Stud APDA registration transfer available only for Lots 1-17.
Minimum purchase price \$5,000 + GST for Stud Ram Transfer.
Minimum purchase price \$4,000 + GST for ram breeding flocks.

Our 'Young Gun Club' was introduced in 2025 to allow purchasers of stud rams in the previous two years to access semen from ram lambs that we collect for our own artificial breeding programs. This is designed as a bonus for clients, and to progeny test elite ram lambs at a younger age, driving additional genetic gain. This is a concept that we hope and intend to continue, however is not guaranteed due to the uncertainty of collecting ram lambs.

This year the Young Guns were Lots 3, 4 & 6 and have had a small number of semen packages sold in December 2025. A number of additional stud ram Lots were used in stud by us. Please do not hesitate to ask for any further information.

Ivadene retain the right to collect semen from any ram sold for in flock use only. This is at the vendor's expense, and the purchaser's convenience.

We stand 100% behind our product – if you have any issues please tell us first, we will always ensure that Ivadene clients are very happy and completely satisfied.
