Australia's Livestock Marketplace

Welcome to our 27th Annual On-Property Bull Sale!

What a bizarre start to the 2026 season.

After a record harvest in November 2025 and completely missing the summer storms, we found ourselves facing an exceptionally dry start to autumn. As conditions deteriorated, we were forced to wean early and begin hand-feeding all livestock.

We endured the driest seven-month period on record, but thankfully the forecasts from the Bureau of Meteorology didn't quite play out as predicted. The dire outlook for a prolonged dry spell was overturned by one of the wettest May-June periods we've experienced.

We're hopeful that by the end of June, handfeeding can come to an end, and life can return to some sense of normality.

The outlook for the beef industry remains extremely positive, with record export volumes and long-term forecasts suggesting feeder steer and cow prices could approach all-time highs.

We are excited about the genetics on offer in this year's sale catalogue, featuring leading sires including Knowla So Right, Dulverton Smart Missile, Allendale True Blue and Circle 8 Shenanigans.

The sale will also showcase several outstanding home-bred sires, including Booragul Prime Minister, Booragul Quinella, and grandsons of Landfall New Ground, all of which demonstrate the ongoing strength of our breeding program.

A key highlight of this year's offering is the depth and quality of the genetic combinations available. Several sires are delivering exceptional intramuscular fat (IMF) while maintaining strong growth, carcass weight and overall production traits.

Buyers will also have access to an impressive selection of calving ease sires, ideally suited to both heifer joining's and mature cow programs, offering flexibility without compromising performance.

PREPARATION

This year's sale team have presented some difficulties, having very little paddock feed to assist with preparation. We have not used any self-feeders, instead bulls have been fed in small groups daily with Oaten hay and a Ridley stock feed ration designed to allow their muscle and growth development without over fattening. From mid-June the bulls have been able to enjoy some green pick.

DATA COLLECTION

The Booragul program has a strong focus to keep at the forefront of innovative technologies that offer increased accuracy of data to remove all the guess work when it comes to sire selection. All progenies born at Booragul are Genomic tested, DNA tested, raw data scanned and assessed on docility. Most importantly we are constantly assessing progeny for performance and structure from birth to sale to offer a sale team that is solidly backed by performance along with our pedigree selections. When we select our sires, we will not consider one that hasn't had genomics and raw data information submitted.

HEIFER BULL SELECTION

You will note throughout the catalogue I refer in the comments of bulls suitable for heifers. It has always been a policy of ours to select bulls for our heifers that would also be used over our general cow herd. When selecting a heifer bull, birth weight is one of many factors we consider. I believe other equally important factors are calving ease, gestation length, pedigree and confirmation. Considering these traits, it doesn't bother us to use bulls with a birth weight above breed average, providing the heifers are well grown and nutritionally managed from joining to calving.

PINK EYE

You will notice a few bulls carrying old pink eye scars. I have rigorously inspected and worked every bull to ensure strong vision before being entered for sale. If you have any concerns regards this, please feel free to talk to me.

PHOTOS AND VIDEO

Photos and videos were taken early June. We have taken photos and videos of all bulls which are available on our website and AuctionsPlus. If you would like any further images of any particular lots, please contact me.

SALE INFORMATION

ALTERNATE BUYING OPTIONS

If you do not wish to attend but still want to bid, the following methods are available:

1. Auctions Plus- please ensure your registration is completed prior to the sale.
 2. Engage your local agent to bid on your behalf
 3. Contact the selling agents Elders, Hamilton Mortimer, Pitman Deakin, to take advantage of phone bidding.
- Refer to front page of catalogue for all contact details.

PRE-SALE REGISTRATION

Pre-Sale Registration is available on our website or by contacting your agent.

REBATE/GST

2% rebate to outside agents introducing buyers in writing 24 hours prior to the sale, attending on sale day and settling account within 7 days. Prices for lots sold will be GST exclusive at the fall of the hammer and 10% will be added at time of invoice.

HEALTH

All bulls have received vaccinations for Vibrio, 7 in 1, Pestivirus, Rhinogard IBR and Bovi-Shield MH-One with boosters due Autumn 2027. They have also been treated with Cydectin Platinum mid-June. All bulls have been tested free of Pestivirus. Booragul Angus Stud is in a Bovine Johne's Disease protected clean area.

FERTILITY

All bulls have passed a Veterinary Breeding Soundness Evaluation done by Dr Rhys Duncan Piper Street Veterinary Clinic on 18/5/26, with individual certificates available. This included a crush side semen test, scrotal measurement and palpation and a full physical and reproductive evaluation.

INSURANCE

There is no vendor insurance on the bulls. It is the responsibility of the purchaser to insure their bulls. We will have information available on sale day to offer immediate cover.

INSPECTION

We are treating every day as an inspection day please feel free to contact myself or your agent to arrange a suitable time. We are also holding an Open Day on Thursday 25th June.

DELIVERY

We are offering delivery to the following saleyards, as well as to other saleyards located along the route: Roma, Toowoomba, Dubbo, Singleton. Please feel free to give me a call to discuss delivery arrangements further.

CATERING

Catering will be provided.

AIR STRIP

A sealed air strip is available 1km from our sale location "Downfield". Should you wish to use this please contact the vendor.

L-R: Hayden, Amy, Margaret & Tim Vincent

REFERENCE SIRES

Knowla So Right

With great pleasure we are able to offer 10 sons of So Right in our 2026 sale. We selected him as a joining sire mainly over our Prime Minister daughter's which has been a highly successful combination. His progeny show a lot of maternal strength backed by superior carcase.

Dulverton Smart Missile

We introduced Missile to our program because of his excellent calving ease to growth ratio. This year's progeny have high docility, high Net Feed Efficiency and positive IMF. We have 8 son's of Missile on offer with most being suitable for heifer matings.

Landfall New Ground R1496

One of the greatest all round sires we are currently using. He has the ability to give an extremely even line of progeny regardless of the cow type. Many of his progeny are of light birth, breed average growth with excellent fat coverage and high IMF. He has 6 sons in our 2026 sale.

Allendale True Blue

We are excited to be able to offer some of True Blue's first ever son's in our 2026 sale. His progeny are highly impressive, starting from excellent calving ease to high growth. They exhibit strong carcase data with high IMF. Lots 38 and 40 come with our highest recommendations.

Circle 8 Shenanigans

We decided to use Shenanigans as we were chasing a strong data son of Paratrooper. His dam N117 needs no introduction as she was a one of the great matriarchs of the Circle 8 herd. His progeny has excellent shape, good docility and high milk. He has 4 sons in our 2026 sale.

A FULL LISTING OF ALL REFERENCE SIRES AND PHOTOS is available on our website.

New Ground R1496

Knowla So Right

Dulverton Smart Missile S68

SALE DAY SAFETY

• PLEASE READ •

Visitors enter pens at their own risk. Children under 16 are not permitted to enter pens.

At Booragul all care is taken to ensure livestock pose minimum threat to our clients, our staff and us. However, we cannot predict nor guarantee their behaviour.

All the Sale bulls have been assessed for temperament and are quiet to handle under normal circumstances.

Unfortunately sale day places abnormal pressure on bulls as they are not used to having a crowd of people around them, and so the behaviour of even the quietest bull can be unpredictable. With this in mind, we please ask that while inspecting the sale bulls you treat them with respect and don't over crowd them.

Bulls may also fight in the pens and at these times they are oblivious to people who may be in the way.

Notes: Another So Right/ Prime Minister young sire. V108 was selected and used heavily through a very tough joining last Spring and Summer, this is evident in his lighter condition at this stage. He has always been one of the standouts from weaning and continues to impress. He has the unique combination of high growth, CWT and EMA along with +ve fat and top 5% IMF. Certainly a young sire not to be overlooked.

VITAMINS &
MINERALS

Transform your bulls into champions with **Barastoc Grow & Show**. Our feed is meticulously crafted with a blend of essential nutrients, minerals, and vitamins—each chosen to naturally enhance your stud cattle's health and presentation whilst prioritising their pasture-fed credentials. It's designed to support gradual, healthy gains, reducing the risk of fertility and hoof issues, offering a helping hand to present your bulls at their best.

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350
