SALE LOT INFORMATION

All lots will be sold on a \$ per embryo/per straw basis.

LOCATION & SHIPPING

Storage locations of semen and embryos outlined in each individual lot comments. Majority of the embryos and semen are currently stored in Australia and are ready for immediate dispatch. Imported embryos and the Hereford semen are currently stored in Canada/USA and will be shipped to Holbrook Breeders, Australia in April/May 2026 at the sellers expense. All domestic shipping is the responsibility of the buyer.

EMBRYO GUARANTEES

On all embryos sold through this sale, we guarantee 90 day pregnancies if implanted by an accredited veterinarian within 12 months of sale date.

2-3 embryos - guarantee one 90 day pregnancy

4 embryos - guarantee two 90 day pregnancies

SEXED FEMALE EMBRYOS

These embryos have been sexed for females with a 90-95% accuracy.

Welcome

FROM TARGET LIVESTOCK & MARKETING

Welcome to the inaugural **Frozen Futures Genetic Sale!** We are incredibly excited to bring a completely unique and new opportunity to the Australian beef cattle industry by offering some of the very best genetics from Canada and North America through our online genetic sale. Bringing this sale to life has been a dream in our minds for the past few years. As many of you know, our passion for quality genetics has been the driving force behind our breeding program, the programs we work with and our relationships across the globe. In this sale you can expect to find opportunities to access exclusive new sires, limited semen and embryos from elite pedigrees never before been available in Australia.

The Angus breed is where our heart lies, but even more so, our biggest appreciation rests with good quality livestock regardless of breed or hide colour. This is why we are thrilled to be expanding our offering with a taste into some new breeds including Simmentals, Red Angus and Herefords! Each and every animal in this sale is listed for a reason, we believe 110% in the success of their breeding, progeny and the programs they come from. With the primary focus of being fundamentally correct, bred for real world performance, fertility, functionality and most importantly backed by maternally potent mother cows, you can be assured these cattle are worth looking into.

Throughout our travels we have mainly focused on sourcing elite outcross Angus genetics that come from generations of proven pedigrees. With a beef industry filled with quality Angus cattle, we wanted to differentiate ourselves in the market, finding unique genetics and proven pedigrees that didn't exist in Australia yet became our goal. In our pursuit for the type of cattle that are genuine, honest and reliable, we found that these cattle are bred by people that epitomise those very same traits. This year, 2026 officially marks 10 years since our very first trip to North America and what an incredible decade of travel it has been over these years. We simply cannot even come close to expressing our gratitude and appreciation for all of the unbelievable people, quality cattle and breeding programs we have visited with, purchased genetics from and built lifelong friendships with across North America. Without these connections, their knowledge shared and opportunities given to us, we wouldn't be where we are today both personally and professionally.

We are extremely proud and honoured to present this sale to you with the support of some of the industry's best breeders from across the globe. We want to sincerely thank Hamilton Farms Inc, Canadian Sires & Donors, Miller Wilson Angus, Greenwood Cattle, Bar E-L Angus, Duralta Farms Inc, MJT Cattle Company & Timor Creek Angus for their support and allowing us the opportunity to promote these genetics to Australia.

Australia has never before seen a sale like this one and we look forward to continuing to build on our connections with breeders and the growth of future sales! We sincerely appreciate your interest and we look forward to sharing these genetics with you and seeing their impact for years to come.

Best regards,
Monique & Corey McKinnon

3 x EMBRYOS sired by HF PROSTAR 97L

Well we promised we would offer quality and if you know us, you know how much we think of this young cow. Here is a female that is truly unique to the Australian Angus industry. You would be hard pressed to find a two year old to be this fancy with the amount of rib and volume that Target Beauty U6 presents, and even so to find a female backed with this kind of maternal strength. If you're like us and love pedigrees this is the lot for you. Dive through U6's bloodlines and you will find she is a double cross of TLA Beauty 6R (full sister to TLA Beauty 5R, mother of Soo Line Motive 9016). Start to note some names in her pedigree and you will find Canadian Angus royalty in bulls such as HF Kodiak 5R, Bar E-L Natural Law 52Y and USA bull S A V Renovation 6822. Beauty U6's maternal grand dam being the renowned Brooking Beauty 333 who has made over \$1.1 million in revenue with U6's dam, Brooking Beauty 8187, forecasted to follow suit. This is a female that boasts unparalleled mass and a stunning, attractive look! Intentionally mated to HF Prostar 97L for his sheer performance and muscularity, this is a mating that will have you counting down the days until calving!

4 x EMBRYOS sired by HF HI-COUNTRY 7L **CONSIGNED BY TIMOR CREEK ANGUS**

We are excited to have a lot consigned from Timor Creek Angus, a program that has been built from fully imported genetics from some of the very best programs across North America. If you are in the Angus breed, we guarantee that you have heard of the world renowned Coleman Angus program. Timor Creek Beauty V13 is the result of a full Coleman bred embryo purchased from Canadian Sires & Donors. Out of Coleman Beauty 048, a truly elite daughter of TLA Beauty 5R (mother of Soo Line Motive 9016) and sired by Coleman Glacier 041 who was the lot 1 bull from the 2022 Coleman Angus Bull Sale that commanded a record breaking \$270,000 USD for a 25% share. Glacier stems from a very productive pathfinder dam, none other than Coleman Donna 439. Timor Creek Beauty V13 is stacked with generations of proven maternal lineage, packing some of the biggest household names from the Coleman program. V13 herself is incredibly well balanced, long bodied and elegant fronted, mate her to HF Hi-Country 7L and you've got a package that is bound to produce eye-catching progeny that ooze quality, maternal strength and performance.

Erica 74A

Grand Dam of Blairswest Erica 8H

4 x EMBRYOS sired by BROOKING TW 4022

Where do we start on this lot... What an opportunity! We are thrilled to have Canadian Sires + Donors consign two truly elite Angus embryo packages in this sale as a guest vendor! Blairswest Erica 8H ties together two absolute powerhouse lines, the world renowned Bar E-L Erica 74A, who is regarded as one of the most prepotent Angus females in modern times, and the highly productive Socialite cow family from Merit Cattle Co. That combination has resulted in a tremendous bodied, big middled, powerful yet feminine female, Erica 8H. The Erica cow family needs no introduction, they are unmatched for maternal strength, udder quality and consistently producing knock-out progeny. Not only does this package of embryos represent direct access to the Erica cow line, it presents an opportunity to introduce some of the first progeny in Australia by the \$270,000 CAD high selling Brooking TW 4022. This young sire has a truly commanding phenotype and proven genetics, sired by the Argentina bred bull, Hummel South America (owned by Coleman Angus) and out of the famous Brooking Countess female line. Proven pedigree power doesn't get much better than this!

Tibbie 216'15

Dam of KT Tibbie 2410

3 x EMBRYOS sired by BROOKING TW 4022

Another big time Angus embryo lot offered by Canadian Sires + Donors. KT Tibbie 2410 is a past Angus Collection Sale high selling female and has since developed into a fault free donor female with great feet, so much length and a very good udder. It doesn't take long to see why, do some research into her pedigree and you don't have to go far to find exceptional females. Her dam, PM Tibbie 216'15 is regarded as one of the most impressive donors in the CS+D pastures. She presents with an ideal Angus phenotype, awesome udder, strong foot, elegant front end and so much rib shape and natural thickness. She is the type of female to build around and her daughter KT Tibbie 2410 is a great way to access the next generation of this female. These embryos will also be some of the first progeny in Australia by the \$270,000 CAD high selling Brooking TW 4022. This young sire has a truly commanding phenotype and proven genetics, sired by the Argentina bred bull, Hummel South America (owned by Coleman Angus) and out of the famous Brooking Countess female line. Another proven pedigree opportunity to not pass by!

2 x SEXED FEMALE EMBRYOS sired by CROSSROAD ULTIMATE 74M CONSIGNED BY CANADIAN SIRES + DONORS

Introducing the first of our Simmental lots, Canadian Sires + Donors pulled out some of their very best red Simmental lines for this sale and what makes these lots even more valuable is they are sexed female embryos! If you know anything about the Canadian Simmental world, you are bound to recognise the Sage/Red Sage cow family! KT Sage 4132 comes from a long line of predictable donor females. Her dam, SVS Red Sage 49J was crowned the National Champion Simmental Female at Farmfair 2024, she is admired by astute cattlemen from around the world and it's easy to see why. Her dam, WFL Red Sage 506C (grand dam of 4132) is the epitome of what a red Simmental donor should look like. Picture perfect udder, massive body and overwhelming power, couple this with a production record of surpassing \$1 million in revenue generated and this is a sure bet opportunity to access a truly elite pedigree! The sire of these embryos, Crossroad Ultimate 74M brought \$110,000 when he hit the sale ring for his dark red colour, foot quality and stellar EPD spread offering both calving ease and strong performance. You won't want to miss these!

HLTS Sammie

Dam of C-D Sammie 3171

2 x SEXED FEMALE EMBRYOS sired by MRL COOL HAND LUKE 113M CONSIGNED BY CANADIAN SIRES + DONORS

The second package offered in the red Simmental division from Canadian Sires + Donors, and another invaluable opportunity to access sexed female embryos. C-D Sammie 3171 is a female that is striking from any angle, a standout since birth, she is wide based, smooth made and uniquely combines power and elegance into one package. It is easy to see why she brought a \$66,000 CAD valuation as a heifer when she went to auction. Her dam, HLTS Sammie has been a big time producer for Canadian Sires + Donors and their customers with other standout daughters commanding \$92,500, \$46,000 and \$40,000, not to mention the amount of sons that have been sold for +\$20,000 consistently. Donor cows like HLTS Sammie are hard to come by and her daughter C-D Sammie 3171 will be no exception as a donor too. The sire of this embryo package is MRL Cool Hand Luke 113M, a bull that sold for \$175,000 CAD and is widely admired in the Simmental world. He is as structurally sound as you can make one, free moving, masculine, huge topped and massive hipped. Noted by Canadian Sires as one of the most complete and balanced herd bulls they have ever laid eyes on!

\$85,000 Maternal Sister to SBV Mondano 518L

3 x SEXED FEMALE EMBRYOS sired by SBV MODANO 518L

CONSIGNED BY CANADIAN SIRES + DONORS

This is a unique opportunity Canadian Sires + Donors have offered, it's certainly not every day that you come across a chance to acquire outcross pedigrees in the Fullblood Simmental market in Australia and especially not through sexed female embryos! MAVV Jacey 151J has developed into a model Fullblood donor female, structurally sound, strong footed, beautifully uddered and so easy doing, it's easy to see why she's proving herself to be a great breeder. She is a horned female, mated to SBV Modano 518L who is a polled bull. You know what they say about horned cattle, you need to have a dash of horn in the pedigree to breed power and shape! SBV Modano 518L is the \$170,000 feature polled Fullblood bull of the spring of 2024 that created so much interest for his heavy muscled phenotype, dark red colour with ideal pigmentation and awesome foot. His dam's full sister made \$60,000 and then produced a \$70,000 daughter. His dam's daughter commanded \$85,000 and is one of the very best Fullblood females ever offered in Canada. Modano is a special breeding piece that will leave a long lasting impression on the Fullblood industry.

LOTS 9-19

HF *Hi-Country*_{7L}

The ONLY SEMEN offered this BREEDING SEASON!

120 x straws of HF HI-COUNTRY 7L

Here is the \$185,000 CAD high seller, HF Hi-Country 7L with our official first Australian release of semen. A bull that is truly making waves and a big time impact on his progeny in North America. 7L is the epitome of what Angus breeders strive to produce - large outline, expansive heart girth, stout featured, masculine sire who is big scrotaled! He's an ultra big hiped, bold ribbed bull with a wide base and sits on four perfect large feet. In person, he is a bull you'd be hard pressed to find a fault in, and on paper, he boasts an attractive set of EBVs. A safe bet heifer bull packed with growth and out of a mother cow who has quickly proven herself to be a hugely influential female. HF Hi-Country 7L's first progeny are outstanding and command the attention of the most astute buyers. His first son made a record breaking price of \$117,500 for a 9 month old bull calf. Recently selling other sons for \$120,000 for 2/3 share, \$110,000 and \$100,000 USD at Sitz Angus Ranch. 12 sons of Hi-Country earned top 10 sale prices and his 31 yearling sons averaged \$31,177. Needless to say Hi-Country is a bull that is reshaping the Angus industry!

HF Prostar_{97L}

The ONLY SEMEN offered this BREEDING SEASON!

50 x straws of HF PROSTAR 97L

Here is something fresh, new and bound to capture attention! Introducing HF Prostar 97L to our genetic sale line up! An exclusive new sire to be offered into the Australian market and one we believe is built to move the needle on performance, muscle and natural power! HF Prostar 97L was the second high selling bull in the 2024 Hamilton Farms Inc. Bull Sale and began producing high quality semen for domestic and EU markets at 11 months of age! A truly unique individual that is hard to find another like, he is massive middled, big backed, sound made with a rounded muscle shape and a high quality mother cow backing him. The consistency and quality of his first calf crop in North America is outstanding with numerous progeny set to lead off sales in multiple programs across Canada this selling season! With only a very limited quantity of semen to be released in Australia, this is your chance to secure HF Prostar 97L for your breeding program this Autumn joining season.

MERIT
Investment 1054J

The LAST SEMEN available in AUSTRALIA!

40 x straws of MERIT INVESTMENT 1054J

Merit Investment is a bull that speaks volumes through his progeny and has only grown more and more in popularity every calving season! A true breeding bull that improves feet, adds depth of rib, easy fleshing ability and a powerful maternal lineage. Merit Investment is best known for breaking records, his standout son, LT Marquee 169L sold for a record \$700,000 USD for half interest, valuing the bull at \$1.4 million! Most recently, he sired the record breaking highest dollar value bred heifer of any breed in Canada, with his daughter bringing \$155,000 CAD. Records aside, Investment is a bull we fell in love with well before his progeny hit the sale rings. His sheer power while still being attractive, foot quality and outstanding pedigree are what drew us to this bull. Once we saw his dam, Merit Flora 6078, we knew this was a bull we had to add. His mother is one of our all time favourite Angus females that we have seen on our travels. She is what we believe to be the ideal Angus female, check out her pictures, research her progeny and decide for yourself!

GREENWOOD *Four Mile* 47J

**The NEW
BULL
on the
BLOCK!**

60 x straws of GREENWOOD FOUR MILE 47J

Here is the newest bull to the Target Livestock sire line up! Greenwood Four Mile 47J is a bull we have watched closely since first seeing him at Agribition in 2023 where he was crowned Grand Champion Angus Bull at under 2 years old. Since then, he has gone on to sire exceptional progeny each year. The consistency of quality in his calves is hard to find. Four Mile's maternal sister is the reigning 2025 Canadian National Champion Angus Female and one of his most renowned sons, Ter-Ron Eldorado 185L enjoyed a dominant fall run being a two time Supreme Champion and Reserve Canadian National Champion Angus Bull. Four Mile has proven time and time again through his progeny to be a predictable breeder and a heifer safe option. Four Mile himself comes from one of the most prepotent Angus cows in Canada, RRD Tibbie 28Z, a female that has produced high seller after high seller! If you're looking to add performance, muscle mass, exceptional feet and calving ease through an outcross sire option, Greenwood Four Mile 47J is the bull for you!

RED DMM

Rumble 74J

**An OUTCROSS
RED ANGUS
new to
AUSTRALIA!**

20 x straws of RED DMM RUMBLE 74J

If Red Angus cattle interest you, this is a chance to access a new and exclusive outcross sire that is bound to add growth, performance, foot quality, length of body and muscularity. This is a bull who has had a truly exceptional career both in the show ring and the breeding pasture! Four time Grand Champion bull in 2022 as a yearling at Stockade Round-up, Olds Fall Classic, Farmfair International and Agribition. Follow this up with more Champion and division Champion titles as a two year old the following year, and you'll be hard pressed to find a more decorated Red Angus bull. This is a testament to the true quality of this bull, he has incredible structural integrity, so much natural fleshing ability and real sire appeal. Both his sons and daughters carry these very same qualities that elevate them consistently to the top of the sale pen and show ring. Finding cattle that perform in both areas so consistently is something to be admired!

CCD Kingsman 3K ET

**The 2024
HEREFORD
CHAMPION
of the
WORLD!**

35 x straws of CCD KINGSMAN 3K ET

An opportunity for our Hereford breeders to get excited about! We are honoured to introduce to the Australian market, CCD Kingsman 3K ET with semen from this high quality individual consigned by MJT Cattle Company. Rarely is it that you find a bull of any breed that has mass, muscle, and performance while retaining structure and athleticism like this gentle giant does. CCD Kingsman had a very successful show career down in the USA before heading to his new home at MJT in Canada, here he went on to continue the show ring success and was crowned the 2024 National Grand Champion Hereford Bull at Agribition, then soon after taking the prestigious title of Hereford Champion of the World for 2024. He comes with a very impressive set of growth EPD's making him as attractive on paper as in the flesh. His first calf crop has hit the ground running and has generated very positive reviews with his sons and daughters demonstrating the performance and maternal quality his owners had hoped for.

SUPPORTING AUSTRALIA'S NEXT GENERATION

While pursuing quality genetics and breeding cattle is our passion, what really sets our hearts on fire is supporting the next generation of young people in the beef cattle industry. Without incredible mentors and people who believed in us, we simply wouldn't be where we are today so at every chance, we find a way to give back and support passionate young people, upcoming and future breeders.

YOUTH DISCOUNT ON EMBRYO PACKAGES

We would like to offer a 5% discount to any registered junior member who purchases an embryo package in our sale. Junior members must be registered prior to the sale with the relevant breed society or association of the embryos purchased.

AuctionsPlus

How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select "Sign Up" in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select "Dashboard" and then select "Request Approval to Buy".
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.
