Welcome!

Welcome to our 18th Spring Sale. We look forward to catching up with you all and showcasing our 2026 offering of high performance bulls with terrific genetics.

We have cut our numbers back this year, in line with lower cow numbers in the New England and Northern NSW, due to the drought.

On a positive note, cattle prices continue to be buoyant and the market certainly looks very good going forward.

This group of bulls are a very proud bunch, packed full of the best genetics we can find. We continue to strive for more carcase and IMF, which is clearly outlined in our EBV data!

Going forward we will continue the balancing act of trying to get our data better, however, we will never compromise on our type !! We like bigger cattle, built right, with carcase!!

Team Truro at 2026 Sydney Royal show
• Best Hereford Exhibit •

The search for new genetics is a continuous roller coaster. Last year we went to America and Canada and visited nine studs and had an amazing adventure. We found some great cattle and met some great people. We will continue to search worldwide for fresh new genetics!

Hope your season has improved and is now good, wherever you are.

All the best in Herefords

Cheers,

Team Truro
