased cattle
- ⊕ It improves farm biosecurity
- ⊕ It improves animal health and welfare

FOR SELLERS

- ⊕ It prepares your cattle for potential disease challenges
- ⊕ It allows you to promote and sell premium cattle
- ⊕ It helps safeguard against disease and improve productivity

**Learn more about
Immune Ready Guidelines**

CHAROLAIS REFERENCE SIRES

Ascot Ramrod R104

We purchased Ramrod for \$28,000 in the 2021 Ascot Sale as our pick yearling. We really like the maternal elements of his pedigree combining Ledger and Authority. He's been such a great breeding piece for us being able to be used over a variety of types of females. His sons have been extremely popular in the bull pen and this year's sons are standouts.

Venturon Showbiz 161S

We have been so impressed with the job Showbiz has done on his first set of calves. His ET sisters- Starstruck 157S and 172S are two of our leading donor females and are breeding the house down. We are really excited with his first set of daughters that will calve down in April.

HRJ Holy Water

One of our elite imported exclusive Canadian Ai sires. A bull who really added some extra softness while keeping the frame in them. His progeny have been born small and are super docile.

SVY Mayfield 30H

We have never been as impressed with an AI sires first calves like we have Mayfield. We really loved the extension of front he's put into his calves with extra muscle shape while keeping them so soft. We will continue to heavily use Mayfield and his sons for next year's sale are looking great.

QUALITY PASTURE FERTILISERS

Boost your pastures

Quality pasture is the most cost-effective way to feed your livestock. We have the product range and knowledge to help.

Make informed decisions with NUlogic

To find out what nutrients your soil needs and to ensure the right fertiliser is used at the right rate, place, and time, we recommend NUlogic Soil and Plant Analysis.

Order today

For the full range of available products please contact your CSBP account manager or sales agent to optimise your fertiliser strategy today.

For better growth.

Born: 01/10/2024

Tattoo: VE7 24V256E

BPAF

Sire:

If you're after a bull who is backed by the best maternal line in our herd look no further. We kick off the spring-born bulls with the calf that showed on Naughty But Nice S32 at Sydney Royal Show when she won senior champion female. A homo-polled Skaggs son out of one of our best females, this bull will mature into a true sire.

SAV Charisma 3918

A black cow stands in a field of tall, golden-yellow grass. In the background, a sunset or sunrise casts a warm orange glow over a line of trees and hills. The sky above is a soft, hazy pink and blue. A large, silhouetted branch of a tree reaches across the top right of the frame.

*As the sun sets on our 2026 sale
we would like to sincerely thank
you all for supporting our program.
We wish you all the very best with
your purchases and look forward
to hearing of their progress.
Safe travels home and see you all
again in 2027.*

Thank you
Team VL
