Welcome to Leawood Angus

A SEASON TO REMEMBER

The sale bulls, along with our younger 2027 Autumn sale bulls, have benefited from a consistent supply of quality pasture throughout their development. It has been an ideal opportunity to see these genetics express their natural doing ability.

Spring calving is also well underway, with 52% of females calved just three days after our start date. The season began with an extraordinary run of twins, with 12 sets recorded among the first 40 cows calved. From all research and advise why so many twins we have learnt it is due to peak animal health and nutrient at joining time allowing the cow to release multiple eggs to be fertilised. Thankfully, the twins have now eased up.

ELITE NEW ZEALAND GENETICS

Rangatira Charlie 20-1034

Charlie has quickly established himself as one of the most exciting sires in the Leawood program.

After inspecting Charlie at Kenhardt Angus during our 2022 New Zealand stud tour, we immediately recognised the phenotype, capacity and consistency we were looking for. His first sons sold strongly through our 2026 Autumn Sale, while his international reputation continues to grow, highlighted by a son selling for a New Zealand record **NZ\$220,000**.

Charlie combines exceptional muscle expression, carcass quality and consistency. He has also proven to be the shortest-gestation sire we use, with calves consistently arriving around 8–10 days earlier, while maintaining excellent early vigour and growth.

Sudeley Viking 18101

Viking is regarded as one of the outstanding sons of the legendary Matauri Reality 839. His progeny are moderate-framed, exceptionally thick and early-maturing, making them ideally suited to commercial producers chasing more kilograms per hectare without sacrificing quality.

PROVEN LEAWOOD BLOODLINES

Leawood Ryder R453

From the proven Rambo sire line, Ryder consistently produces long-bodied cattle with added frame, growth and carcass expression, while retaining soundness and longevity.

Leawood Razor R347

A son of Taimate Lazarus, Razor stamps his progeny with excellent phenotype, added rib and rump fat, structural soundness and impressive carcass performance.

Leawood Pirate P391 & Leawood Titan T424

These larger-framed sires add capacity, bone, muscle and growth, while maintaining the structural integrity and carcass yield required in a commercial herd.

We encourage you to make contact prior to the sale so we can assist in identifying the bulls best suited to your breeding objectives.

SALE INFORMATION

INSPECTIONS

On farm inspections and viewing of sale cattle welcome anytime. Cattle yarded will be in pens ready to be inspected from 11am on sale day or prior to sale day by appointment only.

REBATE

Please register before sale to enable a smooth event. A rebate of 2% is offered to outside agents who attend the sale with or on behalf of their clients in writing prior to sale.

BULLS TREATMENTS

Bulls have been freeze-branded, vaccinated with BL2, ADE, 7:1 and also drenched with pour-on, in August 2026. Bulls are protected from transmitting reproductive diseases with Pestigard and Vibrovax Jun-Aug 2026. Scanned by Max Bowman and semen tested by Ian Moreland crush side.

**ANNUAL BOOSTER
RECOMMENDED** 

BULL GUARANTEE

To the best of our knowledge all our sale bulls are structurally sound, fertile and free of disease. If a bull seems to have an issue due to infertility or broken down, due to reason other than injury, misadventure or negligence, we will provide you with a satisfactory replacement or credit the purchaser the bulls value minus salvage costs. Feel free to get in contact with us at any time to discuss.

FREE BULL DELIVERY

Leawood will provide free delivery on sale bulls throughout Victoria. Delivery will be conducted the following weeks after the sale in conjunction with local carriers and our trusty driver.

CATERING

Light luncheon and drinks will be available from 12pm provided by Flynn CWA.
