

palgrove charolais

FEMALE SALE

Lot 70

FRIDAY 13TH MARCH 2026, 1PM | HEADINGLY SALE COMPLEX

Welcome to our 'Make Your Mark' Female Sale!

Thank you for your interest in this very special offering of Charolais females.

This sale marks a new chapter for Palgrove Charolais as the first sale under our new ownership structure. The Noller and Daley families, along with our dedicated staff are excited about the journey ahead and look forward to continuing to contribute to our great industry.

Owning this Charolais herd is something we are incredibly proud of. It comes with a strong sense of responsibility — to protect what has been built, to respect the cow families behind it, and to ensure the future is even stronger than the past. This sale reflects that mindset. The females presented here represent careful decisions, long-term thinking, and a genuine belief in where these genetics can take both our program and yours.

Access to females of this calibre are not offered lightly. These cow families and bloodlines have been built over time and proven through performance, consistency, and results. Offering them to the market is a deliberate decision and one that signals our confidence in the future of the Charolais breed and the people who choose to invest in it.

As you study the catalogue, the quality is clear — but we encourage you to look deeper. Generational depth, proven production, and the influence of leading sires run throughout these pedigrees. It's this consistency that gives us confidence these females can seamlessly add value and momentum to a wide range of breeding programs.

The cow and calf units are a standout feature, offering genuine 3-in-1 opportunities with both immediate and long-term potential. These females have been joined to leading sires, and the calves at foot give a strong indication of what lies ahead. The younger females represent an exciting opportunity, with their whole productive lives in front of them — potential donor prospects are littered throughout the catalogue.

Our show prospect heifers are a group we are particularly excited about. These females possess presence, balance, and that extra level of style that sets them apart. In this section we are giving access to some of our newest genetics including the pick of three cracking ET flush sisters and the first time we have sold progeny by the New Zealand record breaking sire Silverstream Spectra.

At the heart of this sale is a deep belief that great programs are built on great females. This offering showcases the foundation of the herd and our commitment to honouring its history while confidently shaping its future.

We are proud to present this line of females and appreciate your interest in the 'Make Your Mark' Female Sale. Please don't hesitate to contact us with any questions — we genuinely enjoy being involved in the process and sharing the excitement of seeing these females help you make your mark.

Kind regards,

Ben & Gemma

OUTSIDE AGENT REBATE:

The vendors agree to a 3% rebate to outside agents who attend the sale with, or buy on behalf of, their clients and settle within 7 days. 1% rebate to outside agents introducing approved buyers to the vendor prior to the sale and settling on their behalf within 7 days of the sale. (This clause will be strictly enforced by the vendor).

palgrovecharolais.com.au

Inspection:

Cattle are located at Ben Lomond, NSW and may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the females at a time convenient to you and bid via phone or AuctionsPlus. Please discuss your requirements with Ben, we enjoy being a part of the decision making process.

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Pregnancy Status:

Females listed in the catalogue as being preg-tested in calf (PTIC) have had a preg tested and foetal aged on the 6th of Jan. All females will be rechecked on Thursday 11th February, with an updated status confirmed on our supplementary sheet prior to sale.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a cow failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove Charolais maintains a J-Bas 7 status, so animals are free to move to anywhere in Australia. Female have been inoculated twice with 7-in-1; Pestigard and a single dose of 3 germ tick blood (unless stated). Calves have been inoculated twice with 7-in-1 and a single does of 3 germ tick blood.

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. Hourn and Bishop will be handling the delivery of sale cattle.

Delivery to major centres on route to Tamworth, Roma and Emerald. If you have any questions prior to the sale please call Ben.

Parent Verification Assurance:

PV - these lots have been DNA Parent Verified (both Sire & Dam)

SV - these lots have been DNA Sire Verified

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

Society & EBVs:

All animals in the Sale are registered with the Australian Charolais Society.

If looking up animals in the Society our Herd Prefix is PK.
eg PK22T1169

In this catalogue BREEDPLAN figures presented are from the January Charolais Group Breedplan Evaluation.

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

**Calf on Lot 17 - Palgrove Freda W857E (P)
Sire - Palgrove Red Rock (P)**

Our Approach:

With over five decades of careful selection under the guidance of the Bondfield family and David Smith, the Palgrove Charolais herd is built on proven breeding excellence—now proudly carried forward by Ben and Gemma over the past nine years.

Across generations, we have blended elite genetics from around the world to achieve the consistency, structure, and performance that define Palgrove Charolais.

While the scale of our registered herd has grown substantially since 1969, our breeding objectives have never wavered. We remain focused on driving performance through genetics to improve profitability and efficiency in beef production, without compromising customer satisfaction.

Palgrove buyers expect the very best—whether it's a single stud sire or a draft of 100 commercial bulls. Our commitment is to deliver cattle and service that consistently exceed our clients' expectations.

Our Herd:

The Palgrove herd is run across a diversified group of properties in Queensland and New South Wales, allowing us to breed and grow out our sale bulls under genuine commercial conditions.

Our breeding operations are based at Ben Lomond, NSW, and Injune, QLD, with paddock bulls backgrounded at Condamine, QLD. Annual Sale bulls are marketed alongside Palgrove Ultrablacks at the Palgrove Chinchilla, QLD selling complex each September.

This multi-property structure enables us to offer clients a reliable, year-round supply of cattle, with convenient access across several locations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove Charolais stud, raw performance data and BREEDPLAN have been central to measuring genetic improvement across the four key drivers of profitability: fertility, growth and weight gain, and carcass merit.

This disciplined, data-driven selection process has been applied for more than 50 years, resulting in Palgrove Charolais holding the largest and most comprehensive Charolais EBV database in the country.

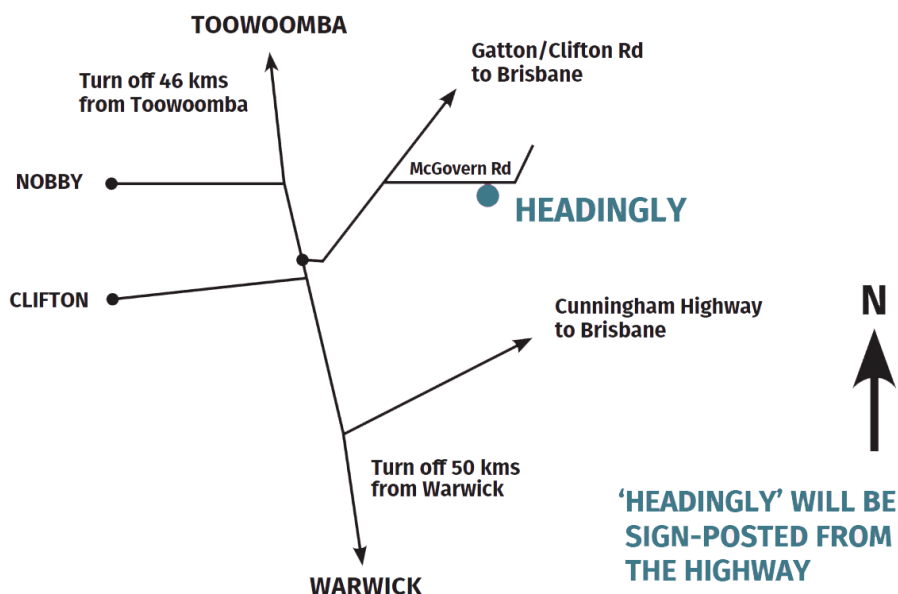

Our breeding program has always been focused on commercially relevant profit traits. However, until recent years, independently verifying the full value of Palgrove genetics—particularly eating quality and carcass dollar return—was challenging.

Over the past eight years, Palgrove Charolais-influenced cattle have been entered in the RNA Paddock to Palate competition, providing clear, independent validation of commercial performance. Palgrove genetics have consistently risen to the top, producing winning pens for weight gain, carcass performance, and eating quality.

We don't just make claims—we deliver proven, measurable commercial value.

SALE LOCATION

Headingly Sale Complex - 414 McGovern Road, Clifton, QLD 4361

SIRES OF INFLUENCE

PALGROVE RED ROCK (P) R/F

- We rate Red Rock as one of the best bulls we've produced, his first drop of females have calved and confirm that reputation. We continue to use him heavily in AI and as a walking sire in our herd.
- He's medium framed, thick butted, sound footed, with the natural balance and constitution essential in a top-end breeding bull.
- A 'middle man' in terms of performance data – no extremes, but when you have breeding consistency and structural correctness, performance data down the middle is more than acceptable.

PALGROVE ROCKERFELLA (PP)

- Rockerfella is an AI sire used heavily within our herd. He was sold in 2022 at our record-breaking sale for \$100,000.
- Homozygous polled – he's added the softness, fleshing, strength of head, and breed type we were aiming for. He's a trait leader for Weaning Weight.
- Across this draft, you'll notice the extra strength of head, bone, and overall substance in his progeny. We love his females.
- His first 20 sons sold in 2025 to average \$20,737.

SIRES OF INFLUENCE

PALGROVE U ROCK (PP) ET

Viewed as the natural successor to his sire Landmark, U Rock has been used heavily as a yearling across ET, AI and natural programs.

Homozygous polled and a Trait Leader for 200-Day Weight, U Rock sold to Clare Charolais in 2025 for \$70,000. He is crossing exceptionally well over Rockerfella and Red Rock females.

Join sire: Lots 1, 9, 10, 15, 16 & 17

Sire of calves: Lots 5 & 15

PALGROVE UNDERDOG (PP) R/F ET

A stablemate to U Rock, Underdog is by Landmark out of a top-end donor female.

The 2025 sale topper at \$75,000, he combines strong performance data with an ideal phenotype, backed by the added advantage of being **homozygous polled**.

Join sire: Lots 12 & 21

PALGROVE UNBELIEVABLE (PP)

Feature Houlio son from our 2025 sale, selling for \$65,000. A standout since yearling age, he was used in both AI and as a walking bull.

Homozygous polled with a strong head, excellent carcass traits (150cm EMA scan on sale day) and built-in constitution.

Join sire: Lots 11, 13, 20, 24, 27

Sire of calves: Lots 7, 9, 12, 13

HEMINGFORD UNDERTAKER (PP) R/F

New release sire from New Zealand, with some of the calves in utero set to be the first born in Australia. We hold exclusive Australian semen rights and look forward to seeing these calves hit the ground this spring.

An exceptionally sound, well-footed bull with strong carcass traits and the softness we aim to inject into our Charolais cattle—without compromising carcass performance.

Homozygous Polled

Join sire: Lots 2, 4, 6, 23, 25, 26

D: PALGROVE REFINE S135E

The first animal offered at auction in Palgrove Charolais new era, backed by the same uncompromising commitment to quality.

A highly proven female with the pedigree and performance to excel as a donor in any stud program. Sons have topped at \$28,000, with three sons averaging \$20,000.

Her pedigree combines leading maternal strength from MAC 2244 and the Silverstream Jilly female line with proven performance from Prime Mover, Holster and Evolution.

She offers excellent frame, volume and structure, consistently producing progeny with a fine, desirable coat type.

Homozygous polled heifer calf at foot, W1175E born 27/09/25 by Hopgood Toughen Up. PTIC to Palgrove U Rock U1248E, due 5/09/26.

D: PALGROVE LEONIE C633E (P) ET

D: PALGROVE LEONIE V295E R/F

It's rare to find this level of performance in a female with a no-miss calving record and perfect structure.

Unfortunately, her bull calf at foot (born 15/09/25) was put down due to a broken leg during joining. We have left her in the sale due to her credentials as a donor female prospect.

Justice over a Viagra daughter has blended the perfect balance, producing a robust female with plenty of volume, loads of milk and combinations of carcase and softness.

She took to the AI and will have one of the first calves born by new release sire from New Zealand Hemingford Undertake, due 25/08/26.

D: PALGROVE DIGIT F1237E

Top-shelf 3-in-1 package featuring a cracking red factor bull calf at foot by the \$55,000 Palgrove Texas Ranger, offering an opportunity for a quick return on investment as he develops into a front end sale bull or future stud sire.

Her EBVs indicate positive calving ease, early growth, and proven efficiency through a moderate mature cow weight.

Holster over a Gridmaker daughter — Gridmaker females are consistently medium-framed with excellent udder structure, yet reliably produce punchy bulls that feature in our Annual Bull Sale.

PTIC to a natural join of 2 carefully selected sons of the \$100,000 Palgrove Rockerfella, Palgrove Vantage V1363 and Palgrove Veikko V1364.

Homozygous polled bull calf at foot, W754E born 3/09/25 by Texas Ranger T1232E, who sold for \$55,000.

Whichever line you follow through this pedigree, you encounter true Charolais royalty — Holster, Legacy, Benchmark, Charm, Hallmark and Courage, underpinned by two of our most renowned foundation female lines, Estella and Panache.

Her EBVs indicate strong early growth with a moderate mature cow weight, combined with high positive Yield, EMA and Carcase Weight.

Sells with a solid bull calf at foot, W894E (born 12/09/25), sired by AI sire Palgrove Torpedo, who sold for \$45,000, and is pregnancy tested back in calf to U Rock.

A perfect udder supports a stacked pedigree, data points to top-end growth, carcase and yield traits — ideal for breeders looking to add real carcase and yield to their program.

What a pedigree: five of the six females are donors, and the sire line blends some of last decades most influential sires — Jericho, Masterpiece, Evolution and Hallmark.

A phenomenal data set, ranking in the top 5% for six key traits, including all Growth EBVs, Carcase Weight, Yield and EMA. Her Terminal Index sits in the top 1%.

She sells with a homozygous polled bull calf at foot, W1208E, born 29/09/25, sired by Black Duck Ultimate Warrior, and is PTIC to Hemingford Undertaker, a mating that will complement her phenotype and performance data perfectly.

Her sire Prophet, sold for \$36,000 in 2020 and was used extensively across our AI programs to moderate calving ease while injecting a sleek skin into the herd.

Fertility is well proven on the maternal side, with the granddam recording 9 calves in 9 years and an impressive DCI of 369.

Her EBVs indicate positive calving ease (all ranking above the top 25%), along with positive Fat Cover.

She sells with a heifer calf at foot, W1100E, born 23/09/25, sired by Uncle Ned U1843E (Rockerfella son), and is PTIC to our new release homozygous polled New Zealand sire, Hemingford Undertaker.

PICK OF 3 FULL FLUSH HEIFERS

PK25W83E, PK25W44E, PK25W53E (Pick of 3 flush sisters)

True to our word, when we release females of this calibre it's a genuine opportunity to secure the very best our program has to offer — something we don't do more than twice in a decade.

These three full flush sisters, all from one of our elite donor females, represent a rare chance for new or established stud breeders to invest in a future donor female with enormous upside.

We couldn't split them, so the choice is yours — and what a statement they would make at the World Congress in Brisbane this August.

They are out of a proven donor female and sired by Rockerfella, who sold to the Ascot Stud for \$100,000 in 2022. His first sons featured in last year's sale, with 20 sons selling to average \$20,737, underlining the consistency and demand for this sire line.

They also have a full flush brother from the same program who is something truly special. If we don't retain him, he will feature as a highlight bull in the yearling section of our September sale.

Their dam has an outstanding production record, with 20 recorded progeny before the age of five, returning over \$100,000 in her first year of sales from just five progeny. This included Ultrahot, who sold to Futurity Charolais for \$40,000, and another daughter who sold to Black Duck Charolais for \$18,000 as a 10-month-old heifer, who has since entered their donor program. The granddam is also a prominent donor with progeny reaching \$36,000.

A further first-calf Landmark daughter retained in our herd and full sister to Ultrahot (\$40,000) was flushed this year, producing 14 eggs, reinforcing the exceptional fertility and consistency of this female line.

You take the choice — and **'Make your Mark'** on the Charolais breed.

PICK OF THE PAIR

Pick of the pair, and the first opportunity to secure Silverstream Spectra progeny at auction. His sons are something special, and we can't wait to showcase them at our Annual Sale on the 11th of September.

We selected Spectra from the Silverstream sale in 2023 securing the Australian Semen rights, at this sale he set a New Zealand top-price record, selling for \$65,000. Our search was for a homozygous bull that didn't compromise on structural correctness, bone or weight for age. Used over our more moderate framed, thicker set maternal lines, Spectra has delivered exactly what we hoped for, an exceptional balance, performance and consistency with a little more punch and lift in his cattle. He is a Trait Leader for all growth traits and Scrotal Size.

This joining philosophy is evident in these heifers combining with Heritage (sire of Landmark) and Hombre daughters to produce future donor prospects. Both dams are proven females with the dam of Rita W338 also parenting True Blue that was used in our AI programs and the Flare W368 has a maternal sister by Red Rock selling at Lot 64 in this sale.

Homozygous Polled.

PICK OF THE PAIR

PKW179E, PKW138E (Pick of the pair – Rockerfella daughters)

Pick of the pair — both sired by Rockerfella, who sold to Ascot Stud for \$100,000 in 2022. His first sons featured in last year's sale, with 20 sons selling to average \$20,737, highlighting the consistency, demand and commercial confidence behind this sire line.

The first of the Rockerfella daughters calved last spring and are already impressing with their udder quality. We love the way he has added depth of body and fleshing to our program, a strength that traces back to his sire Next Gen — also the sire of Red Rock. When you study any elite breeding program, there are always influential sires that leave a lasting mark, and we firmly believe Rockerfella and Red Rock will be two bulls we'll be talking about for a long time to come.

Rockerfella is a Trait Leader for Weaning Weight, ranking in the top 4% of the breed for Fat Cover and the top 15% for Scrotal Size, reinforcing both performance and fertility credentials.

An outstanding opportunity to take your pick of two elite young heifers and invest with confidence in a proven and influential sire line.

'Make your mark' in the catalogue and take your pick.

Every branch of this pedigree is anchored by a standout breeding bull, delivering the consistency Palgrove Charolais cattle are renowned for. Next Gen, Holster, Bond, Charm and Red Rock headline a powerhouse lineage.

Her dam is a proven producer; 7 calves in 7 years, with sons selling to \$28,000.

Importantly, none of these females have been retained—this offering represents the very best of our Autumn program. An outstanding opportunity to make your mark and significantly strengthen your herd with genuine top-end genetics.

Homozygous Polled.

 D: PALGROVE F1079B

Her sire, Quidmaker, sold for \$60,000 in 2021 and was used extensively in our AI program. Following his first progeny, he has prove to be a super short-gestation, calving ease sire, now ranking in the top 1% for Gestation Length, while also sitting in the top 10% for EMA and IMF.

Her performance data reflects her sire, while adding maternal strength from Paringa Mantra on the bottom side. All calving ease data is positive, with Weaning Weight and EMA in the top 10%.

An efficient, easy-doing female—moderate framed with a sensible mature cow weight.

PTIC to homozygous polled Palgrove Ultradry. Due 28/08/26.

Houlio over a Heritage daughter presents a strong maternal package, while still offering the power and scope to breed front-end, punchy bulls.

Houlio sons reached \$65,000 at last year's Annual Sale, including Unbelievable, a proven join sire and the sire of calves at foot in the cow section of this sale.

Phenotypically, she is a well-balanced, deep-bodied female with good volume and width, combining femininity with the strength and presence to back her breeding credentials.

PTIC to homozygous polled Palgrove Ultradry. Due 23/07/26.

Lift your sights on this ET heifer, selected from the top end of our herd and destined to become a future matron.

Her dam is an elite donor female with 24 recorded progeny, including sons topping at \$90,000 for Spectacular, sold to Rosedale Charolais. She is also the dam of Lot 16 and 67 in this sale.

A genuine opportunity to 'make your mark' and invest in genetics that commercial cattlemen continue to back.

PTIC to Ascot Upbeat, equal top-priced bull at the 2025 sale, with semen rights sold to Hemingford and Twin Rivers (NZ). Due 15/08/26.

S: SILVERSTREAM EVOLUTION (P)

D: PALGROVE INTRIGUE L851E (P)

D: PALGROVE INTRIGUE C732E (ET)

Only two Red Rock daughters left to sell! Her pedigree blends Windfall and Evolution on the bottom side with Holster, Bluegrass, and Next Gen on top—all proven sires that ensure she will breed on and perform.

Her dam is a very consistent producer, with sons topping at \$64,000 and four sons averaging \$28,750, demonstrating the depth and reliability of this female line.

PTIC to Ascot Upbeat, equal top-priced bull at the 2025 sale, with semen rights sold to Hemingford and Twin Rivers (NZ). Due 14/08/26.

Her sire Paringa Harvey was used over heifers for his calving ease while also injecting strong maternal traits including Milk, Fat Cover, and IMF. Harvey is a Trait Leader for low Birth Weight and Milk, and ranks in the top 1% for IMF.

Her performance data screams efficiency; positive for all calving ease traits, with positive growth, moderate mature cow weight, Milk in the top 10%, and IMF in the top 1%.

She is a maternal sister to Lot 41 in this sale.

PTIC to homozygous polled Palgrove Ultradry. Due 02/09/26.

The last Rockerfella daughter to be offered—he sold for \$100,000 in 2022, and his first 20 sons sold in 2025 to average \$20,737.

She combines the strength of Rockerfella with proven older genetics from Windfall and Zephlin. Her dam is a donor and has produced two sons selling for \$24,000 and \$23,000, along with a daughter that sold for \$12,000.

Phenotypically, she is a long-bodied, deep, and well-muscled with a strong topline.

PTIC to homozygous polled Palgrove Ultradry. Due 02/09/26.

Well Landmark has stood the test of time—while we sold Landmark females in our 2021 female sale, he still produced the two top-priced bulls in our 2025 sale at \$70,000 and \$75,000.

Breeding consistency is assured by combining Landmark over a Bond daughter from the Panache female line.

Her doing ability is confirmed with Fat Cover in the top 15% and IMF in the top 1%.

PTIC to Ascot Upbeat, equal top-priced bull at the 2025 sale, with semen rights sold to Hemingford and Twin Rivers (NZ). Due 14/08/26.

We wish everyone a safe trip home.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

(a) Refuse to acknowledge any bid;

(b) Withdraw any lot or lots before or during the sale;

(c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the

sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

ACCURACY

Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may occur. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

BREEDPLAN

Breedplan data is reviewed on a monthly basis and may vary from printing to sale day. Changes to data may occur and alter significantly without notification. We have no control over changes made to ABRI. EBV's used in this catalogue were from the January 2026 evaluation.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion, TSU's are easy to use and yield excellent lab results.

TSU's can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and it's identification.
